1 Introduction

This Staging Report has been prepared by Richard Crookes Constructions and Johnstaff on behalf of the NSW Department of Education (DoE) for Chatswood Public School & High School (SSD 9483). The Staging Report has been prepared in accordance with the conditions of the State Significant Development Approval SSD 9483 to allow the staged operation of the development.

This has been prepared to meet the requirements of condition A9, A10, A11 and A12 of the development consent and will be submitted to the Department of Planning Industry and Environment (DPIE) for approval.

Consent Condition A9: Staging

Table 1: Condition A9, A10, A11 and A12 requirements and where they are addressed

Consent Condition A9: Staging	The Staging Report addresses this
The project may be constructed and operated in stages. Where compliance with conditions is required to be staged due to staged construction or operation, a Staging Report (for either or both construction and operation as the case may be) must be prepared and submitted to the satisfaction of the Planning Secretary. The Staging Report must be submitted to the Planning Secretary no later than one month before the commencement of construction of the first of the proposed stages of construction (or if only staged operation is proposed, one month before the commencement of operation of the first of the proposed stages of operation) unless otherwise approved by the Planning Secretary.	In accordance with Condition A9, this Staging Report is being submitted to the Planning Secretary at least ONE MONTH prior to the date of Commencement of Operation and has been prepared in accordance with Condition A10.
Note: Works may commence upon the Planning Secretary's approval of a Staging Report and satisfaction of all relevant conditions.	
Consent Condition A10:	The Staging Report addresses this
A Staging Report prepared in accordance with condition A9 must:	a) Not addressed. Construction
 (a) if staged construction is proposed, set out how the construction of the whole of the project will be staged, including details of work and other activities to be carried out in each stage and the general timing of when construction of each stage will commence and finish; 	 commencement conditions will be satisfied prior to all construction, staging of construction conditions is not proposed. b) Section 1.2 and Section 2 address Condition A10_b) and set out how operation of the project will be staged.
(a) if staged construction is proposed, set out how the construction of the whole of the project will be staged, including details of work and other activities to be carried out in each stage and the general timing of when construction of each	prior to all construction, staging of construction conditions is not proposed. b) Section 1.2 and Section 2 address Condition A10_b) and set out how

Consent Condition A11:	The Staging Report addresses this
Where a Staging Report is required, the project must be staged in accordance with the Staging Report, as approved by the	The project will be staged in accordance with the Staging Report.
Planning Secretary.	Regardless of the potential cross over of staging, the staging report is to be updated to include that, the project will always remain compliant with the conditions of consent, where:
	1. All conditions of consent will be satisfied as per the appended condition matrix as per the condition timings.
	2. Site establishment will be maintained in a manner that maintains a safe environment for operational, construction and public domain components.
	3. Compliance with BCA and Standards will be certified via Crown Completion Certificates.
Consent Condition A12:	The Staging Report addresses this
Where construction or operation is being staged in accordance with a Staging Report, the terms of this consent that apply or are relevant to the works or activities to be carried out in a specific stage must be complied with at the relevant time for that stage as identified in the Staging Report.	The terms of consent that apply or are relevant to the works of activities to be carried out in a specific stage will be complied with at the relevant time for that stage as identified in the Staging Report.

1.1 Project Overview

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

Both Chatswood Public School (CPS) and Chatswood High School (CHS) have seen significant enrolment growth with resulting pressure on available space and facilities at each school given their reputation for educational excellence, including opportunity classes at the Public School and a selective stream at the High School.

Upgrades to Chatswood Public School includes the provision of:

- 53 Classrooms (comprising 25 existing, 28 new spaces);
- Four (4) x special program classrooms (music, language etc);
- Three (3) x special support unit classrooms;
- Increased quality play spaces;
- Retention of heritage buildings A and B;
- New hall;
- New car parking facilities and
- Associated site works and landscaping.

Upgrades to Chatswood High School includes the provision of:

- 118 Classrooms (comprising 18 existing, 18 upgraded and 82 new spaces);
- Four (4) x special support unit classrooms;
- New administration and staff facilities;
- New hall; and
- Associated site works and landscaping.

1.1.1 Indicative Date of Commencement of Construction

The indicative date of commencement of construction is June 7th, 2021.

1.1.2 Submission to Planning Secretary for Approval.

In accordance with Condition A9, this Staging Report is being submitted to the Planning Secretary at least <u>ONE MONTH</u> prior to the date of Commencement of Operation and has been prepared in accordance with Condition A10.

The date of original submission of the report was 30th April 2021.

1.2 Details of Proposed Staging

1.2.1 Staging

To maintain a fully functional school community throughout construction, the project sequence requires the staged operation of new buildings and landscaped areas to maintain a fully functional school community, across both the Public and High School sites. The proposed stages, and the staging of compliance with conditions, have generally been determined by the operational needs of the school community.

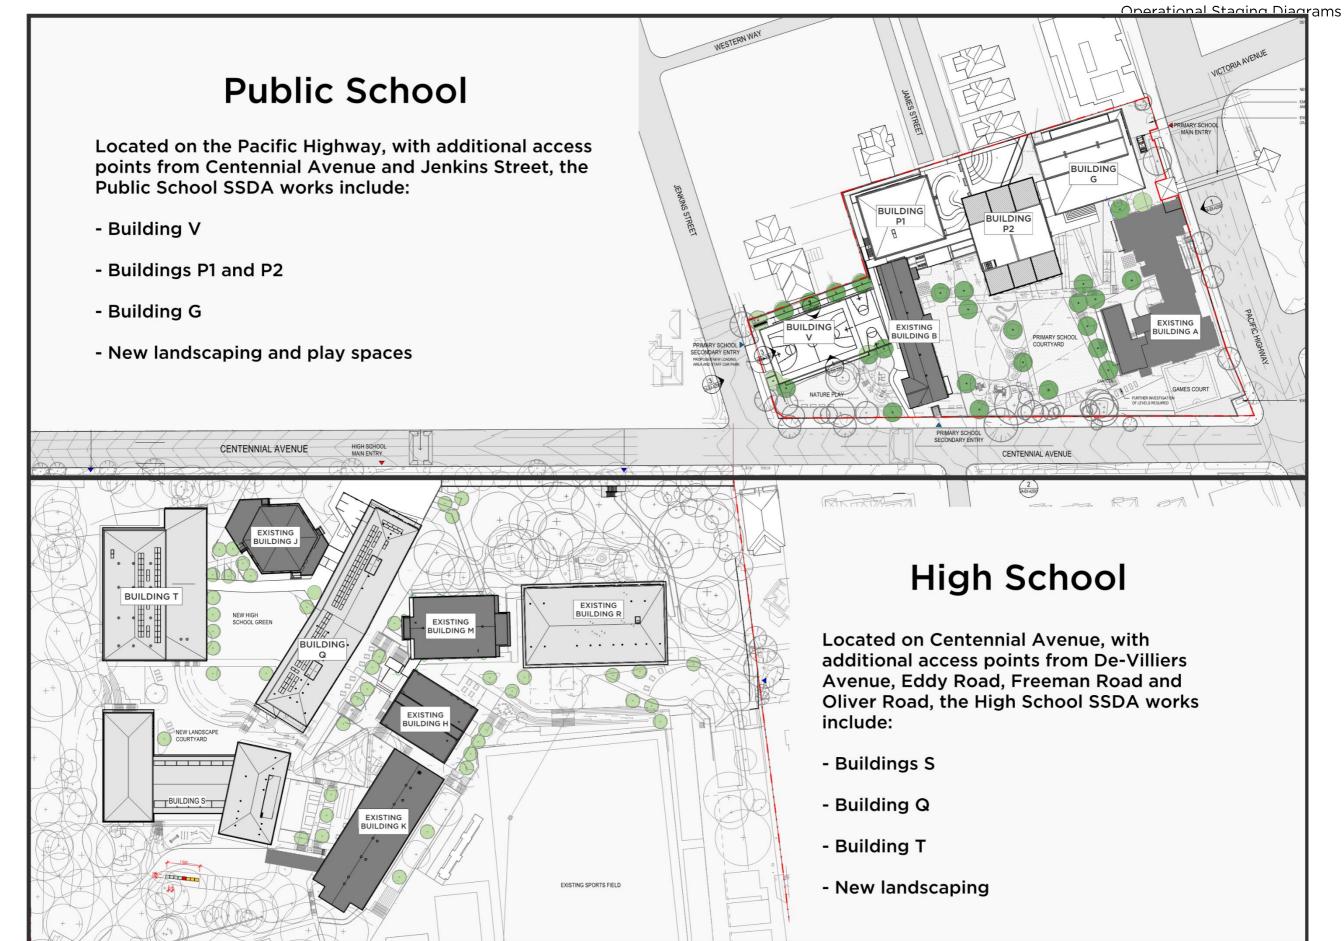

An indicative staged operation approach is proposed as follows:

Stage 1	Indicative Operation Date
Stage 1	Quarter 1, 2022
Stage 1 works include the occupation and operation of Building V Rooftop (Sports Court and Adjacent Landscaped Area) at the Public School. The internal areas of Building V that consist of Car Parking, Waste and store rooms are not included.	
These multi-use areas consist of games courts and nature play areas, and will be utilised as learning and play spaces.	
Stage 2	Quarter 2, 2022
Stage 2 works include the occupation and operation of a new DDA compliant ramp to to the Existing Building A Administration area. This will provide DDA compliant access to the Administration block in Existing Building A.	

Stage 7	Quarter 2, 2022
Stage 3	Quarter 2, 2022
Stage 3 works include the occupation and operation of the Central Landscaped Area at the Public School.	
This area will be used as primary play space, an outdoor assembly space and learning areas.	
Stage 4	Quarter 4, 2022
Stage 4 works include the occupation and operation of Building S and adjacent landscaping at the High School.	
Building S provides teaching, staff and play areas and adjacent landscape areas at the High School, as well as operational waste area to the High School.	
Stage 5	Quarter 4, 2022
Stage 5 works include the occupation and operation of Buildings P1 and P2 and adjacent landscaping at the Public School.	
Buildings P1 and P2 are the primary new buildings at the Public School, providing new learning, staff and play spaces, canteen and amenities to the site.	
Stage 6	Quarter 2, 2023
Stage 6 works include the occupation and operation of Building G and adjacent landscaping at the Public School.	
Building G is the Public School's new hall building and will be used for general assemblies, performances, and general school operations. Some bicycle parking will also be handed over and operational.	
Stage 7	Quarter 2, 2023
Stage 7 works include the occupation and operation of Building T, with adjacent landscaping at the High School.	
Building T is the High School's new hall building and will be used for general assemblies, performances, examinations, and general school operations.	
Stage 8	Quarter 2, 2023
Stage 8 works include the occupation and operation of Building Q with adjacent landscaping at the High School.	
Building Q will provide new administration, teaching and staff spaces for the High School.	
Stage 9	Quarter 3, 2023
Stage 9 works include the final handover of finished landscaped spaces, bicycle parking and car parking on the Public School.	
This will provide car-parking along with 36 additional Bicycle Parking and End of Trip Facilities handed over and operational underneath the Sports Court (Building V).	

