

Upgrades to Chatswood Public School and Chatswood High School

Works notification | 6 September 2023

We are upgrading Chatswood Public School and Chatswood High School with new and improved education facilities to support the student community.

Retaining wall works at Chatswood Public School on Centennial Avenue

Stage one of the work to repair or replace the retaining walls at Chatswood Public School has been extended and will now finish on Friday 22 September.

Construction hours are 7 am to 5 pm Monday to Friday and 8am to 4pm on Saturdays.

Temporary changes to public school drop-off and pick-up

The school community is reminded that Jenkins Street is currently unavailable for pick-up and drop-off (PUDO). Please use the recently reinstated drop off and pick up zone on Centennial Avenue. This temporary change will assist with student safety during the pedestrian diversion.

The school also requests the school community do not conduct U-turns in the driveway of the school's car park on Jenkins Street.

Map of stage one works with pick-up/drop-off arrangements

The map below shows locations and pedestrian diversions during the works.
