

New primary school for the Alex Avenue community

Works notification

5 August 2020

A project is underway to deliver a new primary school for the Alex Avenue community in Schofields on Farmland Drive. The school will include 19 flexible learning spaces, a library, hall, canteen and covered outdoor learning area.

Out of hours deliveries

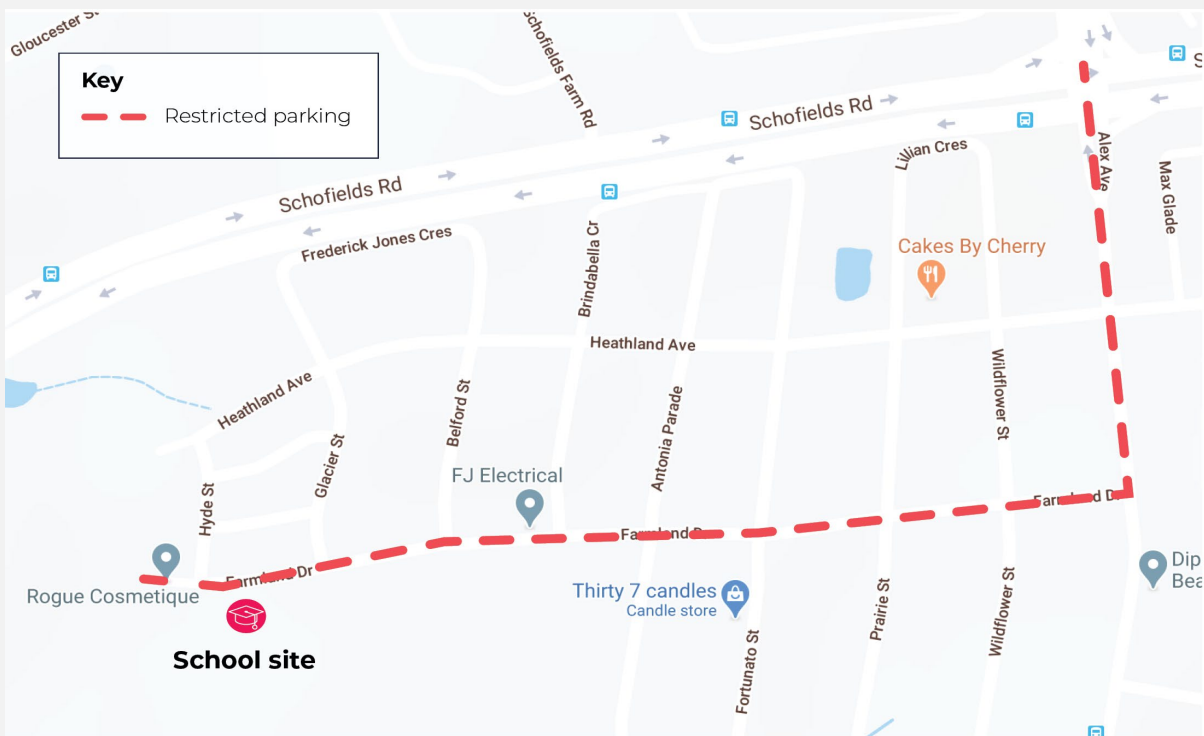

Main construction work on the new primary school has now begun. Some more oversized deliveries to the construction site have been scheduled. These will need to take place outside of normal construction hours because of the size of the trucks required. This is to minimise the impact on road users and the general public.

Deliveries to the school site are scheduled between midnight and 5:00am on the following mornings:

- Tuesday 18 August 2020
- Wednesday 19 August 2020

Driving hours for oversized trucks are regulated by Transport for NSW and Blacktown City Council. Once these deliveries are complete, no further oversized deliveries are required this year.

Parking on Farmland Drive and parts of Alex Avenue, Schofields, will be restricted each morning to make room for the oversized trucks. This will ensure that there is a safe turning and driving route to the school site. Please see the map below for restricted parking areas.

We are committed to minimising the impact of construction on local residents. Upon arrival on site, truck drivers will switch off their engines and remain in the cabs until approved working hours begin at 7:00am.

Standard construction hours are 7:00am to 6:00pm Monday to Friday and 8:00am to 1:00pm Saturdays. There will be no work on Sundays or public holidays.

Keeping you updated

Thank you for your understanding during this important work. We welcome any enquiries regarding work at the new primary school for the Alex Avenue community.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across New South Wales. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.
