

Carlingford West Public School and Cumberland High School

Works notification | 5 April 2024

As part of the NSW Government's plan to rebuild essential services, a project is underway to upgrade Carlingford West Public School and Cumberland High School.

Removal of oversize piling rig

On 26 March 2024, we notified that a large 80 tonne piling rig will be removed from Carlingford West Public School between Tuesday 2 April 2024 and Friday 12 April 2024.

The works notification is on the project website:

<https://www.schoolinfrastructure.nsw.gov.au/projects/c/carlingford-west-public-school-and-cumberland-high-school-upgrade.html#category-works-notifications>

Due to wet weather, this process may be delayed. The piling rig will be removed one evening before Monday 22 April 2024 between 11pm and 5am, via Felton Road west. This is dependent on weather conditions and approval from Transport for NSW.

This piling rig will be removed with oversized vehicles that need to access the site during the evening and early hours of the morning to comply with Transport for NSW's and Council's road traffic regulations.

The oversized vehicles will travel slowly through residential streets. It will take approximately one hour to leave the site and the team will work to minimise noise as much as possible, such as turning off engines while waiting to enter the site.

The piling rig at the high school will be relocated to the public school in late April or early May to continue with the piling work. A further notification will be issued to residents before the rig is relocated.

Thank you for your patience while we deliver this important infrastructure.
