

# Upgrades to Chatswood Public School and Chatswood High School

Works notification | 20 February 2023

We are upgrading Chatswood Public School and Chatswood High School with new and improved education facilities to support the student community.

## Removal of tower crane at Chatswood High School

On Thursday 23 February 2023 between 7 am and 6 pm, the tower crane at Chatswood High School will be dismantled and removed from site, weather permitting. As a contingency due to poor weather, the dismantling and removal will take place on Friday 24 February 2023.

A mobile crane will assist to dismantle the tower crane into smaller components ready to be removed from site. All dismantling activity will occur within the confines of the construction site, and we do not expect the activity to be noisy. An oversized vehicle will deliver the mobile crane prior to 7 am in accordance with its road occupancy licence. The oversized vehicle will enter the construction site to drop off the crane and collect the dismantled tower crane components through the eastern Centennial Avenue construction entrance as shown on the map below.

Whilst traffic control measures will be in place to assist vehicle movements to and from the site, there will be no road closures on Centennial Avenue.

Thank you for your patience while we deliver this important school infrastructure.
