

The new Building N at Glenwood High School

Glenwood High School upgrade

Welcome Pack | February 2024

Welcome to your upgraded school

We're excited the Glenwood High School upgrade is now complete and ready for students and staff to use. The first part of the upgrade was opened on Day 1 Term 4, 2023. The second part of the upgrade is now complete and includes:

New building
with 48 modern
classrooms

New Performing
Arts Centre

New specialist
science labs

New visual
arts hub

New staff hub

Upgrades
to existing
buildings and
classrooms

We are delighted to deliver this upgrade for the Glenwood community and hope you enjoy your new spaces.

Message from your Principal

I'm very pleased to welcome students to our new facilities for the start of the 2024 school year.

With all construction now complete, we are thrilled to move into our 48 new classrooms, specialised science labs, and staff facilities in Building N. In addition, we have access to the refurbished Buildings D, E and G and wonderful new landscaping around Building N, that I'm sure will be very popular with staff and students.

Last year, we were able to start using our new Performing Arts Centre, which is already loved by students, allowing them to participate in drama, dance, music, and physical education.

Each of our new buildings has been designed to complement our current teaching and learning strategies. I am confident that students and staff will make full use of the modern and flexible classrooms.

I would like to thank all our staff, students, and parents, who have all been very patient and understanding during the construction period. Your ongoing support of your school has been truly appreciated. I would especially like to acknowledge our teachers, who have been the true champions of resilience during the construction and refurbishment period. They have navigated the complexities of conducting classes while the sounds of construction reverberated through the halls. They have adapted lesson plans, embraced flexibility, and demonstrated a level of patience that is truly commendable. These facilities are a welcomed addition to our wonderful school.

Sonja Anderson

School Principal
Glenwood High School

Our Record Investment

As part of the NSW Government's plan to rebuild essential services, the 2023-24 Budget is delivering a record \$8.8 billion for new and upgraded schools. This targeted investment in growing communities will ensure working families get access to a world class public education.