Stage 10 Stage 10 works include the occupation and operation of additional landscaping spaces on the High School.	Quarter 3, 2023
Stage 11 Stage 11 works include the occupation and operation of the North Oval Embankment landscape area at the High School. This area will provide additional play areas and outdoor assembly space at the High School.	Quarter 3, 2023
Stage 12Stage 12 works includes the handover and operation of additional play space North of Building R on the High School.This area will operate as the SSU play space.	Quarter 4, 2023
 Stage 13 Stage 13 works includes the handover and operation of the final landscaping space on the High School, North of Building Q as well as the completion of Public Domain Works. Finalised School Transport Plan initiated following substantial handover of facilities for the final stage of operation for the Schools. 	Quarter 4, 2023

The following diagrams display the staged handover of operational areas. More detailed diagrams displaying the site layout and setup relating to construction can be found in the CEMP, prepared under Condition D19 of the SSD 9483 Consent Conditions.

Handover and Operation of Building V Sports Court & Adjacent Nature Play Area on the Public School

All other areas will remain in current operational state or are construction area for SSDA works. Works underneath Sports Court excluded from handover and operation

Handover and Operation of the Building A Access Ramp on the Public School

Handover and Operation of the Central Landscaped Area on the Public School

Handover and Operation of Building S & Adjacent Landscaping on the High School

Handover and Operation of Buildings P1, P2 & Adjacent Landscaping on the Public School

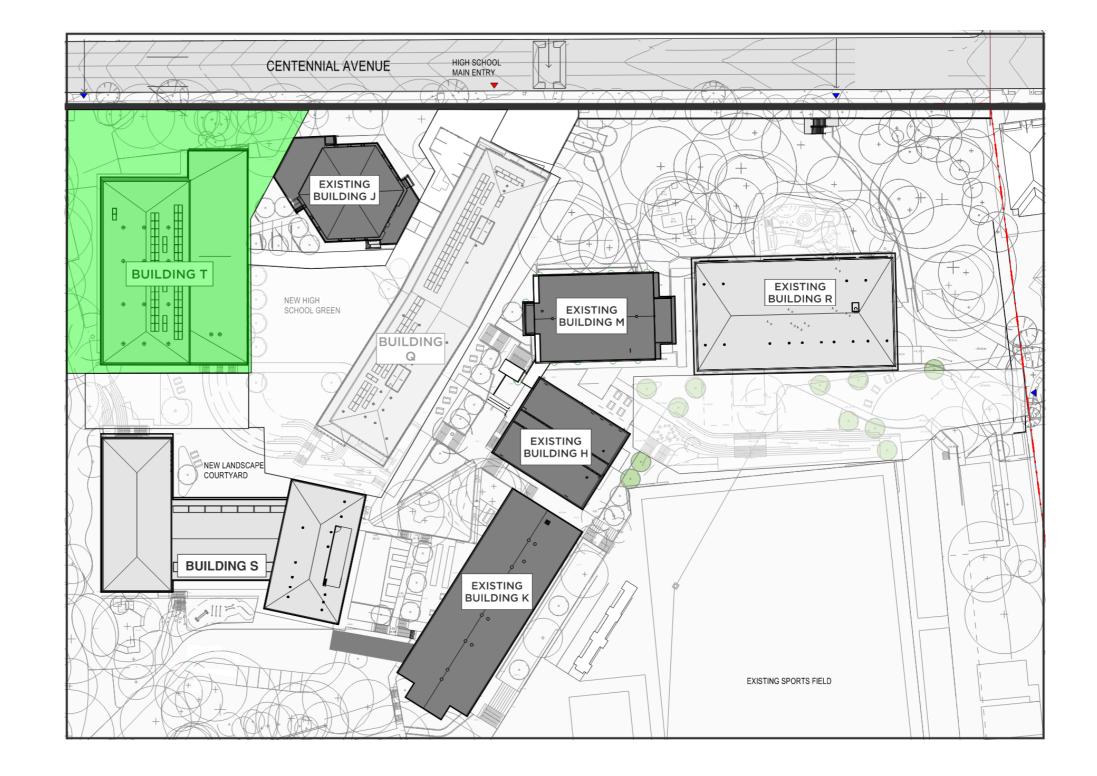

Includes Canteen & Amenities, included in Handover and Operation of Buildings P1 & P2 located in undercover areas within P1 footprint.

Handover and Operation of Building G & Adjacent Landscaping on the Public School

Handover and Operation of Building T & Adjacent Landscaping on the High School

Handover and Operation of Building Q on the High School with Adjacent Landscaping

Final handover of Building V carpark and bicycle parking and landscaped space on the Public School.

Includes additional Car and Bicycle Parking and End of Trip Facilities located in area underneath Sports Court identified as Building V at the Public School.

Handover and Operation of the tiered bleacher seating and additional landscaping spaces at the High School including final bicycle parking.

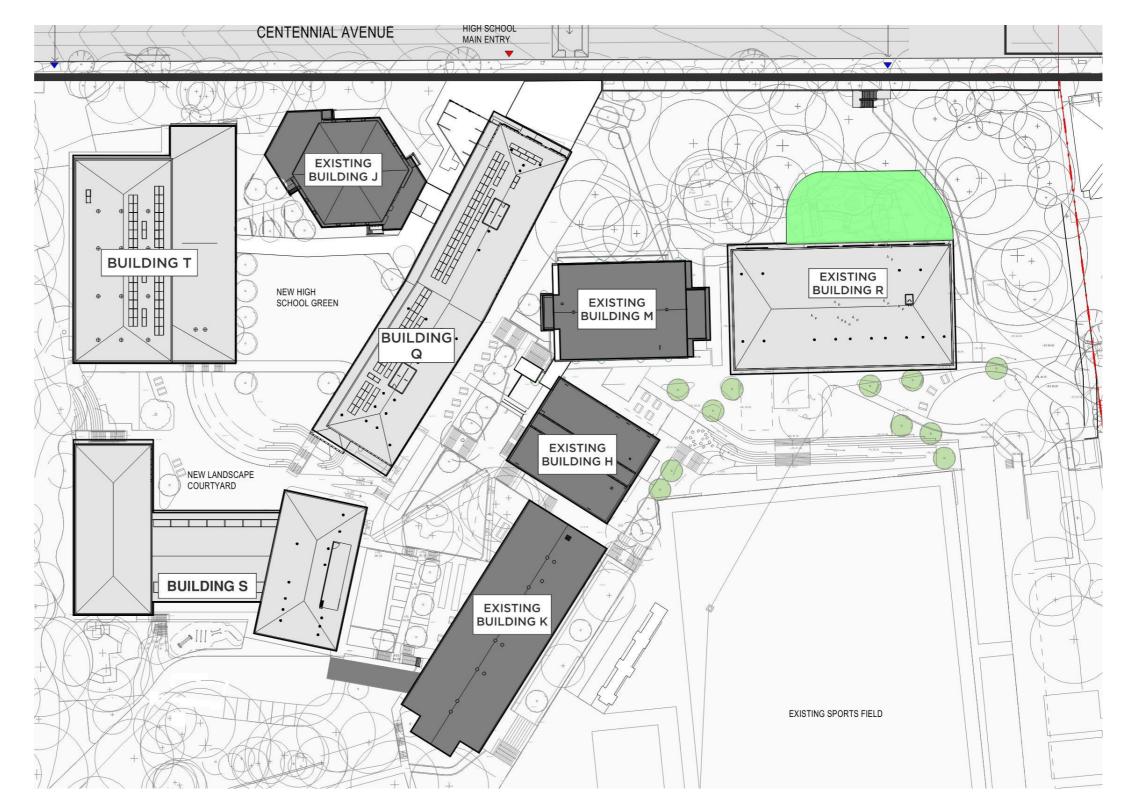

Stage 11

Handover and operation of the North Oval Embankment landscape area on the High School.

Stage 12

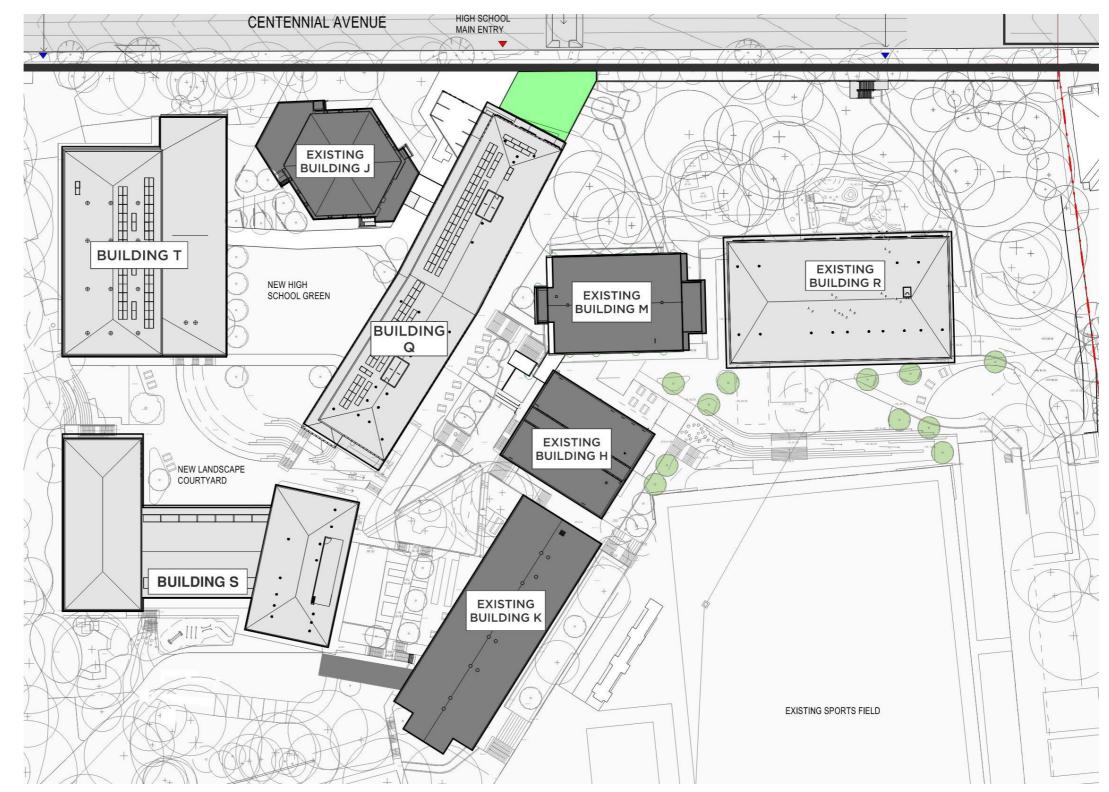

Handover and operation of the SSU landscape area north of Building R on the High School.

