

Chatswood Public School climbing wall in 'The Cave'

Chatswood Public School and Chatswood High School

Project update | February 2023

Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Progress summary and next steps

Welcome to Term 1 2023 and to the final year of construction at the Chatswood Schools. During the summer holidays there was a lot of activity at both schools, including the removal of most of the demountable classrooms from the perimeter of the sports field at the high school. The newly uncovered sports courts and cricket nets will be rebuilt during Term 1 and returned to the school and local community for use on Day 1 Term 2. The Bush Campus will remain to accommodate fluctuations in enrolments.

A new construction zone has been established at the public school and Buildings D and H are being demolished to make way for a new sports court, yarning circle and landscaping in the central courtyard.

The planned activity for the month of February 2023 is provided for each school overleaf.

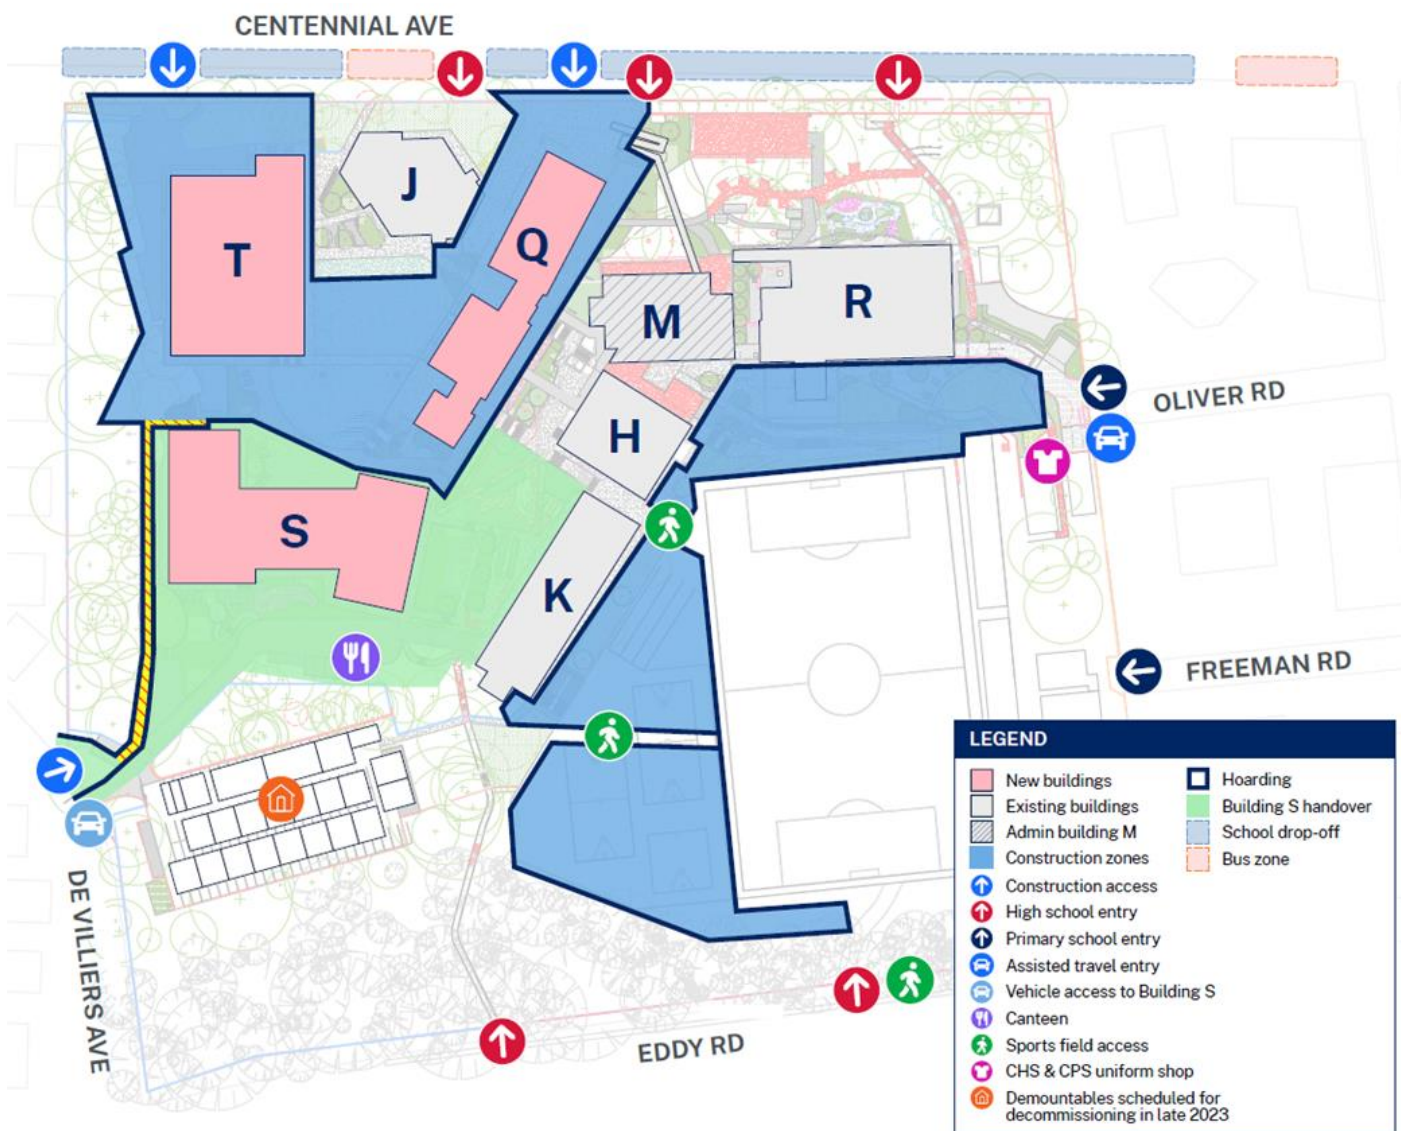

During construction, access to buildings and driveways will be maintained at all times, except for a small number of driveways impacted by the Jenkins Street stormwater works. Where temporary footpath changes, car parking removal or lane closures are required for works, traffic control, pedestrian detours, and signage will be in place to assist the community. Some of this work may be noisy; however, we will take every possible step to minimise noise, such as switching off equipment when not in use and using non-tonal reversing beepers. Standard construction hours for this project are 7 am to 6 pm Monday to Friday, and 8 am to 4 pm, Saturdays. No works will take place on Sundays or public holidays, unless otherwise notified.

Chatswood High School

The below table summarises upcoming work activities for February 2023.

Indicative timing	Detail of upcoming works
<i>Throughout February</i>	<ul style="list-style-type: none"> • Buildings T and Q façade cladding and Building T brickwork and louvres • Buildings T and Q wall framing and services installations • Building T installation of gym ceilings and internal and wall linings (lower ground and ground floors), and service installation
