

# Canterbury Boys High School

Works notification | 28 June 2023

A project is underway to provide a new multi-purpose hall at Canterbury Boys High School. The new hall will include a stage, indoor sports court, toilets, first-aid room and back of house facilities.

## Winter school holidays works

During the winter school holidays, scaffolding works in preparation for the external cladding will continue and works to install the roofing will start. Works to install internal and external wall framing for the new hall will take place.

Concrete slabs for the western ramp, stairs and part of the forecourt area are expected to be poured from Thursday 29 June 2023, weather permitting. The concrete pour is low in volume and will not impact street traffic.

Electrical and security connection cabling for the new hall, and sewer encasement is scheduled to be finished in early July pending Sydney Water Approval.

## Water hydrant works

The hydrant water supply connection and upgrade works have progressed as scheduled. The reconnection of the water main work is underway, and works are anticipated to be finished in mid-July.

Please be assured no properties will lose water supply during this activity.

## Working hours

Work will take place during the approved construction hours, 7am to 6pm Monday to Friday, and 8am to 1pm Saturdays. No work will occur on Sundays or public holidays, unless otherwise advised.

We are here to make sure that the works are completed safely and efficiently, with minimal impact on the community.

The health, safety, and wellbeing of the school and the local community is our highest priority, and we will continue to keep the community. Thank you for your cooperation while we deliver this important school infrastructure.