Stage 13

Handover and operation of the final High School landscaping space North of Building Q and Public Domain Works.

Finalised School Travel Plans initiated following completion of this stage of works. This indicates the completion of all SSDA works.

The Department of Education has identified relevant conditions in relation to construction and operational stages being proposed. These are outlined in the following:

- Appendix A –SSD 9483 Staging Report - Condition Compliance Table

All conditions that require compliance prior to commencement of construction will be satisfied prior to construction commencement. There are no requests to defer compliance with any of these conditions.

Therefore, only staged operation is proposed and presented in this staging report.

Due to the required staging of operational areas, there are some conditions that have been identified as necessary to defer to various stages, which are highlighted in orange within Appendix A.

Department of Education | July 2023 | Staging Report

3 Management of Cumulative Impacts

The Department of Education notes that the staging is not likely to lead to cumulative impacts. As detailed in previous sections, the Stages will be completed in a sequence that maintains the school as wholly operational with no outstanding functional amenities. As such, no cumulative impacts are anticipated for this development.

To maintain separation between the operational school areas and the construction work area, the below strategies will be in place:

- The construction works will be isolated from the operational school areas at all times with the use of 2.1m tall (min) A Class hoardings. No operational safety issues will be introduced to the school communities as the construction work areas will be maintained as a completely separate environment in all instances.
- Access and egress paths servicing the operational school areas will be maintained throughout all construction.
- Hoardings will be modified as the operational handovers occur to ensure the construction area remains entirely separated from the operational school area.
- Construction vehicles will not need to traffic through the operational school areas.
- Weekly meetings will be held with the school community/stakeholders to communicate the upcoming construction works, including any operational handovers.

		1		1	
A3	Consistent with the requirements in this consent, the Planning Secretary may make written directions to the Applicant in relation to:	-			
A3a	(a) the content of any strategy, study, system, plan, program, review, audit, notification, report or correspondence submitted under or otherwise made in relation to this consent, including those that are required to be, and have been, approved by the Planning Secretary;	All	Throughout	Note	Applies to all stages
A3b A3c	 (b) any reports, reviews or audits commissioned by the Planning Secretary regarding compliance with this approval; and (c) the implementation of any actions or measures contained in any such document referred to in (a) above. 	-			
A4	The conditions of this consent and directions of the Planning Secretary prevail to the extent of any inconsistency, ambiguity or conflict between them and a document listed in condition A2(c). In the event of an inconsistency, ambiguity or conflict between any of the documents listed in condition A2(c), the most recent document prevails to the extent of the inconsistency, ambiguity or conflict.	All	Throughout	Note	Applies to all stages
A5	Limits of Consent This consent lapses five years after the date of consent unless work is physically commenced.	All	Throughout	Note	Applies to all stages
A6	Prescribed Conditions The Applicant must comply with all relevant prescribed conditions of development consent under Part 6, Division 8A of the EP&A Regulation.	All	Throughout	Note	Applies to all stages
A7	Planning Secretary as Moderator In the event of a dispute between the Applicant and a public authority, in relation to an applicable requirement in this approval or relevant matter relating to the Development, either party may refer the matter to the Planning Secretary for resolution. The Planning Secretary's resolution of the matter must be binding on the parties.	All	Throughout	Note	Applies to all stages
A8	Evidence of Consultation Where conditions of this consent require consultation with an identified party, the Applicant must:				
A8a	(a) consult with the relevant party prior to submitting the subject document for information or approval; and		Throughout	Noto	Applies to all stages
A8b	 (b) provide details of the consultation undertaken including: (i) the outcome of that consultation, matters resolved and unresolved; and (ii) details of any disagreement remaining between the party consulted and the Applicant and how the Applicant has addressed the matters not resolved. 	- All	Throughout	Note	Applies to all stages
	Staging				
Α9	The project may be constructed and operated in stages. Where compliance with conditions is required to be staged due to staged construction or operation, a Staging Report (for either or both construction and operation as the case may be) must be prepared and submitted to the satisfaction of the Planning Secretary. The Staging Report must be submitted to the Planning Secretary no later than one month before the commencement of construction of the first of the proposed stages of construction (or if only staged operation is proposed, one month before the commencement of operation of the first of the proposed stages of operation) unless otherwise approved by the Planning Secretary. <i>Note: Works may commence upon the Planning Secretary's approval of a Staging Report and satisfaction of all relevant conditions.</i>	All	Throughout	prior to completion of Stage 1, which triggers first	All pre-commencement/pre- construction SSDA conditions will be satisfied prior to commencement of construction works. Only staged operation is proposed.
A10	A Staging Report prepared in accordance with condition A9 must:			Submit staging report 1 month prior to completion of Stage 1, which triggers first operational/oc cupied area.	All pre-commencement/pre- construction SSDA conditions will be satisfied prior to commencement of
A10a	(a) if staged construction is proposed, set out how the construction of the whole of the project will be staged, including details of work and other activities to be carried out in each stage and the general timing of when construction of each stage will commence and finish;		Throughout		
A10b	(b) if staged operation is proposed, set out how the operation of the whole of the project will be staged, including details of work and other activities to be carried out in each stage and the general timing of when operation of each stage will commence and finish (if relevant);	All			
A10c A10d	 (c) specify how compliance with conditions will be achieved across and between each of the stages of the project; and (d) set out mechanisms for managing any cumulative impacts arising from the proposed staging. 				 a manner that maintains a safe environment for operational, construction and public domain components. Compliance with BCA and Standards will be certified via Crown Completion Certificates.
A11	Where a Staging Report is required, the project must be staged in accordance with the Staging Report, as approved by the Planning Secretary.	All	Throughout	Note	Applies to all stages
A12	Where construction or operation is being staged in accordance with a Staging Report, the terms of this consent that apply or are relevant to the works or activities to be carried out in a specific stage must be complied with at the relevant time for that stage as identified in the Staging Report.	All	Throughout	Note	Applies to all stages
A13	Staging, Combining and Updating Strategies, Plans or Programs The Applicant may:	All	Throughout	Note	See specific strategy, plans or programs for detail
A13a	(a) prepare and submit any strategy, plan (including management plan, architectural or design plan) or program required by this consent on a staged basis (if a clear description is provided as to the specific stage and scope of the development to which the strategy, plan (including management plan, architectural or design plan) or program applies, the relationship of the stage to any future stages and the trigger for updating the strategy, plan (including management plan, architectural or design plan, architectural or design plan) or program applies, the relationship of the stage to any future stages and the trigger for updating the strategy, plan (including management plan, architectural or design plan) or program);	All	Throughout	Note	See specific strategy, plans or programs for detail
A13b	(b) combine any strategy, plan (including management plan, architectural or design plan), or program required by this consent (if a clear relationship is demonstrated between the strategies, plans (including management plan, architectural or design plan) or programs that are proposed to be combined); and	All	Throughout	Note	See specific strategy, plans or programs for detail
A13c	(c) update any strategy, plan (including management plan, architectural or design plan), or program required by this consent (to ensure the strategies, plans (including management plan, architectural or design plan), or programs required under this consent are updated on a regular basis and incorporate additional measures or amendments to improve the environmental performance of the development).	All	Throughout	Note	See specific strategy, plans or programs for detail
A14	Any strategy, plan or program prepared in accordance with condition A13, where previously approved by the Planning Secretary under this consent, must be submitted to the satisfaction of the Planning Secretary.	All	Throughout	Note	See specific strategy, plans or programs for detail
A15	If the Planning Secretary agrees, a strategy, plan (including management plan, architectural or design plan), or program may be staged or updated without consultation being undertaken with all parties required to be consulted in the relevant condition in this consent.	All	Throughout	Note	See specific strategy, plans or programs for detail
A16	Updated strategies, plans (including management plan, architectural or design plan), or programs supersede the previous versions of them and must be implemented in accordance with the condition that requires the strategy, plan, program or drawing.	All	Throughout	Note	See specific strategy, plans or programs for detail
A17	Structural Adequacy All new buildings and structures, and any alterations or additions to existing buildings and structures, that are part of the development, must be constructed in accordance with the relevant requirements of the BCA. Note: Part 8 of the EP&A Regulation sets out the requirements for the certification of the development.	All	Throughout	Note	Applies to all stages

