Project update

February 2021

Investing in our schools

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

In January 2019, a fire destroyed a building at Wagga Wagga Public School.

A DA was submitted to Council in late January 2021. Subject to approval, the proposed design comprises a two-storey building that includes:

- Six new air conditioned, modern learning spaces
- Two staff offices
- New toilet facilities
- A new lift

Next steps

Pending DA approval, it is expected that a tender for construction will be issued in March 2021, with a contract awarded and construction to commence by mid-2021.

An indicative site plan is provided on the following page.

The project is expected to complete in early 2022.

Stay updated

School Infrastructure NSW will work closely with the school community and neighbours to minimise project impacts where possible. We will continue to share project updates and information throughout the planning and construction phase of the new facilities.

You can stay updated on the project via our website and you can get in touch with us using the contact details provided at the bottom of the page.
