Keeping schools COVID safe

Just over one year ago, NSW Education began responding to the rapidly escalating global pandemic. At a time of great uncertainty, when supermarket supply chains were struggling to meet demand, School Infrastructure NSW worked with our partners to establish a strategic response that prioritised safety for schools.

Delivery Strategy update: December 2020

In December 2020, we released an update to our 2020 Service Delivery Strategy. The update details procurements released to market throughout 2020 and outlines opportunities for industry to work with us this year as part of the NSW Government's COVID-19 recovery plans. We intend to publish future updates to the strategy in due course.