	External Walls and Cladding				
A18	The external walls of all buildings including additions to existing buildings must comply with the relevant requirements of the BCA. Applicability of Guidelines	All	Throughout	Note	Applies to all stages
A19	References in the conditions of this consent to any guideline, protocol, Australian Standard or policy are to such guidelines, protocols, Standards or policies in the form they are in as at the date of this consent.	All	Throughout	Note	Applies to all stages
A20	Consistent with the conditions of this consent and without altering any limits or criteria in this consent, the Planning Secretary may, when issuing directions under this consent in respect of ongoing monitoring and management obligations, require compliance with an updated or revised version of such a guideline, protocol, Standard or policy, or a replacement of them.	All	Throughout	Note	Applies to all stages
A21	Monitoring and Environmental Audits Any condition of this consent that requires the carrying out of monitoring or an environmental audit, whether directly or by way of a plan, strategy or program, is taken to be a condition requiring monitoring or an environmental audit under Division 9.4 of Part 9 of the EP&A Act. This includes conditions in respect of incident notification, reporting and response, non- compliance notification, Site audit report and independent auditing. Note: For the purposes of this condition, as set out in the EP&A Act, "monitoring" is monitoring of the development to provide data on compliance with the consent or on the environmental impact of the development, and an "environmental audit" is a periodic or particular documented evaluation of the development to provide information on compliance with the consent or the environmental management or impact of the development.	All	Throughout	Note	Applies to all stages
A22	Access to Information At least 48 hours before the commencement of construction until the completion of all works under this consent, or such other time as agreed by the Planning Secretary, the Applicant must:	All	Pre-Construction	Upload all plans 48 hours prior	Applies to all stages
A22a	 (a) make the following information and documents (as they are obtained or approved) publicly available on its website: (i) the documents referred to in condition A2 of this consent; (ii) all current statutory approvals for the development; (iii) all current statutory approvals for the development in accordance with the reporting arrangements in any plans or programs approved under the conditions of this consent; (v) a comprehensive summary of the monitoring results of the development, reported in accordance with the specifications in any conditions of this consent, or any approved plans and programs; (vi) a summary of the current stage and progress of the development; (vii) contact details to enquire about the development or to make a complaint; (viii) a complaints register, updated monthly; (ix) audit reports prepared as part of any independent audit of the development and the Applicant's response to the recommendations in any audit report; (x) any other matter required by the Planning Secretary; and 	All	Pre-Construction	Upload all plans 48 hours prior	Applies to all stages
A22b	(b) keep such information up to date, to the satisfaction of the Planning Secretary and publicly available for 12 months after the commencement of operations.	All	Pre-Construction + Operation	Upload all plans 48 hours prior	Applies to all stages
A23	Compliance The Applicant must ensure that all of its employees, contractors (and their sub-contractors) are made aware of, and are instructed to comply with, the conditions of this consent relevant to activities they carry out in respect of the development.	All	Throughout	Note	Applies to all stages
A24	Incident Notification, Reporting and Response The Planning Secretary must be notified through the major projects portal immediately after the Applicant becomes aware of an incident. The notification must identify the development (including the development application number and the name of the development if it has one), and set out the location and nature of the incident.	All	Throughout	Note	Applies to all stages
A25	Subsequent notification must be given and reports submitted in accordance with the requirements set out in Appendix 2.	All	Throughout	Note	Applies to all stages
A26	Non-Compliance Notification The Planning Secretary must be notified through the major projects portal within seven days after the Applicant becomes aware of any non-compliance. The Certifier must also notify the Planning Secretary through the major projects portal within seven days after they identify any non-compliance.	All	Throughout	Note	Applies to all stages
A27	The notification must identify the development and the application number for it, set out the condition of consent that the development is non-compliant with, the way in which it does not comply and the reasons for the non-compliance (if known) and what actions have been, or will be, undertaken to address the non-compliance.	All	Throughout	Note	Applies to all stages
A28	A non-compliance which has been notified as an incident does not need to also be notified as a non-compliance.	All	Throughout	Note	Applies to all stages
A29 A29a A29b A29c A29d A29d	Revision of Strategies, Plans and Programs Within three months of: (a the submission of a compliance report under condition A32; (b the submission of an incident report under condition A25; (c) the submission of an Independent Audit under condition C41 or C42; (d) the approval of any modification of the conditions of this consent; or (e) the issue of a direction of the Planning Secretary under condition A2 which requires a review, the strategies, plans and programs required under this consent must be reviewed, and the Planning Secretary and the Certifier must be notified in writing that a review is being carried out.	All	Throughout	Note	Applies to all stages
A30	If necessary to either improve the environmental performance of the development, cater for a modification or comply with a direction, the strategies, plans, programs or drawings required under this consent must be revised, to the satisfaction of the Planning Secretary and Certifier (where previously approved by the Certifier). Where revisions are required, the revised document must be submitted to the Planning Secretary and Certifier for approval and information (where relevant) within six weeks of the review. Note: This is to ensure strategies, plans and programs are updated on a regular basis and to incorporate any recommended measures to improve the environmental performance of the development.	All	Throughout	Note	Applies to all stages
A31	Compliance Reporting Compliance Reports of the project must be carried out in accordance with the Compliance Reporting Post Approval Requirements.	All	Operation	Note	Applies to all stages
A32	Compliance Reports must be submitted to the Department in accordance with the timeframes set out in the Compliance Reporting Post Approval Requirements, unless otherwise agreed by the Planning Secretary.	All	Operation	Note	Applies to all stages
A33	The Applicant must make each Compliance Report publicly available within 60 days of submitting it to the Planning Secretary.	All	Operation	Note	Applies to all stages
A34	Notwithstanding the requirements of the Compliance Reporting Post Approval Requirements, the Planning Secretary may approve a request for ongoing annual operational compliance reports to be ceased, where it has been demonstrated to the Planning Secretary's satisfaction that an operational compliance report has demonstrated operational compliance.	All	Operation	Note	Applies to all stages

Condition No.	Condition	Stage	Applicable Phase	Action	Staging - Justification/Comment
	PART B PRIOR TO COMMENCEMENT OF CONSTRUCTION				
B1	Improvements to Public School Residential Boundary Interface Prior to the commencement of construction of Buildings P1 and P2, the Applicant must:				
B1a	(a) consult with the landowners of 1 James Street, 2 James Street, 1 Jenkins Street and 3 Jenkins Street, Chatswood about providing improvements to their private open space in order to mitigate any visual impacts from the new buildings; and	NA	Pre-Construction	Note	To be satisfied prior to commencement of construction.
B1b	(b) if the relevant landowner/s agrees for improvement works to be carried out on their property, the Applicant must prepare landscape plans including ongoing maintenance instructions prepared by a suitably qualified person; and	NA	Pre-Construction	Note	Condition is not triggered as relevant landowner/s did not request/agree to improvement works being carried out on their property under Condition B1(a).
B1c	(c) document the consultation strategy with the subject landowners in the Community Communication Strategy required under condition B14.	NA	Pre-Construction	Note	To be satisfied prior to commencement of construction.
B2	The improvement works detailed in condition B1 are limited to feasible and reasonable landscaping and fencing. Costs associated with providing these improvement works are to be borne by the Applicant. The landowner/s are responsible for any ongoing maintenance requirements (including any ongoing maintenance costs) of the improvement works.	All	Throughout	Note	Condition is not triggered as relevant landowner/s did not request/agree to improvement works being carried out on their property under Condition B1(a).
В3	Prior to the occupation of Buildings P1 and P2, the Applicant must submit evidence that condition B1 has been complied with to the Planning Secretary for approval.	4	Pre-occupation of Buildings P1 and P2.	Note	Evidence that Conditions B1a and B1c have been satisfied to be provided prior to occupation of Buildings P1 and P2. Condition B1(b) has not been triggered to evidence cannot be submitted.
Β4	Notification of Commencement The Applicant must notify the Planning Secretary in writing of the dates of the intended commencement of construction and operation at least 48 hours before those dates.	All	Pre-Construction & Pre- Operation	Note	All stages operation and occupation dates to be notified to DPIE as per Condition D1.
В5	If the construction or operation of the development is to be staged, the Planning Secretary must be notified in writing at least 48 hours before the commencement of each stage, of the date of commencement and the development to be carried out in that stage.	All	Pre-Construction & Pre- Operation	Note	All stages operation and occupation dates to be notified to DPIE as per Condition D1.
B6	Certified Drawings Prior to the commencement of construction (excluding earthworks and demolition), the Applicant must submit to the satisfaction of the Certifier structural drawings prepared and signed by a suitably qualified practising Structural Engineer that demonstrates compliance with this development consent.	NA	Pre-Construction	Note	To be satisfied prior to commencement of construction. Submitted document will address entire development unless a modification or management plan review is required.
В7	External materials and finishes Prior to the commencement of construction (excluding earthworks and demolition), a schedule of external materials and finishes of all				
B7 B7a	new buildings must be submitted to the Certifier and comply with the following: (a) all external materials colours and finishes are to be predominantly neutral, recessive colours appropriate to the character of the area and compatible with the heritage listed items within the site and in the vicinity; and	NA	Pre-Construction	Note	To be satisfied prior to commencement of construction. Submitted document will address entire
B7b	(b) all external building materials and finishes must reflect the appearance of the buildings shown in the renders included in the renders of Appendix 2 of the EIS and Attachment 2 of the Response to Submissions.				development.
B8	External Walls and Cladding Prior to the installation of external walls and cladding, the Applicant must provide the Certifier with documented evidence that the products and systems proposed for use or used in the construction of external walls, including finishes and claddings such as synthetic or aluminium composite panels, comply with the requirements of the BCA. The Applicant must provide a copy of the documentation given to the Certifier to the Planning Secretary within seven days.	NA	Prior to installation of external walls and cladding	Note	To be satisfied prior to installation of external walls and cladding. Submitted document will address entire development.
	Heritage Photographic Survey				
B9 B9a	Prior to commencement of construction, a photographic survey of the Chatswood Primary School is to be lodged with Council for its historical archives. The photographic survey is to be submitted in a report format, and must include: (a) a front cover marked with (i) the name/location of the property; (ii) the date of the survey; and 	-			To be satisfied prior to commencement
B9b	(iii) the name of the company or persons responsible for the survey.(b) a layout plan of the existing buildings and site which identifies rooms and features shown in the photographs.	NA	Pre-Construction	Note	of construction. Submitted document will address entire development.
B9c	(c) photographs of the interior, exterior, grounds and a streetscape view of the buildings, labelled to indicate their location in relation to the layout plan. Photographic records of each elevation, each room and any architectural/decorative features or finishes are to be included. Where colour is a feature of the building (for example, the building features stained glass, leadlight or polychrome brickwork), additional colour photographs are to be included in the photographic survey report.				
B10	Prior to the commencement of construction, documentary evidence from the Applicant confirming lodgement of the heritage photographic survey to Council is to be provided to the Certifier.	NA	Pre-Construction	Note	To be satisfied prior to commencement of construction. Submitted document will address entire development.
B11	Internal Noise Levels and Ventilation Prior to commencement of construction (excluding earthworks and demolition), the Applicant must provide evidence to the Certifier				
B11a	that the proposed building design: (a) complies with specified internal noise criteria and recommended acoustic attenuation measures contained in the Acoustic Assessment Report (Ref: 6698-1.1R Rev A), dated 10 March 2020 and prepared by Day Design with certification provided by a suitably qualified acoustic consultant;	-			To be satisfied prior to commencement
B11b	(b) incorporates the installation of air conditioning systems with fresh air supply to classrooms that require doors and windows to be closed to achieve the internal noise criteria; and	NA	Pre-Construction	Note	of construction. Submitted document will address entire development.
B11c	 (c) certification by a suitably qualified person that all mechanical ventilation and exhaust systems comply with the National Construction Code including: (i) AS1668.1, AS1668.2 and AS3666.1 as applicable, and/or (ii) an alternative solution using an appropriate assessment method. 				Gevelopment.

