

Carlingford West Public School and Cumberland High School

Works notification | 6 February 2024

As part of the NSW Government's plan to rebuild essential services, a project is underway to upgrade Carlingford West Public School and Cumberland High School.

Delivery of oversize piling rigs

On two evenings between Tuesday 13 February 2024 and Tuesday 20 February 2024 during the hours of 1am to 5am, two large 80 tonne piling rigs are being delivered to the schools. This delivery is dependent on weather conditions and approval from Transport for NSW.

These piling rigs will arrive via oversized vehicles and need to be delivered during the early hours of the morning to comply with road traffic regulations. The oversized vehicles will travel slowly through residential streets before proceeding onto the sites. Each rig delivery will take approximately one hour and the team will work to minimise noise as much as possible such as turning off engines while waiting to enter the site.

One piling rig is being delivered to Cumberland High School via Dunmore Avenue. The other is being delivered to Carlingford West Public School via Felton Road (west). There may be some noise associated with the delivery.

They will be delivered onto the school grounds and into the existing construction sites behind timber hoarding fences.

These rigs drill holes at depths of up to 12 metres to allow concrete placement for structural columns in the ground, to establish foundations for new buildings.

The piling rigs will remain on site for a few months and another notification will be distributed for the removal of the piling rigs upon completion of the piling works.

For more information about piling please view the [previous notification](#) distributed on 22 January 2024.

Thank you for your patience while we deliver this important infrastructure.
