Arthur Phillip High School and Parramatta Public School

Term 1, School holiday construction works

April 2021

Investing in our schools

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

The Department is delighted to deliver this landmark education precinct for students, families and the broader community.

Arthur Phillip High School has innovative learning spaces with adaptable / moveable furniture and room configurations, specialist STEAM teaching facilities, a large amphitheatre, two new outdoor sports courts and a double-sized multi-sport gymnasium with associated landscaped areas.

Parramatta Public School has 40 permanent, innovative learning spaces, support areas, and modern indoor and outdoor landscaped zones including rooftop learning and playground space.

Progress summary

The final stage of the project is nearing completion and will provide increased open play space and active outdoor areas for students at Arthur Phillip High School and Parramatta Public School.

School holiday works

During the school holiday break works will continue at the former Arthur Phillip High School site, as part of Stage 3 completion. This will include hard and soft landscaping and heritage restoration works.

The Department is working closely with the contractors to minimise disruption to the surrounding community during the school holiday period.

Frequently asked questions

Why has the project completion date been extended?

The Stage 3 works, at the former Arthur Phillip High School site, encountered a number of site conditions that require the Department to put measures in place that extend the forecast completion date for the works.

These steps resulted in the completion date of the final stage of works being extended into early 2021.

What works will be completed over the holidays?

During the Term 1 school holiday break there will be minor works to both schools that will take place within the school buildings.

There are planned façade rectification works at Parramatta Public School. These works will take place from **Wednesday, 7 April to Saturday, 17 April 2021**, weather permitting. Temporary fencing will be installed along Charles Street to designate the work zone.

All works on Charles Street will be undertaken with an elevated work platform. Temporary traffic management and pedestrian diversions will be in place. See the map overleaf for details.

What are the construction working hours?

Construction will continue in line with hours approved under the State Significant Development (SSD) consent between 7:00am and 6:00pm Monday to Fridays and between 7:30am and 3:30pm Saturdays. No works will take place on Sundays or Public Holidays.

What safety measures will be in place?

The safety and well-being of students, staff and the community are our top priority and the final stage of construction will continue to be securely separated from the school and community by site fencing.