	Protection of Public Infrastructure				
B12	Prior to the commencement of construction, the Applicant must:	-			
B12a	(a) consult with the relevant owner and provider of services that are likely to be affected by the development to make suitable arrangements for access to, diversion, protection and support of the affected infrastructure;	NA	Pre-Construction	Note	To be satisfied prior to commencement of construction. Submitted document will address entire development.
B12b	(b) prepare a dilapidation report identifying the condition of all public infrastructure in the vicinity of the site (including roads, gutters and footpaths); and				
B12c	(c) submit a copy of the dilapidation report to the Planning Secretary, Certifier and Council.	-			
B13	Pre-Construction Dilapidation Report Prior to the commencement of construction, the Applicant must submit a pre-commencement dilapidation report to Council and the Certifier. The report must provide an accurate record of the existing condition of adjoining private properties, retaining walls, heritage items and Council assets that are likely to be impacted by the proposed works.	NA	Pre-Construction	Note	To be satisfied prior to commencement of construction. Submitted document will address entire development.
	Community Communication Strategy				
B14	No later than 48 hours before the commencement of construction, a Community Communication Strategy must be submitted to the Planning Secretary for information. The Community Communication Strategy must provide mechanisms to facilitate communication between the Applicant, Council and the community (including adjoining affected landowners and businesses, and others directly impacted by the development), during the design and construction of the development and for a minimum of 12 months following the completion of construction. The Communication Strategy must:				
B14a	(a) identify people to be consulted during the design and construction phases;	-			To be satisfied prior to commencement
B14b	(b) set out procedures and mechanisms for the regular distribution of accessible information about or relevant to the development;	NA	Pre-Construction	Note	of construction. Submitted document will address entire development.
B14c	(c) provide for the formation of community-based forums, if required, that focus on key environmental management issues for the development;	_			
B14d	 (d) set out procedures and mechanisms: (i) through which the community can discuss or provide feedback to the Applicant; (ii) through which the Applicant will respond to enquiries or feedback from the community; and (iii) to resolve any issues and mediate any disputes that may arise in relation to construction and operation of the development, including disputes regarding rectification oR compensation. 				
B15	Ecologically Sustainable Development Prior to the commencement of construction, unless otherwise agreed by the Planning Secretary, the Applicant must demonstrate that ESD is being achieved by either:		Pre-Construction	Note	
B15a	(a) registering for a minimum 4 star Green Star rating with the Green Building Council Australia and submit evidence of registration to the Certifier; or	NA			To be satisfied prior to commencement of construction. Submitted document will address entire development.
B15b	(b) seeking approval from the Planning Secretary for an alternative certification process.				
	Outdoor Lighting				
B16	Prior to commencement of lighting installation, evidence must be submitted to the satisfaction of the Certifier that all outdoor lighting within the site has been designed to comply with AS 1158.3.1:2005 Lighting for roads and public spaces – Pedestrian area (Category P) lighting – Performance and design requirements and AS 4282-2019 Control of the obtrusive effects of outdoor lighting.	NA	Prior to lighting installation	Note	To be satisfied prior to lighting installation. Submitted document will address entire development.
B17	Demolition Prior to the commencement of demolition, demolition work plans required by <i>AS 2601-2001 The demolition of structures</i> (Standards Australia, 2001) must be accompanied by a written statement from a suitably qualified person that the proposals contained in the work plan comply with the safety requirements of the Standard. The work plans and the statement of compliance must be submitted to the Certifier and Planning Secretary.	NA	Prior to demolition	Note	To be satisfied prior to commencement of demolition. Submitted document will address entire development.
	Environmental Management Plan Requirements Management plans required under this consent must be prepared having regard to the relevant guidelines, including but not limited to				
	the Environmental Management Plan Guideline: Guideline for Infrastructure Projects (DPIE April 2020). Note:			Note	
B18	 The Environmental Management Plan Guideline is available on the Planning Portal at: https://www.planningportal.nsw.gov.au/major-projects/assessment/post-approval The Planning Secretary may waive some of these requirements if they are unnecessary or unwarranted for particular management plans. 	All	Throughout		Applies to all stages
	Construction Environmental Management Plan				
B19	Prior to the commencement of construction, the Applicant must submit a Construction Environmental Management Plan (CEMP) to the Certifier and provide a copy to the Planning Secretary for information. The CEMP must include, but not be limited to, the following:				
B19a	 (a) Details of: (i) hours of work; (ii) 24-hour contact details of site manager; (iii) management of dust and odour to protect the amenity of the neighbourhood; (iv) external lighting in compliance with AS 4282-2019 Control of the obtrusive effects of outdoor lighting; (v) community consultation and complaints handling as set out in the Community Communication Strategy required by condition B14; 	NA	Pre-Construction	Note	To be satisfied prior to commencement of construction. Submitted document will address entire development and be consistent with
B19b	(b) an unexpected finds protocol for contamination and associated communications procedure to ensure that potentially contaminated material is appropriately managed;	-			DPIE EMP Guidelines.
B19c	(c) an unexpected finds protocol for Aboriginal and non-Aboriginal heritage and associated communications procedure;	-			
B19d B19e	(d) Construction Traffic and Pedestrian Management Sub-Plan (see condition B20); (e) Construction Noise and Vibration Management Sub-Plan (see condition B21); and				
B19f	(f) Construction Soil and Water Management Sub-Plan (see condition B23).	1			
B20 B20a	The Construction Traffic and Pedestrian Management Sub-Plan (CTPMSP) must be prepared to achieve the objective of ensuring safety and efficiency of the road network and address, but not be limited to, the following: (a) be prepared by a suitably qualified and experienced person(s);	-			
B20b	(b) be prepared in consultation with Council and TfNSW;				
			Pre-Construction		To be satisfied prior to commencement
B2Oc	(c) detail the measures that are to be implemented to ensure road safety and network efficiency during construction in consideration of potential impacts on general traffic, cyclists and pedestrians and bus services;			ction Note	
B2Oc B2Od B2Oe		NA	Pre-Construction	Note	of construction. Submitted document will address entire
B2Od B2Oe B2Of	of potential impacts on general traffic, cyclists and pedestrians and bus services; (d) detail heavy vehicle routes, access and parking arrangements;	NA	Pre-Construction	Note	of construction.
B2Od B2Oe	of potential impacts on general traffic, cyclists and pedestrians and bus services; (d) detail heavy vehicle routes, access and parking arrangements; (e) implement a public information campaign to inform the community of any road changes well in advance of the changes; (f) confine temporary road closures to weekends and off-peak hour times;	- NA	Pre-Construction	Note	of construction. Submitted document will address entire development and be consistent with

	(j) a construction zone is not permitted on the Pacific Highway unless otherwise	approved by	y TfNSW.]			
B21	The Construction Noise and Vibration Management Sub-Plan must address, but	not be limite	ed to, the follow	ving:				
B21a	(a) be prepared by a suitably qualified and experienced noise expert;				-			
B21b	(b) describe procedures for achieving the noise management levels in EPA's Inte				-			To be esticfied arise to company on the

	Construction and Demolition Waste Management				
B33	Prior to the commencement of the removal of any waste material from the site, the Applicant must notify the TfNSW Traffic Management Centre of the truck route(s) to be followed by trucks transporting waste material from the site.	NA	Prior to waste removal	Note	To be satisfied prior to waste removal
	Operational Waste Storage and Processing				
B34	Prior to the commencement of construction of waste storage and processing areas, the Applicant must obtain agreement from Council for the design of the operational waste storage area (where waste removal will be undertaken by Council). Where waste removal will be undertaken by a third party, evidence must be provided to the Certifier that the design of the operational waste storage area:				
B34a	(a) is constructed using solid non-combustible materials;		Prior to construction of waste storage		To be satisfied prior to construction of
B34b	(b) is designed to ensure the door/gate to the waste storage area is vermin proof and can be openable from both inside and outside the storage area at all times;	NA	and processing areas	Note	waste storage and processing areas
B34c	(c) includes a hot and cold water supply with a hose through a centralised mixing valve;				
B34d	(d) is naturally ventilated or an air handling exhaust system must be in place; and				
B34e	(e) includes signage to clearly describe the types of materials that can be deposited into recycling bins and general garbage bins.				
B35	Construction Access arrangements Prior to the commencement of construction, evidence of compliance of construction parking and access arrangements with the following requirements must be submitted to the Certifier:				
B35a	(a) all vehicles must enter and leave the site in a forward direction;			Note	
B35b	(b) the swept path of the longest construction vehicle entering and exiting the site in association with the new work, as well as manoeuvrability through the site, is in accordance with the latest version of AS 2890.2;	NA	Pre-Construction		To be satisfied prior to commencement of construction
B35c	(c) the safety of vehicles and pedestrians accessing adjoining properties, where shared vehicle and pedestrian access occurs, has been addressed; and				
B35d	(d) no construction vehicle access is permitted from the Pacific Highway vehicular entrance unless otherwise approved in writing by TfNSW.				
	Operational Access, Car Parking and Service Vehicle Arrangements				
B36	Prior to the commencement of construction of operational parking and access facilities, evidence of compliance of the design of operational parking and access arrangements with the following requirements must be submitted to the Certifier:		Prior to construction of operational parking and access facilities		
B36a	(a) a minimum of 18 (Chatswood Public School) and 104 (Chatswood High School) on-site car parking spaces for use during operation of the development and designed in accordance with the latest versions of AS 2890.1 and AS 2890.6; and	NA			To be satisfied prior to construction of operational parking and access facilities
B36b	(b) the swept path of the largest service vehicle entering and exiting the site in association with the new work, as well as manoeuvrability through the site, must be in accordance with the latest version of AS 2890.2.				
	Public Domain Works				
B37	Prior to the commencement of any footpath or public domain works, the Applicant must consult with Council and demonstrate to the Certifier that the streetscape design and treatment meets the requirements of Council including:				
B37a	(a) removal of all redundant crossings together with any necessary works to reinstate the footpath, nature strip, kerb and gutter as required; and		Prior to footpath or		Prior to footpath or public domain
B37b	(b) addressing pedestrian management.	NA	public domain works.	Note	works.
B38	The Applicant must submit evidence of approval from Council for public domain works to the Certifier.				
	Site Contamination				
B39	Prior to the commencement of construction, the Applicant must engage a NSW EPA-accredited Site Auditor to provide advice throughout the duration of works to ensure that any work required in relation to soil or groundwater contamination is appropriately managed.	NA	Pre-Construction	Note	To be satisfied prior to commencement of construction

