

# Carlingford West Public School and Cumberland High School

## Works notification

2 April 2022

A number of activities are continuing across Carlingford West Public School and Cumberland High School as part of works to prepare for the upgrades. The community will see increased construction traffic with general deliveries of material as well as trucks to remove material from site.

Trucks and cranes are continuing to position a number of temporary buildings and equipment for the temporary school located on Carlingford West Public School's southern play space and the northern section of Cumberland High School's oval.

### Early works demolition activities

Early works demolition of Block C at Carlingford West Public School and Block B at Cumberland High School will take place during the April school holidays. Works zones are detailed on the map overleaf.

Demolition is anticipated to be finished by Saturday 23 April, weather depending.

As part of demolition activities, asbestos containing material will be removed from Block C at Carlingford West Public School and Block B at Cumberland High School. The material has been confirmed as bonded asbestos which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

This area will be remediated in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulation. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The demolition sites are controlled environments and will be separated by hoarding and a fence around the perimeter. The area will be secured and appropriate controls and monitoring measures will be installed.

Safety measures and monitoring have been put in place to ensure there is no risk to the local community and testing will be completed to ensure the area has been fully remediated.

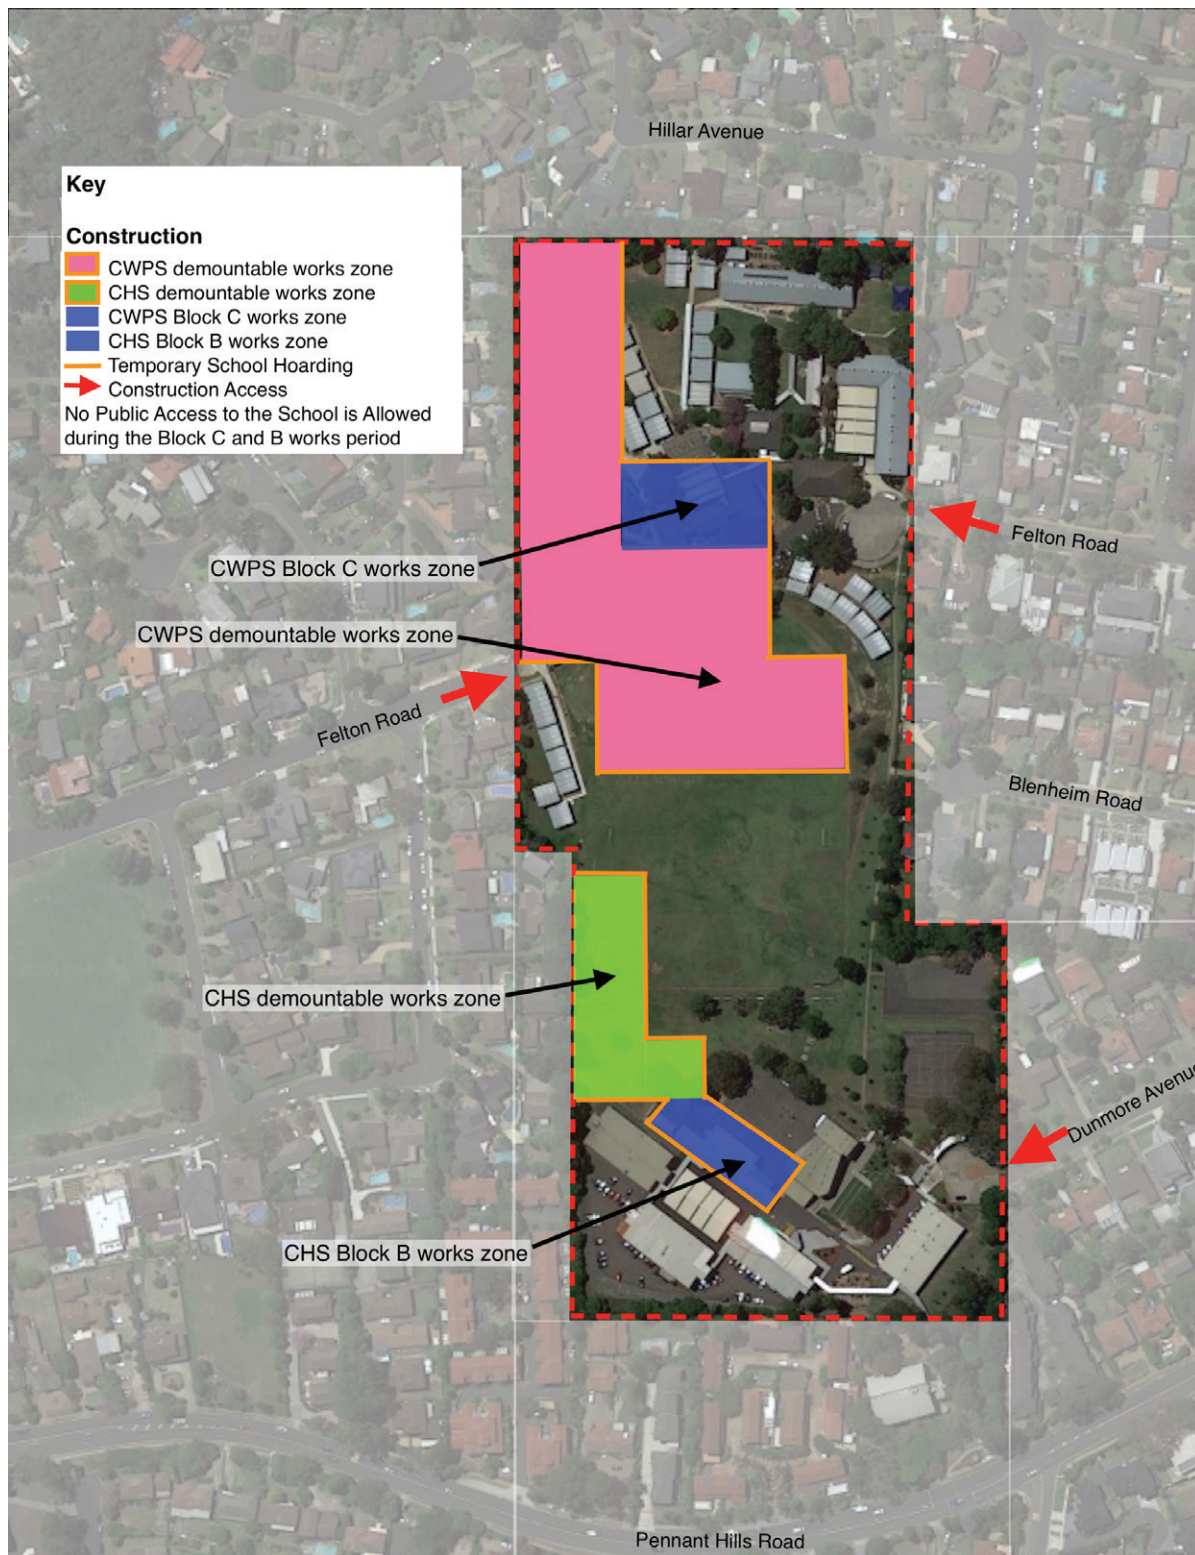

### Working hours

This work will take place from Monday 11 April until Saturday 23 April 2022, weather permitting. Standard project working hours are 7 am to 5 pm, Monday to Friday and 8 am to 1 pm Saturday. No work expected to take place on Sundays or public holidays.
