

Indicative design of the new Bungendore High School

Bungendore High School

Project update | February 2023

Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Progress summary

The State Significant Development (SSD) application has been approved by the NSW Department of Planning and Environment (DPE) and the detailed design is complete. Details regarding the determination are available on the NSW Government Planning Portal at: <https://www.planningportal.nsw.gov.au/major-projects/projects/new-high-school-bungendore>. You can also find the project's conditions of consent at this webpage. The contractor will soon mobilise to start works on the new high school. We will notify the community ahead of works starting.

Join us at an upcoming information session in our Mobile Info Hub

Members of the project team will be available at two community information sessions to discuss the next steps of the project as it moves into the construction phase.

Two information sessions will be held in our Mobile Info Hub, which will be located at the entrance of Bungendore Public School on Gibraltar Street.

Wednesday 22 February 2023: 2.30pm to 7.00pm

Wednesday 1 March 2023: 2.30pm to 7.00pm

This is a drop-in style information session so you can visit at any point during the above times when convenient to you and speak to individuals from the project team. Registration is not required.

We look forward to seeing you there. If you are not able to make the sessions, the information will be available on the project webpage.

We thank the community for its patience and feedback throughout the planning process for both the permanent high school site and the temporary high school site (located in the Bungendore Public School grounds).
