

Cammeray Public School Project update | July 2025

Image caption: Artist impression of the new building, subject to change.

Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2025-26 Budget is delivering record education funding, including \$9 billion for new and upgraded schools. This targeted investment will ensure growing communities get access to a world class public education.

Project overview

The upgrade to Cammeray Public School will replace demountable buildings with 4 new permanent classrooms and 2 practical activities areas in a new two-storey building. The new building will include a lift and covered walkways.

Progress summary

We are pleased to announce that Avium Pty Ltd has been selected as the construction contractor for the upgrade at Cammeray Public School.

Stage 1 playground update

We're excited to share that the new playground is now complete. The students are already having a great time exploring and playing in their new space. See photographs of the new space on the next page.

Cammeray Public School would like to thank the school community for their donations to help build the new play space.

We appreciate your patience during the construction.

Next steps

We will work with Avium Pty Ltd on a construction timeline and once this is finalised we will share the information with the community. We anticipate construction to begin in mid 2025.
