Ajuga, Campbell House and Glenfield Park SSPs

Project update

May 2019

Investing in our schools

The NSW Government is investing \$6 billion over the next four years to deliver more than 170 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over four years. This is the largest investment in public education infrastructure in the history of NSW.

Project summary

A project to upgrade Ajuga, Campbell House and Glenfield Park Schools for Specific Purposes is underway. The upgrade will deliver:

- 15 new permanent learning spaces – five for each school
- six new life skills spaces – two for each school
- practical activity spaces for each of the three schools
- a new multi-purpose hall and associated fitness centre to be shared by all three schools

The project is expected to be completed in mid-2020.

Tender award and construction

The tender process is now complete and the contract has been awarded to Duffy Kennedy Construction.

Early works were completed early this year to prepare the site for construction.

Over the next month, the contractor will undertake the following to progress the project:

- site establishment, including installation of hoarding and site signage
- detailed design
- development of a Traffic Management Plan and Construction Management Plan

We will keep the school community updated as the project continues.
