## Project update

December 2021

### Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

### Project overview

A project is underway to upgrade Bletchington Public School to bring students the latest educational facilities and support the local community.

The project will deliver a new two-storey learning hub including 10 new flexible learning spaces (classrooms), a hall upgrade, a new ICT special programs unit, refurbishment of existing learning spaces including support classes and multi-purpose areas, replacement of the Covered Outdoor Learning Area (COLA) and upgraded connecting walkways.

The construction contract is expected to be awarded in late 2021. Once appointed, the builder will lodge a Complying Development Certificate to obtain planning approval for the main works. Site establishment works to prepare the site for construction will follow.

### Community information session

You are invited to attend a community information session to find out more about the project. The session will outline what you can expect during early site establishment works and how we will work with the school to minimise disruption to students and the wider community. It will also be an opportunity to meet members of the project team.

The session will be held on **Tuesday 14 December 2021 from 3pm to 6pm** in the Bletchington Public School hall. Please do not attend the information session if you are feeling in any way unwell. For those who are not able to attend the information session in person, all information from the day will also be made available on the School Infrastructure NSW website.

Entry to the session will be via the carpark gate on Matthews Avenue, Orange where attendees will be required to sign in and provide proof of vaccination status. Thank you in advance for your patience as we manage entry into the school hall. We look forward to welcoming you to the information session.
