

Cammeray Public School Upgrade

Works notification | 10 January 2024

As part of the NSW Government's plan to rebuild essential services, a project is underway to upgrade Cammeray Public School.

Site investigations

On Friday 12 January 2024 between 7am and 6pm, site investigations are being carried out on school grounds. This work is weather permitting.

This involves geotechnical work, drilling 4 bore holes to obtain soil and rock composition information. We will use a truck mounted drill rig to make these holes, which is roughly as loud as a commercial lawnmower.

The purpose of these investigations is to obtain information on the ground conditions to inform the project.

Refer to the shaded area of the map for the location of the geotechnical investigation.

We do not anticipate any of this work to be noisy or cause vibrations. There will be no disruption to the Out of School Hours holiday program, traffic or pedestrian travel.

Thank you for your patience while we deliver this important infrastructure.