Condition No.	Condition	Stage	Applicable Phase	Action	Staging - Justification/Comment
	PART C DURING CONSTRUCTION				
C1	Site Notice A site notice(s):				
C1a	(a) must be prominently displayed at the boundaries of the site during construction for the purposes of informing the public of project details including, but not limited to the details of the Builder, Certifier and Structural Engineer is to satisfy the following requirements;				
C1b	(b) minimum dimensions of the notice must measure 841 mm x 594 mm (A1) with any text on the notice to be a minimum of 30-point type size;				
C1c	(c) the notice is to be durable and weatherproof and is to be displayed throughout the works period;	All	Construction	Note	Applies to all construction
C1d	(d) the approved hours of work, the name of the site/ project manager, the responsible managing company (if any), its address and 24- hour contact phone number for any inquiries, including construction/ noise complaint must be displayed on the site notice; and				
C1e	(e) the notice(s) is to be mounted at eye level on the perimeter hoardings/fencing and is to state that unauthorised entry to the site is not permitted. Operation of Plant and Equipment				
C2	All construction plant and equipment used on site must be maintained in a proper and efficient condition and operated in a proper and efficient manner. Demolition	All	Construction	Note	Applies to all construction
C3	Demolition work must comply with the demolition work plans required by Australian Standard AS 2601-2001 The demolition of structures (Standards Australia, 2001) and endorsed by a suitably qualified person as required by condition B17.	All	Construction	Note	Applies to all construction
C4	Construction Hours Construction, including the delivery of materials to and from the site, may only be carried out between the following hours:				
C4a	(a) between 7am and 6pm, Mondays to Fridays inclusive; and	All	Construction	Note	Applies to all construction
C4b	(b) between 8am and 1pm, Saturdays.				
C4C	(c) No work may be carried out on Sundays or public holidays. Notwithstanding condition C4, provided noise levels do not exceed the existing background noise level plus 5dB, works may also be				
C5	undertaken during the following hours:	All	Construction	Note	Applies to all construction
C5a C5b	 (a) between 6pm and 7pm, Mondays to Fridays inclusive; and (b) between 1pm and 4pm, Saturdays. 		Construction	Note	Applies to all construction
C6	Construction activities may be undertaken outside of the hours in condition C4 and C5 if required:				
C6a	(a) by the Police or a public authority for the delivery of vehicles, plant or materials; or				
C6b	(b) in an emergency to avoid the loss of life, damage to property or to prevent environmental harm; or	All	Construction	Note	Applies to all construction
C6c	(c) where the works are inaudible at the nearest sensitive receivers; or				
C6d	(d) where a variation is approved in advance in writing by the Planning Secretary or his nominee if appropriate justification is provided for the works.				
C7	Notification of such construction activities as referenced in condition C6 must be given to affected residents before undertaking the activities or as soon as is practical afterwards.	All	Construction	Note	Applies to all construction
C8	Rock breaking, rock hammering, sheet piling, pile driving and similar activities may only be carried out between the following hours:				
C8a	(a) 9am to 12pm, Monday to Friday;	All	Construction	Note	Applies to all construction
C8b	(b) 2pm to 5pm Monday to Friday; and				
C8c	(c) 9am to 12pm, Saturday.				
С9	Implementation of Management Plans The Applicant must carry out the construction of the development in accordance with the most recent version of the CEMP (including Sub-Plans). Construction Traffic	All	Construction	Note	Applies to all construction
C10	All construction trainic All construction vehicles (excluding site personnel vehicles) are to be contained wholly within the site, except if located in an approved on-street work zone, and vehicles must wholly enter the site or an approved on-street work zone before stopping.	All	Construction	Note	Applies to all construction
	Hoarding Requirements				
C11	The following hoarding requirements must be complied with:				
C11a	(a) no third-party advertising is permitted to be displayed on the subject hoarding/ fencing; and	All	Construction	Note	Applies to all construction
C11b	(b) the construction site manager must be responsible for the removal of all graffiti from any construction hoardings or the like within the construction area within 48 hours of its application. No Obstruction of Public Way				
C12	The public way (outside of any approved construction works zone) must not be obstructed by any materials, vehicles, refuse, skips or the like, under any circumstances.	All	Construction	Note	Applies to all construction
	Construction Noise Limits The development must be constructed to achieve the construction noise management levels detailed in the Interim Construction Noise				
C13	Guideline (DECC, 2009). All feasible and reasonable noise mitigation measures must be implemented and any activities that could exceed the construction noise management levels must be identified and managed in accordance with the management and mitigation measures identified in the approved Construction Noise and Vibration Management Plan.	All	Construction	Note	Applies to all construction
C14	The Applicant must ensure construction vehicles (including concrete agitator trucks) do not arrive at the site or surrounding residential precincts outside of the construction hours of work outlined under condition C4.	All	Construction	Note	Applies to all construction
C15	The Applicant must implement, where practicable and without compromising the safety of construction staff or members of the public, the use of 'quackers' to ensure noise impacts on surrounding noise sensitive receivers are minimised.	All	Construction	Note	Applies to all construction
C16	Vibration Criteria Vibration caused by construction at any residence or structure outside the site must be limited to:				
C16a	(a) for structural damage, the latest version of DIN 4150-3 (1992-02) Structural vibration -Effects of vibration on structures (German Institute for Standardisation, 1999); and	All	Construction	Note	Applies to all construction
C16b	(b) for human exposure, the acceptable vibration values set out in the <i>Environmental Noise Management Assessing Vibration: a technical guideline</i> (DEC, 2006) (as may be updated or replaced from time to time).				
C17	Vibratory compactors must not be used closer than 30 metres from residential buildings unless vibration monitoring confirms compliance with the vibration criteria specified in condition C16.	All	Construction	Note	Applies to all construction
C18	The limits in conditions C16 and C17 apply unless otherwise outlined in a Construction Noise and Vibration Management Plan, approved as part of the CEMP required by condition B21 of this consent.	All	Construction	Note	Applies to all construction

	Tree Protection				
C19	For the duration of the construction works:				
C19a	(a) street trees must not be trimmed or removed unless it forms a part of this development consent or prior written approval from Council is obtained or is required in an emergency to avoid the loss of life or damage to property;				
C19b	(b) all street trees immediately adjacent to the approved disturbance area / property boundaries must be protected at all times during construction in accordance with Council's tree protection requirements. Any street tree, which is damaged or removed during construction due to an emergency, must be replaced, to the satisfaction of Council;				
C19c	(c) all trees on the site that are not approved for removal, including trees 84 and 95, must be suitably protected during construction as per the recommendations of the Arboricultural Impact Assessments (Ref: 18SYD-11012, v5 and 18SYD-11012, v6), dated 6 March and prepared by Eco Logical Australia; and	All	Construction	Note	Applies to all construction
C19d	(d) if access to the area within any protective barrier is required during the works, it must be carried out under the supervision of a qualified arborist. Alternative tree protection measures must be installed, as required. The removal of tree protection measures, following completion of the works, must be carried out under the supervision of a qualified arborist and must avoid both direct mechanical injury to the structure of the tree and soil compaction within the canopy or the limit of the former protective fencing, whichever is the greater.				
C20	Air Quality The Applicant must take all reasonable steps to minimise dust generated during all works authorised by this consent.	All	Construction	Note	Applies to all construction
C21	During construction, the Applicant must ensure that:	-			
C21a C21b	(a) exposed surfaces and stockpiles are suppressed by regular watering;(b) all trucks entering or leaving the site with loads have their loads covered;		O an a transition	Nete	
C21c C21d	 (c) trucks associated with the development do not track dirt onto the public road network; (d) public roads used by these trucks are kept clean; and 	All	Construction	Note	Applies to all construction
C21e	(e) land stabilisation works are carried out progressively on site to minimise exposed surfaces.				
C22	Imported Soil The Applicant must:				
C22a	(a) ensure that only VENM, ENM, or other material approved in writing by EPA is brought onto the site;	All	Construction	Note	Applies to all construction
C22b C22c	 (b) keep accurate records of the volume and type of fill to be used; and (c) make these records available to the Certifier upon request. 	-			
0220	Disposal of Seepage and Stormwater				
C23	Adequate provisions must be made to collect and discharge stormwater drainage during construction to the Certifier. The prior written approval of Council must be obtained to connect or discharge site stormwater to Council's stormwater drainage system or street gutter. Emergency Management	All	Construction	Note	Applies to all construction
C24	The Applicant must prepare and implement awareness training for employees and contractors, including locations of the assembly points and evacuation routes, for the duration of construction.	All	Construction	Note	Applies to all construction
	Stormwater Management System Within three months of the commencement of construction, the Applicant must design an operational stormwater management system				
C25	for the development and submit it to the satisfaction of the Certifier. The system must be designed by a suitably qualified and experienced person(s) and comply with the following:				
C25a	(a) comply with applicable Australian Standards and Part C.5 of Willoughby Development Control Plan 2006;	-			
C25b	(b) for the high school site, an on site detention (OSD) system with a minimum volume of 497m3 and permitted site discharge (PSD) of	NA	Construction	Note	To be satisfied within 3 months of the
0255	342L/s, with a catchment area of 1.52ha of impervious area, covering the total area or otherwise to the satisfaction of Council;		Construction	Note	commencement of construction.
C25c	(c) for the public school site, an OSD system with a minimum volume of 356m3 and a PSD of 245L/s, with a catchment area of 1.09ha of impervious area or otherwise to the satisfaction of Council; and				
C25d	(d) ensure that the system capacity has been designed in accordance with Australian Rainfall and Runoff (Engineers Australia, 2016)	-			
	and <i>Managing Urban Stormwater: Council Handbook</i> (EPA, 1997) guidelines. Detailed design plans and hydraulic calculations for any changes to the stormwater drainage system on Pacific Highway must be				
C26	submitted to TfNSW for approval within three months of the commencement of construction. Note: The documentation must be sent to development.sydney@rms.nsw.gov.au. A plan checking fee will be payable and a performance bond may be required before TfNSW approval is issues.	NA	Construction	Note	To be satisfied within 3 months of the commencement of construction.
	Road upgrade works Within three months of commencement of construction, the Applicant must commence consultation with Council about the installation				To be estimized within 2 months of the
C27	of roundabout(s) or other road upgrade works on Centennial Avenue (at the intersection of Jenkins Street and/or Edgar Street) in order to improve the safety and efficiency of drop-off/pick-up vehicle movements.	NA	Construction	Note	To be satisfied within 3 months of the commencement of construction.
C28	If following consultation required by condition C27, the installation of roundabout(s) or other road upgrade works is deemed necessary by Council, plans and specifications to Council's requirements of the roundabout(s) must be submitted to Council for approval prior to	All	Throughout	Note	To be satisfied as required by
	the installation of the roundabout or other road upgrade works.				condition C27
	Unexpected Finds Protocol – Aboriginal Heritage				
	In the event that surface disturbance identifies a new Aboriginal object, all works must halt in the immediate area to prevent any further impacts to the object(s). A suitably qualified archaeologist and the registered Aboriginal representatives must be contacted to				
C29	determine the significance of the objects. The site is to be registered in the Aboriginal Heritage Information Management System (AHIMS) which is managed by Heritage NSW and the management outcome for the site included in the information provided to	All	Throughout	Note	Applies to all construction
	AHIMS. The Applicant must consult with the Aboriginal community representatives, the archaeologists and Heritage NSW to develop and implement management strategies for all objects/sites. Works shall only recommence with the written approval of Heritage NSW.				
	Unexpected Finds Protocol – Historic Heritage				
	If any unexpected archaeological relics are uncovered during the work, then all works must cease immediately in that area and Heritage NSW contacted. Depending on the possible significance of the relics, an archaeological assessment and management strategy				
C30	may be required before further works can continue in that area. Works may only recommence with the written approval of Heritage NSW.	All	Throughout	Note	Applies to all construction
	Waste Storage and Processing				
C31	All waste generated during construction must be secured and maintained within designated waste storage areas at all times and must not leave the site onto neighbouring public or private properties.	All	Throughout	Note	Applies to all construction
C32	All waste generated during construction must be assessed, classified and managed in accordance with the Waste Classification Guidelines Part 1: Classifying Waste (EPA, 2014).	All	Throughout	Note	Applies to all construction
C33	The Applicant must ensure that concrete waste and rinse water are not disposed of on the site and are prevented from entering any natural or artificial watercourse.	All	Throughout	Note	Applies to all construction
C34	The Applicant must record the quantities of each waste type generated during construction and the proposed reuse, recycling and disposal locations for the duration of construction.	All	Throughout	Note	Applies to all construction
C35	The Applicant must ensure that the removal of hazardous materials, particularly the method of containment and control of emission of fibres to the air, and disposal at an approved waste disposal facility is in accordance with the requirements of the relevant legislation, codes, standards and guidelines.	All	Throughout	Note	Applies to all construction
	Outdoor Lighting				
C36	The Applicant must ensure that all external lighting is constructed and maintained in in accordance with AS 4282-2019 Control of the obtrusive effects of outdoor lighting.	All	Throughout	Note	Applies to all construction
C37	Site Contamination Remediation of the site must be carried out in accordance with the Remedial Action Plan (Ref: 55579/127236, Rev 0) prepared by JPS&G and dated 20 February 2020 and any variations to the Remedial Action Plan title approved by an NSW EPA-accredited Site Auditor) or the unexpected finds protocol prepared in accordance with condition B19(c).	All	Throughout	Note	Applies to all construction
C38	If work is to be carried out / completed in stages, a NSW EPA-accredited Site Auditor must confirm satisfactory completion of each stage by the issuance of Interim Audit Advice(s).	All	Construction & Pre- Operation	Note	To be satisfied prior to operation of all stages. Interim Audit Advice will be issued prior to operation of any stage.
C39	The Applicant must ensure the proposed development does not result in a change of risk in relation to any pre-existing contamination	All	Throughout	Note	Applies to all construction
	on the site that would result in significant contamination.

