

## Brookvale Public School

### Project update

September 2020

#### Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across New South Wales. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

#### Brookvale Public School

The project at Brookvale Public School is well underway to deliver:

- a new hall
- two refurbished learning spaces; and
- improved outdoor play spaces.

#### Progress summary

The new School hall and improved outdoor play space have been completed. These were handed over to the school on 7 August 2020 and are now being enjoyed by students and teachers.

#### Next steps

Work continues on refurbishing the old hall into two learning spaces. The old awning and timber deck have been demolished, with work now underway on footings for the new awning. Work is also taking place on the ceiling and flooring of the old hall.

Due to the nature of our work, you may experience increased noise from machinery and other activities.

All works will be completed within the approved hours of Monday to Friday 7:00am to 5:00pm and Saturday 8:00am to 3:00pm.

We will ensure that work is completed safely and efficiently, and disruptions are minimised.

Our contractors will ensure their teams comply with social distancing restrictions to ensure a safe workplace.

Thank you for your patience as we deliver this important project for the community.
