

Bomaderry High School upgrade

Project update | February 2025

Project overview

A project is underway to upgrade Bomaderry High School. The upgrade will include fit-for-purpose classrooms and core facilities.

The project will deliver:

- a new building with administration facilities and Technological and Applied Studies (TAS) workshops and classrooms
- an upgrade of the existing kitchen to a Vocational Education and Training (VET) kitchen
- all new and upgraded TAS classrooms will be to VET standard
- refurbished classrooms
- refurbished staff rooms
- upgraded toilets
- accessibility improvements
- pedestrian safety improvements.

Progress update

The project's design and planning approvals are now complete for the new Building P and the current upgrade works. During the school holidays, significant progress has been made across the school site.

We are excited to announce that the first phase of the Building E refurbishment has been finished and handed back to the school for the start of Term 1 2025. This refurbishment includes finish to classrooms, staff rooms, and restrooms.

In addition, we have commenced preparatory work for the refurbishment of Building D, which includes removal and demolition activities. Internal refurbishment is underway, along with the installation of a new lift shaft.

For the new Building P at the front of the school, we have successfully completed the concrete pours for the floor slabs and the installation of steel framework for the walls and roof structures.

Next Steps

In the coming months, the second phase of the Building E refurbishment will commence which will feature the installation of a new lift, handrails and external upgrades.

Simultaneously, the refurbishment of Building D will progress, with the installation of a new lift, balustrades and handrails, along with significant internal upgrades to enhance teaching spaces. Additional outdoor improvements will be made to the covered walkways and pathways surrounding the building.

Construction will also continue on the new Building P, with key works including the installation of the roof, external cladding, windows and brickwork to commence this term.
