## Braidwood Central School

### Project update

September 2020

#### Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

#### Braidwood Central School

A project is underway to upgrade Braidwood Central School. This upgrade will include:

- two new buildings with six innovative general teaching spaces and two specialist learning areas, for music and drama
- refurbishment of two existing buildings
- new covered walkways and ramps
- refurbished outdoor spaces and play areas with modern landscaping
- refurbishment and extension of administration and staff facilities.

#### Progress summary

Construction has started and is progressing well. The internal demolition work for Building A is complete and the internal fitout works are continuing. The steel frame for Building 4 is complete and services rough in works (electrical, mechanical and plumbing) is in progress. See over for more information on what is being delivered in each building and where they are located.

#### Next steps

Construction work continues to progress well. The next steps include refurbishing the external façade of Building A, in keeping with the heritage design and internal painting. Internal works will continue in Building 4 and F. The demolition of Building T will start.

A new electrical substation will be installed by Essential Energy on Tuesday 6 October and Wednesday 7 October 2020 (weather permitted). The school will not have power on these days during the school holidays. Local residents affected by the power outages will receive a separate works notification.

## Project delivery

The upgrade at Braidwood Central School will be delivered in stages.

Stage 1 includes the upgrade of Building F and T to deliver five learning spaces, core facilities.

The extension of Building A and 4 to deliver administration and staff facilities.

Stage 2 includes two new buildings, Building 1 and Building 2, which will deliver an additional six general learning spaces and two specialised learning spaces.

## Construction hours

In line with the current NSW Environmental Planning and Assessment (COVID-19 Development – Construction Work Days) Order 2020, during the COVID-19 pandemic, School Infrastructure NSW construction sites can operate on weekends and public holidays. This is to allow workers to abide by social distancing rules while on construction sites by distributing building work across the week.

Construction work will take place 7:00am-6:00pm Monday to Friday and 8:00am-4:00pm on Saturday and Sunday.
