

Killarney Vale Public School

Works notification

27 August 2020

Dear parents/carers,

Further to the works notification issued on Tuesday 18 August 2020, remediation works at Killarney Vale Public School have been extended until Sunday 30 August 2020 and will also include the removal of lead-based paint. No potentially hazardous materials will be removed during school hours.

The area will be remediated in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Testing will be completed to ensure the site has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff. We will keep you informed if further contaminated material is found which requires removal.

The health, safety, and well-being of the school and the local community is our highest priority. Please be assured that the removal of this material will not pose a risk to the local community.

Thank you for your cooperation during this important work.