Condition No.	Condition	Stage	Applicable Phase	Action	Staging - Justification/Comment
110.	PART D PRIOR TO COMMENCEMENT OF OPERATION				
D1	Notification of Occupation At least one month before commencement of operation, the date of commencement of the operation of the development must be notified to the Planning Secretary in writing. If the operation of the development is to be staged, the Planning Secretary must be notified in writing at least one month before the commencement of each stage, of the date of commencement and the development to be carried out in that stage. External Walls and Cladding	All	Pre-Operation	Note	To be satisfied at least one month prior to operation of each stage.
D2	Prior to commencement of operation, the Applicant must provide the Certifier with documented evidence that the products and systems used in the construction of external walls including finishes and claddings such as synthetic or aluminium composite panels comply with the requirements of the BCA.	4, 5, 6, 7,8	Pre-Operation	Note	To be satisfied prior to operation of Stages 4, 5, 6, 7 and 8. Not applicable to Stages 1, 2, 3, 9, 10, 11, 12 and 13 as there are no external walls/finishes/cladding being handed over for operation at the completion of these stages.
D3	The Applicant must provide a copy of the documentation given to the Certifier to the Planning Secretary within seven days after the Certifier accepts it.	4, 5, 6, 7,8	Pre-Operation	Note	To be satisfied prior to operation of Stages 4, 5, 6, 7 and 8. Not applicable to Stages 1, 2, 3, 9, 10, 11, 12 and 13 as there are no external walls/finishes/cladding being handed over for operation at the completion of these stages.
D4.	Works as Executed Plans Prior to the commencement of operation, works-as-executed drawings signed by a registered surveyor demonstrating that the stormwater drainage and finished ground levels have been constructed as approved, must be submitted to the Certifier.	3, 4, 5, 6, 7, 8, 9, 10, 11, 13.	Pre-Operation	Note	To be satisfied prior to operation of Stages 3, 4, 5, 6, 7, 8, 9, 10, 11 and 13. Not applicable to Stage 1, 2 and 12 as there is no new drainage being installed, or modification of ground levels in the area being handed over for operation at the completion of these Stages.
D5.	Warm Water Systems and Cooling Systems The installation of warm water systems and water cooling systems (as defined under the <i>Public Health Act 2010</i>) must comply with the <i>Public Health Act 2010</i> , Public Health Regulation 2012 and Part 1 (or Part 3 if a Performance-based water cooling system) of <i>AS/NZS</i> <i>3666.2:2011 Air handling and water systems of buildings – Microbial control – Operation and maintenance</i> and the NSW Health Code of Practice for the Control of Legionnaires' Disease.	4, 5, 6, 7, 8	Pre-Operation	Note	To be satisfied prior to operation of Stages 4, 5, 6, 7, and 8 Not applicable to Stage 1, 2, 3, 9, 10, 11, 12 and 13 as there is no warm water or cooling systems being handed over for operation at the completion of these Stages.
D6. D6a D6b	Outdoor Lighting Prior to the commencement of operation, the Applicant must submit evidence from a suitably qualified practitioner to the Certifier that demonstrates that installed lighting associated with the development achieves the objective of minimising light spillage to any adjoining or adjacent sensitive receivers and: (a) complies with the latest version of AS 4282-2019 - Control of the obtrusive effects of outdoor lighting (Standards Australia, 1997); and (b) has been mounted, screened and directed in such a manner that it does not create a nuisance to surrounding properties or the public road network.	4,5,6,7 8,9, 11	Pre-Operation	Note	No operational outdoor lighting in stages 1-3, 10,12, 13.
D7. D7a D7b	Mechanical Ventilation Prior to commencement of operation, the Applicant must provide evidence to the satisfaction of the Certifier that the installation and performance of the mechanical ventilation systems complies with: (a) AS 1668.2-2012 The use of air-conditioning in buildings – Mechanical ventilation in buildings and other relevant codes; and (b) any dispensation granted by Fire and Rescue NSW.	4, 5, 6, 7, 8	Pre-Operation	Note	To be satisfied prior to the operation of Stages 4, 5, 6, 7, 8. Not applicable to Stages 1, 2, 3, 9, 10, 11, 12 and 13 as there are no mechanical systems being installed in the area being handed over for operation at the completion of these Stages.
D8	Operational Noise – Design of Mechanical Plant and Equipment Prior to the commencement of operation, the Applicant must submit evidence to the Certifier that the noise mitigation recommendations in the assessment undertaken under condition B26 have been incorporated into the design of mechanical plant and equipment to ensure the development will not exceed the maximum permitted noise criteria as recommended in Table 15 of the Acoustic Assessment Report (Ref: 6698-1.1R Rev A) dated 10 March 2020 and prepared by Day Design.	4, 5, 6, 7, 8	Pre-Operation	Note	To be satisfied prior to the operation of Stages 4, 5, 6, 7, 8. Not applicable to Stages 1, 2, 3, 9, 10, 11, 12 and 13 as there is no mechanical plant and equipment being installed in the area being handed over for operation at the completion of these Stages.
	Fire Safety Certification Prior to commencement of occupation, a Fire Safety Certificate must be obtained for all the Essential Fire or Other Safety Measures forming part of this consent. A copy of the Fire Safety Certificate must be submitted to the relevant authority and Council. The Fire Safety Certificate must be prominently displayed in the building.	4, 5, 6, 7, 8	Pre-Operation	Note	To be satisfied prior to the operation of Stages 4, 5, 6, 7, 8. Not applicable to Stages 1, 2, 3, 9, 10, 11, 12 and 13 as there are no new buildings in the area being handed over for operation at the completion of these Stages.
D10 D10a	Structural Inspection Certificate Prior to the commencement of occupation of the relevant parts of any new or refurbished buildings, a Structural Inspection Certificate or a Compliance Certificate must be submitted to the Certifier. A copy of the Certificate with an electronic set of final drawings (contact approval authority for specific electronic format) must be submitted to the approval authority and the Council after: (a) the site has been periodically inspected and the Certifier is satisfied that the structural works is deemed to comply with the final design drawings; and	1, 4, 5, 6, 7, 8	Pre-Operation	Note	To be satisfied prior to the operation of Stages 1, 4, 5, 6, 7 and 8. Not applicable to Stages 2, 3, 9, 10, 11, 12 and 13, as there are no new buildings or refurbishments in the area baing
D10b	(b) the drawings listed on the Inspection Certificate have been checked with those listed on the final Design Certificate/s.	-			or refurbishments in the area being handed over for operation at the completion of these Stages.

