

Cammeray Public School upgrade

Project update | October 2023

Investing in our schools

As part of the NSW Government's plan to rebuild essential services, the 2023-24 Budget is delivering a record \$8.8 billion for new and upgraded schools. This targeted investment in growing communities will ensure working families get access to a world class public education.

The 2023-24 Budget committed funding to progress with an upgrade to Cammeray Public School.

Cammeray Public School upgrade

These funds will help to upgrade Cammeray Public School to deliver new and upgraded facilities.

Further updates will be released as the project progresses.

Early planning has begun. In the next phase of the project architects and engineers will be appointed, and an analysis of the site will take place, along with the development of the concept design. Doing so means that we consider the needs of the local area now and into the future, and ensure the right school facilities are designed for the community.

How can I get involved?

We are committed to working together with our school communities and stakeholders to deliver the best learning facilities for students. As the project progresses from the planning phase, we will share details with the community for feedback.

A dedicated project page has been published on the School Infrastructure NSW website, which is updated as the project progresses. You can also contact us via our community information line and email using the details below.

Want to know more about how we build and upgrade schools?
