

Upgrades to Chatswood Public School

Works notification | 30 June 2023

We are upgrading Chatswood Public School and Chatswood High School with new and improved education facilities to support the student community.

Retaining wall works at Chatswood Public School on Centennial Avenue

Work to repair or replace the retaining walls at Chatswood Public School has been delayed and will start during the school holidays. This work is necessary due to the pre-existing deterioration of the structure of the wall and will be carried out in stages.

During the work, footpath closures with pedestrian detours and some road closures will be in place between the hours of 7 am and 5 pm. Traffic controllers will be in place to direct pedestrians to the footpath detours and local traffic into James Street as shown on the maps on the following pages. Access to driveways will not be affected during this work.

Removal of trees from within the public-school grounds and at 2 James Street

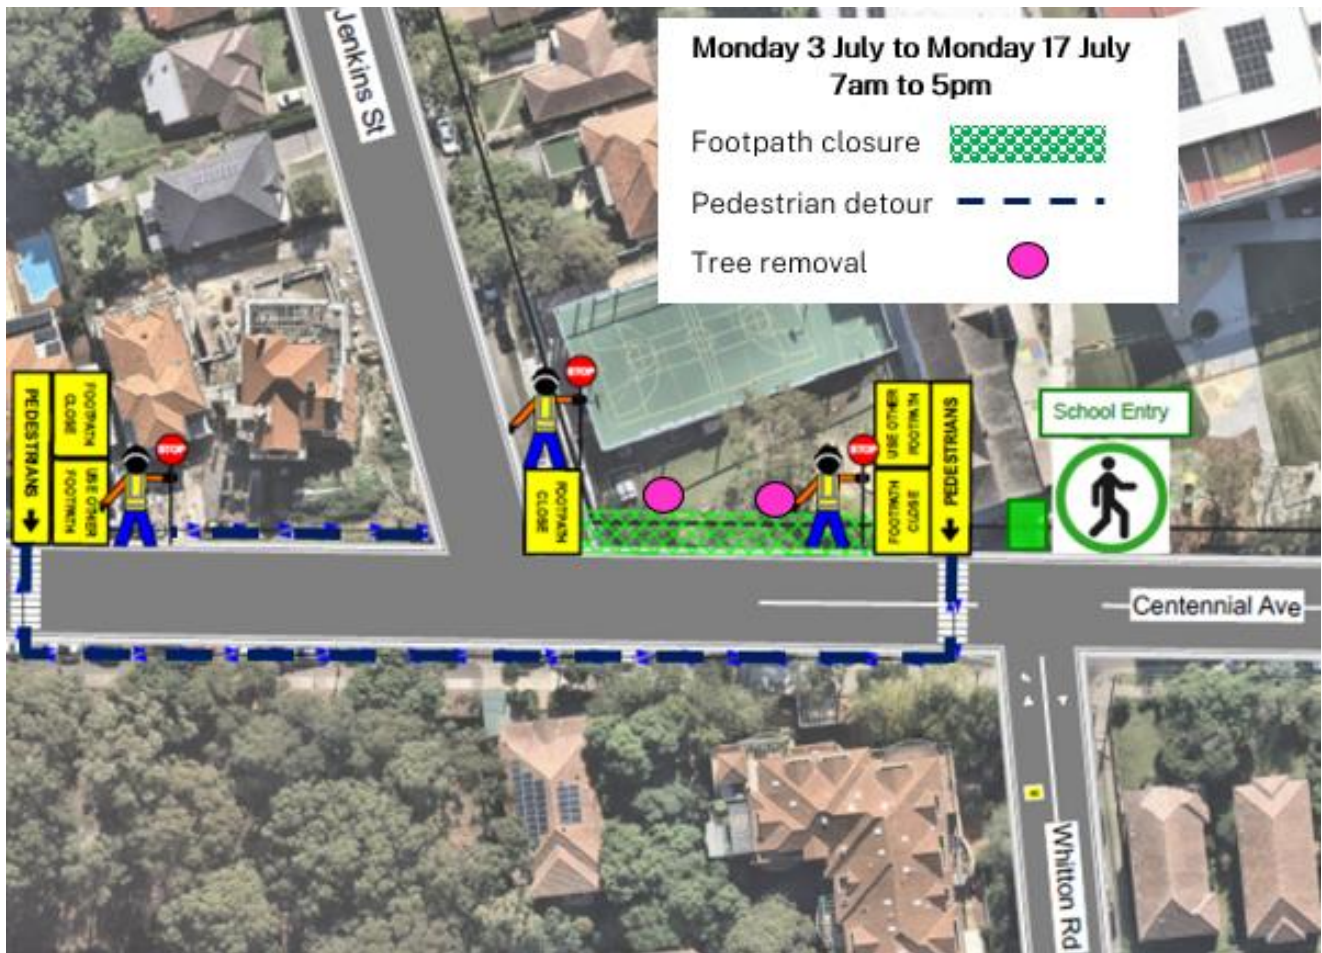

In consultation with an arborist, it has been determined that three trees within the public-school grounds need to be removed. One tree will also be removed from 2 James Street. The removal of the trees is necessary, as they are contributing to the structural failure of the walls.

We appreciate the patience of the community, particularly around drop off and pick up times, as we work to finish the construction.

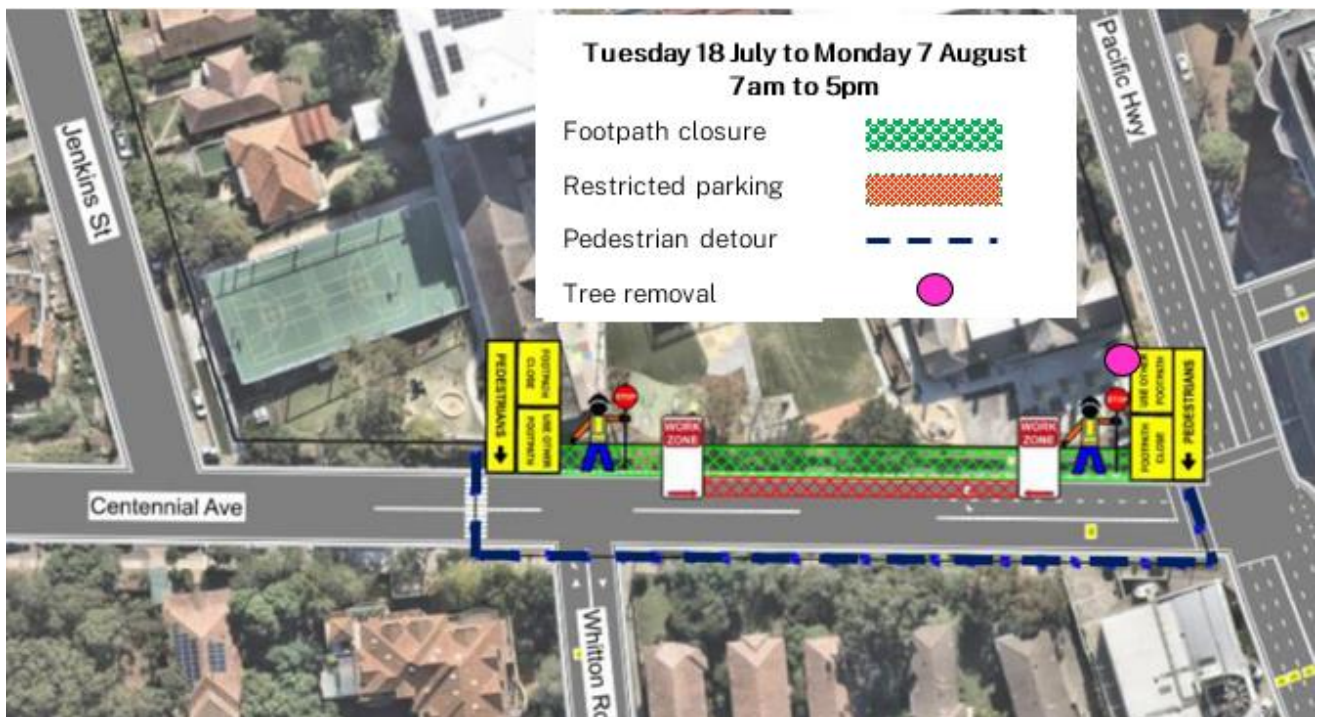

Timing and location	Activity
Stage one: Lower boundary wall on Centennial Avenue near the corner of Jenkins Street	
Monday 3 July to Monday 17 July 7 am to 5 pm (<i>Saturday hours finish at 4pm</i>)	<ul style="list-style-type: none"> • Site establishment including delivery of excavator with piling attachment • Demolition of existing brick wall • Construction of new foundations and concrete wall • Construction of new retaining wall • Demobilisation of site.
