

# Canterbury Boys High School

Works notification | 16 March 2023

A project is underway to provide a new multi-purpose hall at Canterbury Boys High School. The new hall will include a stage, indoor sports court, toilets, first-aid room and back of house facilities.

## Remediation works

Due to inclement weather, remediation works are continuing on the oval at Canterbury Boys High School and expected to be completed by early-April 2023. Further to a previous notification issued about site investigations including the removal of contaminated materials on site in February 2023, the removal of these materials is being managed through the project's Remediation Action Plan.

All asbestos containing material is being managed in accordance with the advice of the independent hygienist and approved Remediation Action Plan.

This area will be remediated in accordance with SafeWork NSW regulations and any relevant site-specific management plans. All work will be completed by licensed and accredited contractors in accordance with all applicable legislation, regulations, policies, and guidelines, and based on assessment of site context and conditions.

The construction site is a controlled environment, with the area secured and appropriate controls and monitoring measures installed. Testing will be completed to ensure the area has been fully remediated and cleared for additional works.

## Working hours

Work will take place during the approved construction hours, 7am to 6pm Monday to Friday, and 8am to 1pm Saturdays. No work will occur on Sundays or public holidays, unless otherwise advised.

We are here to make sure that the works are completed safely and efficiently, with minimal impact on the community.

We will continue to update the community as the project progresses.

The health, safety, and wellbeing of the school and the local community is our highest priority, and we will continue to keep the community updated. Thank you for your cooperation during this important work.