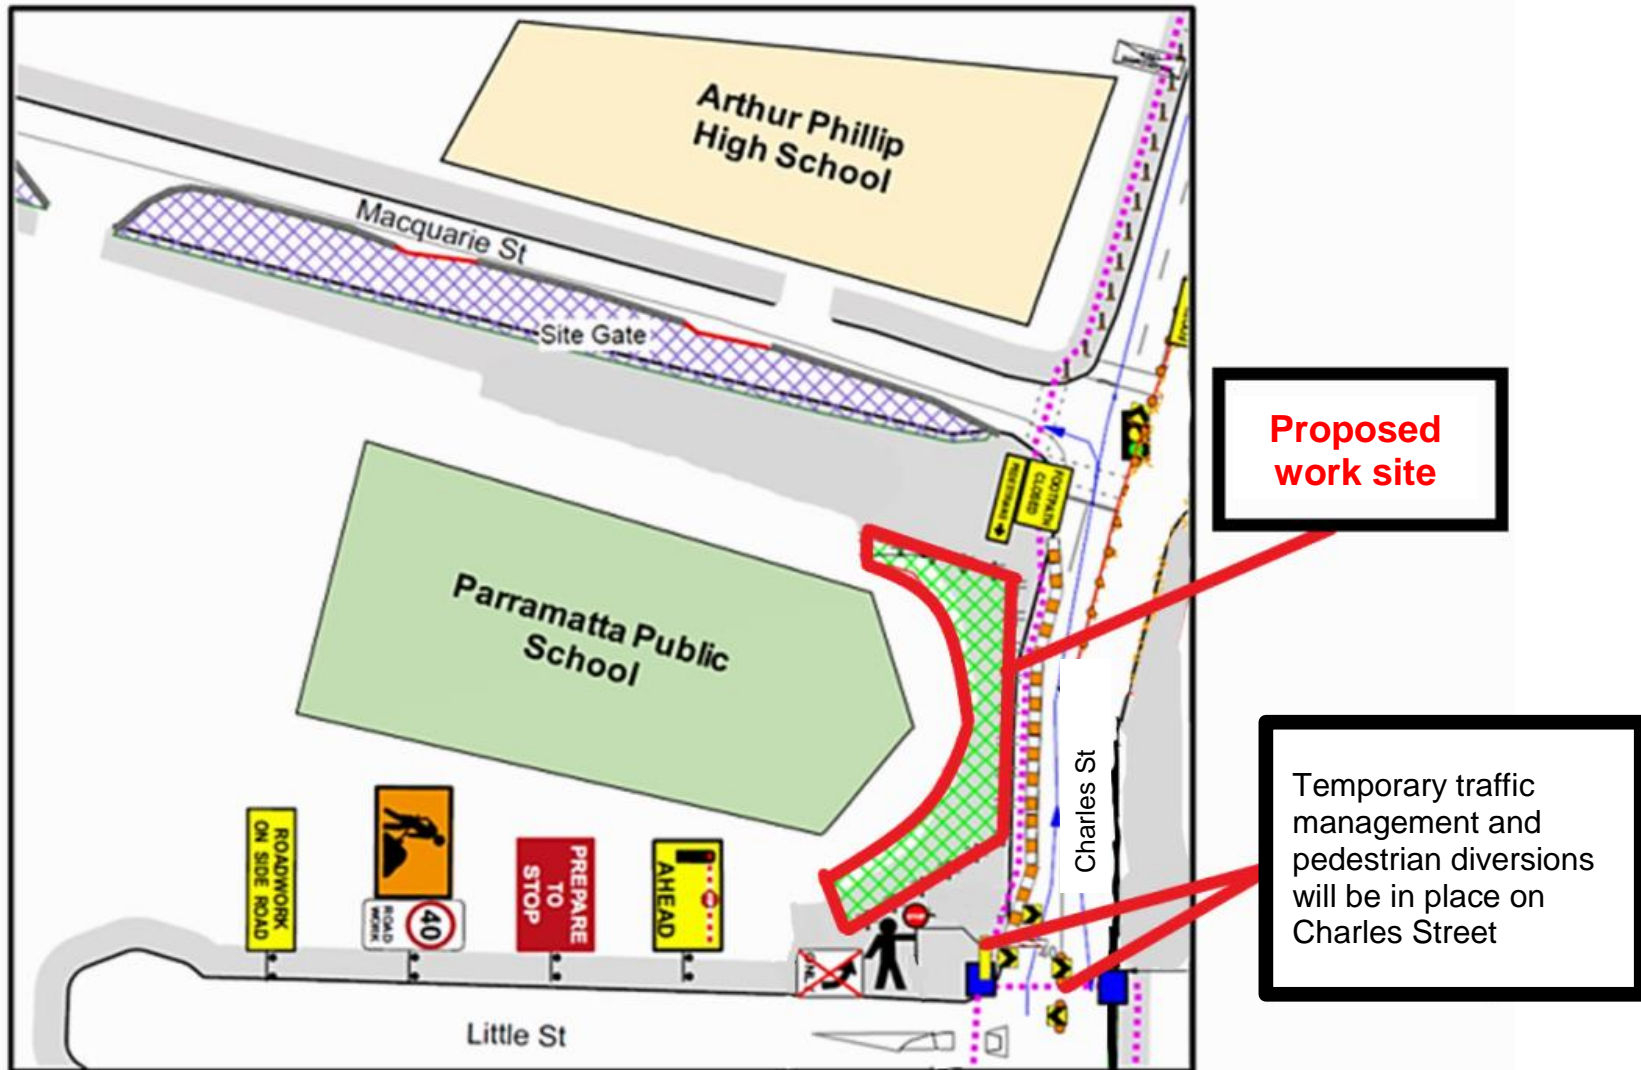

All work will be conducted in accordance with Safe Work NSW requirements, and the Construction Management Plan, which is in place as part of the SSD consent conditions.

The Department of Education and the contractor are operating within strict accordance of the NSW Public Health (COVID-19 Gatherings) Order 2020. Guided by the most up to date NSW Public Health Order, the contractor has and continues to maintain a COVID-19 Action Plan, which also applies to all sub-contractors on-site.
