## Armidale Secondary College

### Project update

March 2020

#### Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years, along with a record \$500 million for the sustainable Cooler Classrooms program to provide air conditioning to schools. This is the largest investment in public education infrastructure in the history of NSW.

#### Armidale Secondary College

A new school is being developed on the current Armidale High School site, consolidating Armidale High School and Duval High School. The new school will:

- cater for approximately 1,500 students
- include modern facilities in 79 new classrooms
- deliver new school buildings
- new Multi-Purpose Hall to cater for performances, assemblies and sporting activities
- include learning neighbourhoods with flexible spaces that help students use modern technology, while working independently and in groups.

#### Progress summary

The redevelopment of Armidale Secondary College is progressing well with all structural steel works now complete in most zones and external cladding having commenced. In the heritage building, flooring, painting and acoustic treatments are nearing completion.

The project is forecast to be completed early 2021.

#### Information drop-in sessions, 19 March 2020

The Armidale Secondary College community is invited to attend information drop-in sessions to be held on Thursday 19 March. The sessions will provide updates on the progress of construction and information about the new Multi-Purpose Hall.

Armidale Secondary College – Duval Campus, Staff Common Room

Session 1: 8:00am - 9:30am

Session 2: 3:00pm - 6:00pm
