

# Chatswood Public School & Chatswood High School

## Project update

February 2022

### Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

We are upgrading Chatswood Public School and Chatswood High School with new and improved facilities to support the local community.

### Progress summary

In February, upgrades will continue at Chatswood Public School and Chatswood High School (weather and site conditions permitting).

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy; however, we will take every possible step to minimise noise, such as switching off equipment when not in use and using non-tonal reversing beepers. Where temporary footpath changes, car parking removal or lane closures are required for works, traffic control, pedestrian detours, and signage will be in place to assist the community.
