

Brookvale Public School

Project update

June 2020

Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Brookvale Public School

A project is underway at Brookvale Public School. The project will deliver:

- a new hall
- two refurbished learning spaces; and
- improved outdoor play spaces.

Progress summary

Construction is well progressed, with the roof and skylights installed. The external walls and brickwork are also complete and the windows have been installed.

Next steps

Work continues on the new hall and includes:

- installing the ceiling
- starting the internal fitout.

Due to the nature of our work, you may experience increased noise from machinery and other activities.

All works will be completed within the approved hours of Monday to Friday 7:00am to 5:00pm and Saturday 8:00am to 3:00pm.

We will ensure that work is completed safely and efficiently, and disruptions are minimised.

Our contractors will ensure their teams comply with social distancing restrictions to ensure a safe workplace.

Thank you for your patience as we deliver this important project for the community.
