There are many different jobs involved in building, upgrading and maintaining schools.

Can you answer these questions to reveal some of these jobs?

**Down:**

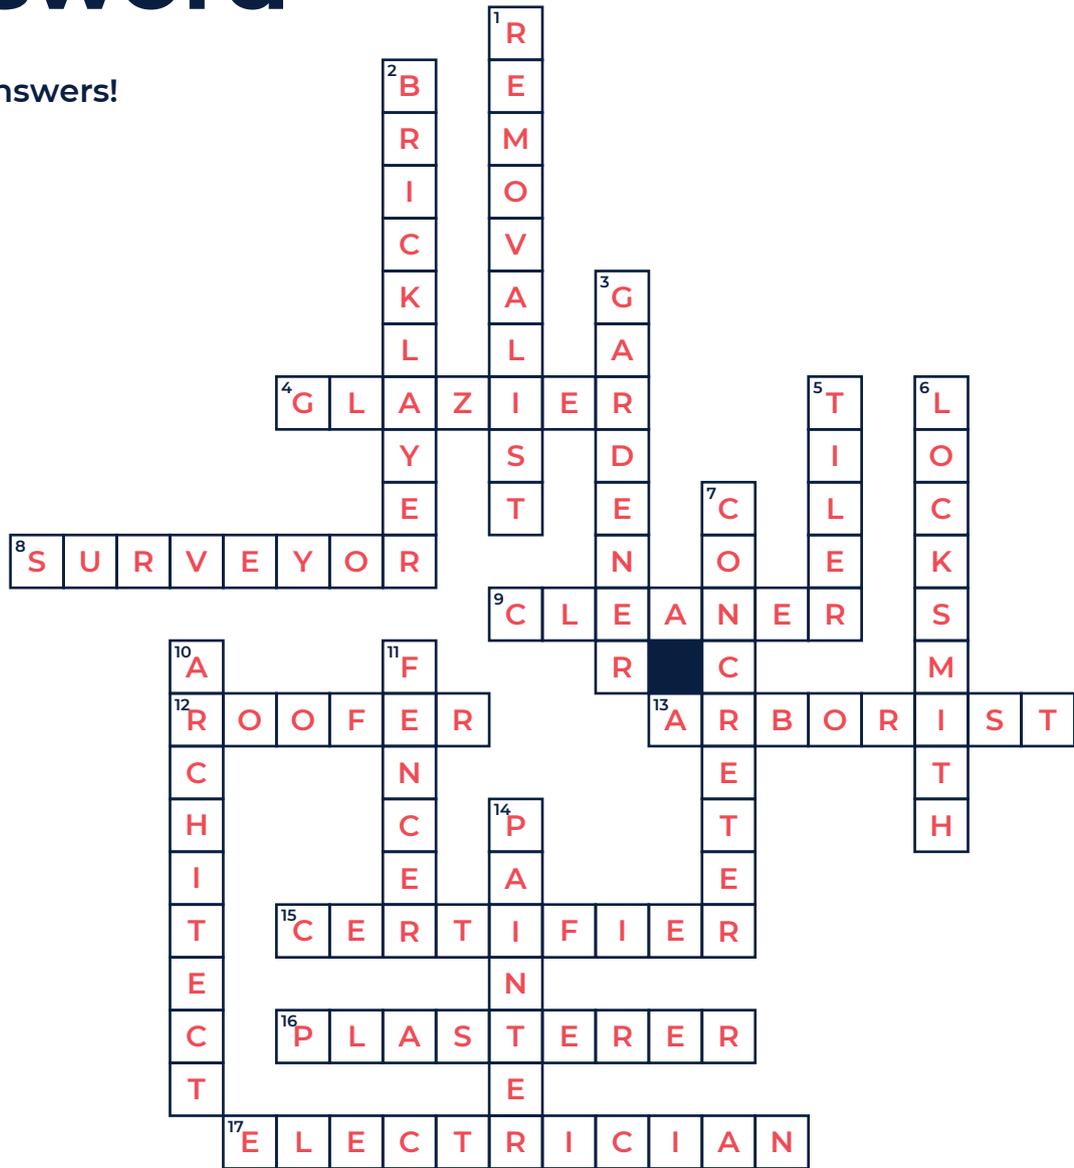

1. I deliver and move boxes, furniture and other equipment needed for indoor and outdoor learning spaces.
2. In the delivery phase, I use an architect's plans to lay the foundations of a building using bricks, mortar and a trowel.
3. I help to keep plants, trees and grass maintained.
5. I use a trowel and cement to place tiles onto floors and walls after a concreter has laid the cement.
6. Towards the completion of a project, I install and maintain locks, keys and security systems that keep the school safe.
7. I mix and pour concrete bases for floors, footpaths, ramps and other kinds of structures.
10. I plan, design and oversee the safe, sustainable and functional design of new or upgraded school buildings.
11. I put up safety fencing before construction commences and build permanent fencing near completion of the project.
14. I use a brush or roller to paint walls and surfaces throughout a school during the delivery phase, after walls and structures have been installed.

**Across:**

4. I am a tradesperson who is responsible for cutting, installing and removing glass in new or upgraded schools.
8. I use equipment to measure and calculate the dimensions and elevations of land in the planning phase.
9. I help to maintain good hygiene, and keep the school clean and tidy.
12. I repair, maintain and install the roofs of buildings once the structural walls and building foundations have been put up.
13. I am engaged during the planning, design and delivery phases to maintain or remove plants or trees using cutters or a chainsaw.
15. I inspect a project to ensure it complies with the construction plans.
16. I cover walls and ceilings with a white mixture to form a smooth hard surface when dried before painters commence their work.
17. I install, maintain, and repair the electrical systems including lighting and power needed to operate a school.
