

Eugowra Community Children's Centre (ECCC)

Flood Recovery Update | 27 February 2023

Since flooding in November 2022, the Department of Education have been working with Eugowra Community Children's Centre (ECCC), Cabonne Council and other partners to support continued operation of the centre and plan for a new facility.

We are committed to providing a facility for Eugowra Community Children's Centre to occupy over the next few years, as quickly as possible.

While the installation of temporary buildings at the Eugowra Showground has been underway, this may no longer be the most appropriate location for the ECCC to occupy due to statutory planning complexities. Further due diligence is required before the land can be leased and before a pre-school can be licensed to operate.

We are currently working closely with all relevant stakeholders, including the ECCC, the Eugowra Showground Society, Cabonne Council, and the Department of Planning and Environment, to determine the most suitable location for ECCC as soon as possible.

In the meantime, the preschool will continue its operating from the temporary space established in December on the grounds of Eugowra Public School.

We will continue to keep the community updated, and if you have any questions or concerns, you can contact us on the details below.

We thank you for your patience and understanding.