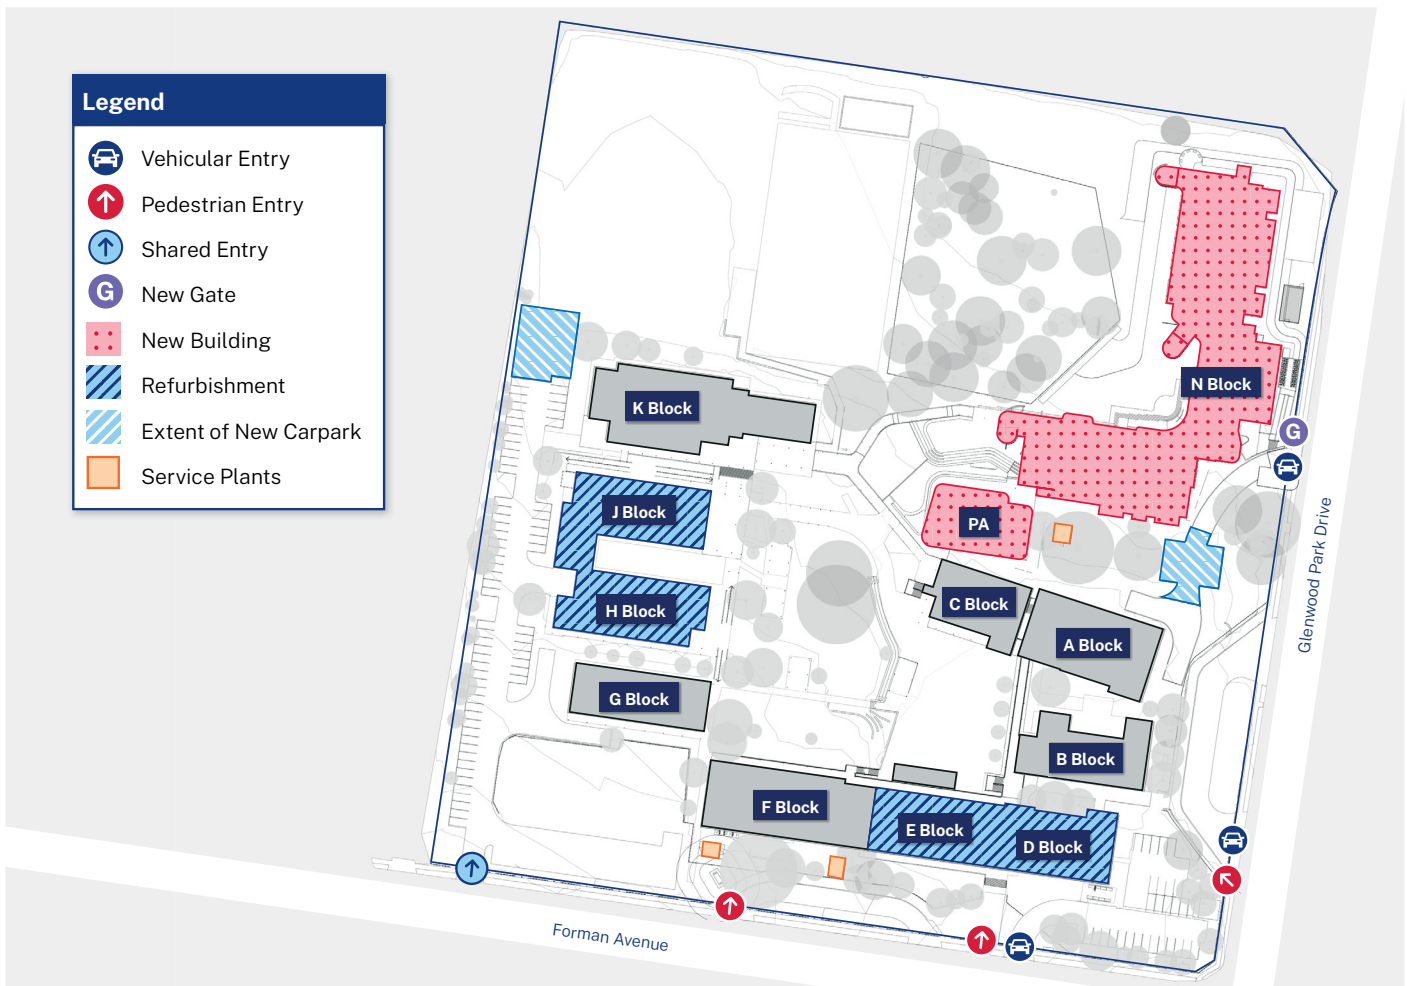

In addition to this major project, we are delivering new high schools in Schofields/Tallawong and Marsden Park, major capacity upgrades at The Ponds and Rouse Hill High Schools, and delivering 4 new and 3 upgraded primary schools for Nirimba Fields, Tallawong, Schofields, The Ponds, Marsden Park and Gables/Box Hill.

New modern classrooms

The new school building features new flexible learning spaces. These learning environments offer teachers flexibility in teaching methods and provide a variety of opportunities to enhance student collaboration, communication and engagement. Flexible learning spaces:

- are adaptable and can accommodate up to four class groups in each space.
- feature inclusive learning zones with break-out spaces, enabling students to learn in new ways and with new technologies.
- provide opportunities to enhance skills in collaboration, communication, critical thinking, problem solving and creativity.

Map of completed school

Overview

The project was delivered in 3 stages.

Stage 1 opened Day 1 Term 4 2023:

- A new single storey Performing Arts Centre.
- Ground floor of the new 3 storey building that features 3 specialist science labs and 4 modern classrooms.

Stages 2 and 3 open Day 1 Term 1 2024:

- A new 3 storey building (Building N) with remaining 41 technology rich classrooms and workshops.
- Upgrades to Buildings D, E and J.

Modern classrooms with flexible learning spaces

Stunning facade finishes

Thank you

Thank you for your patience during the upgrade to Glenwood High School. Your support and cooperation have been invaluable and made it possible for us to deliver these new facilities for students and staff.
