

New multipurpose hall

# Armidale Secondary College

Project update | August 2022

## Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

## Project overview

The new Armidale Secondary College has been open since January 2021. Construction of the standalone multipurpose hall is now nearing completion. The multipurpose hall will include a performance space, stage and green room, two indoor basketball courts, a fitness studio and a movement studio along with staff facilities and two general learning spaces.

## Progress summary

We have completed external cladding, internal tiling works and the pouring of concrete for external stairs. The timber flooring and stage have been installed and sanding and polishing is underway. Delivery of furniture and equipment has started, and landscaping works are underway.

Over the last few months, progress of works on site have been impacted by extended periods of wet weather. Construction is now progressing well, and we expect to be able to finish the multipurpose hall for use by the school in Term 4.

### **Next steps**

Over the next few weeks, the following works will be completed:

- Sanding and polishing internal hall and stage.
- Installation of internal furniture and fittings, including the retractable seating and AV equipment.
- External works, which includes clearing, landscaping, and walkways.

Thank you for your patience and understanding while we continue to deliver this important school infrastructure. We will continue to provide updated information throughout the final stages of the project.

In the meantime, you can stay informed by regularly visiting the project web page and you can contact us via email or phone if you have any questions or feedback about the upgrades.

### **Working hours**

Working hours are Monday to Saturday, 7 am to 5 pm. No work will occur on Sundays or public holidays, unless otherwise advised.