	Compliance with Food Code				
D11	Prior to the commencement of operation, the Applicant is to obtain a certificate from a suitably qualified tradesperson, certifying that the kitchen, food storage and food preparation areas have been fitted in accordance with the AS 4674 <i>Design, construction and fit-out of food premises</i> and provide evidence of receipt of the certificate to the satisfaction of the Certifier.	5, 6,8	Pre-Operation	Note	To be satisfied prior to operation of Stages 5, 6 and 8. Not applicable to Stages 1, 2, 3, 4, 7, 9, 10, 11, 12 and 13 as there are no new food storage or preparation areas in the area being handed over for operation at the completion of these Stages.
D12 D12a D12b D12c	Prior to commencement of operation, the Applicant must engage a suitably qualified person to prepare a post-construction dilapidation report at the completion of construction. This report is: (a) to ascertain whether the construction created any structural damage to adjoining buildings or infrastructure; (b) to be submitted to the Certifier. In ascertaining whether adverse structural damage has occurred to adjoining buildings or infrastructure, the Certifier must: (i) compare the post-construction dilapidation report with the pre-construction dilapidation report required by these conditions; and (ii) have written confirmation from the relevant authority that there is no adverse structural damage to their infrastructure and roads. (c) to be forwarded to Council for information. Protection of Public Infrastructure	13	Pre-Operation	Note	To be satisfied prior to operation of Stage 13 as these are the last works associated with the development. Not applicable to Stages 1-12 so that the post-construction dilapidation report can be of most benefit when comparing against the pre-construction dilapidation report.
D13	Unless the Applicant and the applicable authority agree otherwise, the Applicant must:	All	Throughout	Note	Applies to all construction
D13a	(a) repair, or pay the full costs associated with repairing, any public infrastructure that is damaged by carrying out the development; and	All	Throughout	Note	Applies to all construction
D13b	(b) relocate, or pay the full costs associated with relocating any infrastructure that needs to be relocated as a result of the development. Note: This condition does not apply to any damage to roads caused as a result of general road usage.	All	Throughout	Note	Applies to all construction
D14	Road Damage Prior to the commencement of operation, the cost of repairing any damage caused to Council or other Public Authority's assets in the vicinity of the Subject Site as a result of construction works associated with the approved development must be met in full by the Applicant.	13	Pre-Operation	Note	To be satisfied prior to completion of Stage 13, as these are the last works associated with the development. Not applicable to Stages 1-12 so that condition intent is of most benefit to Council or relevant Public Authorities. Will apply to all damage sustained throughout development.
D15	Unless the Applicant and the applicable owner agree otherwise, the Applicant must repair, or pay the full costs associated with repairing any property that is damaged by carrying out the development.	13	Pre-Operation	Note	To be satisfied prior to completion of Stage 13, as these are the last works associated with the development. Not applicable to Stages 1-12 so that condition intent is of most benefit to property owners.
D16	Road upgrade works Prior to the commencement of operation (unless otherwise agreed by the Planning Secretary), the installation of roundabout(s) or other road upgrade works (if any) required by condition C28 must be completed to Council's requirements. Note: All works associated with the installation of roundabout(s) shall be at no cost Council.	13	Pre-Operation	Note	To be satisfied prior to completion of Stage 13, as these are the last works associated with the development. Not applicable to Stages 1-12 as timeframe to meet Council's requirements requires that these works are handed over with Stage 13.
D17	Bicycle Parking and End-of-Trip Facilities Prior to occupation, compliance with the following requirements for secure bicycle parking and end-of-trip facilities must be submitted to the Certifier:	_			
D17a	(a) the provision of a minimum 60 bicycle parking spaces for Chatswood Public School for staff, students and visitors;				To be satisfied prior to completion of Stage 11, as all bicycle parking and end
D17b D17c	 (b) the provision of a minimum 84 bicycle parking spaces for Chatswood High School for staff, students and visitors; (c) the layout, design and security of bicycle facilities must comply with the minimum requirements of the latest version of AS 2890.3:2015 <i>Parking facilities - Bicycle parking</i>, and be located in easy to access, well-lit areas that incorporate passive surveillance; 	11	Pre-Occupation	Note	of trip facilities will be delivered by this stage.
D17d	(d) the provision of end-of-trip facilities for staff; and	_			Not applicable to Stages 1-10 as all bike parking areas and end-of-trip facilities will not be constructed at that time.
D17e	(e) appropriate pedestrian and cyclist advisory signs are to be provided. Note: All works/regulatory signposting associated with the proposed development shall be at no cost to the relevant roads authority.	-			

	School Transport Plan					
D18	Prior to the commencement of operation, a School Travel Plan (STP), must be submitted to the satisfaction of the Planning Secretary. The plan must:					
D18a	(a) be prepared by a suitably qualified consultant in consultation with Council and TfNSW;					
D18b	 (b) include arrangements to promote the use of active and sustainable transport modes, including: (i) objectives and modes share targets (i.e. Site and land use specific, measurable and achievable and timeframes for implementation); (ii) specific tools and actions to help achieve the objectives and mode share target of 16% reduction in car trips; (iii) measures to increase use of the Pacific Highway overhead bridge by staff and students including (but not limited to) installation of signage in consultation with Council and education / awareness program to promote use of the overhead bridge. (iv) details regarding the methodology and monitoring/review program to measure the effectiveness of the objectives and mode share targets, including the frequency of monitoring and the requirement for travel surveys to identify travel behaviours of users of the development. 				To be satisfied prior to completion of Stage 13, as this is following substantial handover of facilities for the Public	
D18c	 (c) include operational transport access management arrangements, including: (i) detailed pedestrian analysis including the identification of safe route options to identify the need for management measures such as staggered school start and finish times to ensure students and staff are able to access and leave the Site in a safe and efficient manner during school start and finish; (ii) the location of all car parking spaces on the school campuses and their allocation (i.e. staff, visitor, accessible, emergency, etc.); (iii) the location and operational management procedures of the drop-off and pick-up parking, including staff management/traffic controller arrangements; (iv) the location and operational management procedures for the drop-off and pick-up of students by buses and coaches including staff management/traffic controller arrangements; (v) delivery and services vehicle and bus access and management arrangements; (vi) management of approved access arrangements; (vi) potential traffic impacts on surrounding road networks and mitigation measures to minimise impacts, including measures to mitigate queuing impacts associated with vehicles accessing drop-off and pick-up zones; (viii) car parking arrangements and management associated with the proposed use of school facilities by community members; and 	13	13	Pre-Occupation	Note	School and the High School and Public Domain Works. A Transport Access Guide will be available in 2023 to support enhanced use of Public Transport until the School Travel Plan is able to be implemented. School Capacity will not increase prior to hand over of the final stage.
D18d	(d) measures to promote and support the implementation of the plan, including financial and human resource requirements, roles and responsibilities for relevant employees involved in the implementation of the plan; and					
D18e	(e) a monitoring and review program.					
	Utilities and Services					
D19	Prior to commencement of operation, the Applicant must obtain a Compliance Certificate for water and sewerage infrastructure servicing of the site under section 73 of the <i>Sydney Water Act 1994</i> .	13	Pre-Operation	Note	To be satisfied prior to completion of Stage 13, and operation of entire development, as these are the last works associated with the development. Not applicable to Stages 1-12 as Sydney Water will not provide S73 certificate until all works under the S73 NoR are completed. This will not be achieveable until all works are completed.	
	Stormwater Operation and Maintenance Plan					
D20	Prior to the commencement of operation, a Stormwater Operation and Maintenance Plan (SOMP) is to be submitted to the Certifier along with evidence of compliance with the SOMP. The SOMP must ensure the proposed stormwater quality measures remain effective and contain the following:				To be satisfied prior to completion of Stage 13, and operation of entire development.	
D2Oa	(a) maintenance schedule of all stormwater quality treatment devices;	- 13	Pre-Operation	Note		
D20b	(b) record and reporting details;	15	resperation	14016	Not applicable to Stages 1-12 as the installation of the entire Stormwater	
D2Oc	(c) relevant contact information; and				system will not be finallised until this	
D20d	(d) Work Health and Safety requirements.				point in time.	

	Signage				
D21	Prior to the commencement of operation, way-finding signage and signage identifying the location of staff car parking must be installed.	9	Pre-Operation	Note	To be satisfied prior to completion of Stage 9 when staff carpark is handed over. Not applicable to Stages 1, 2, 3, 4, 5, 6, 7, 8, 10, 11, 12 and 13.
D22	Prior to the commencement of operation, bicycle way-finding signage must be installed within the site to direct cyclists from footpaths to designated bicycle parking areas.	11	Pre-Operation	Note	To be satisfied prior to completion of Stage 11 when all bicycle parking is complete. Not applicable to Stages 1-10 as the installation of bicycle parking will not be finallised until this stage.
D23	Operational Waste Management Plan Prior to the commencement of operation, the Applicant must prepare a Waste Management Plan for the development and submit it to the Certifier. The Waste Management Plan must:				
D23a	(a) detail the type and quantity of waste to be generated during operation of the development;	-			
D23b	(b) describe the handling, storage and disposal of all waste streams generated on site, consistent with the <i>Protection of the</i> <i>Environment Operations Act 1997, Protection of the Environment Operations (Waste) Regulation 2014</i> and the <i>Waste Classification</i> <i>Guideline</i> (Department of Environment, Climate Change and Water, 2009);	1	Pre-Operation	Note	To be satisfied prior to operation of first operational area (Stage 1) and be applicable for all operational stages.
D23c	(c) detail the materials to be reused or recycled, either on or off site; and				
D23d	(d) include the Management and Mitigation Measures included in Appendix 30 of the EIS.				
	Site Contamination				
D24	Prior to the commencement of operation, the Applicant must submit a Section A1 Site Audit Statement or a Section A2 Site Audit Statement accompanied by an Environmental Management Plan prepared by a NSW EPA accredited Site Auditor. The Section A1 or A2 Site Audit Statement must verify the relevant part of the site is suitable for the intended land use and be provided, along with any Environmental Management Plan to the Planning Secretary and the Certifier.	13	Pre-Operation	Note	Interim audit advice will be provided prior to the commencement of occupation of stages 1-12 as per condition C38. D24 will be satisfied prior to completion of Stage 13, and operation of entire development. D24 will not be applicable to Stages 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12 as remediation will not be completed until this point in time.
	Landscaping				
D25	Prior to the commencement of operation, landscaping of the site must be completed in accordance with landscape plans approved under condition A2.	13	Pre-Operation	Note	To be satisfied prior to completion of Stage 13, and operation of entire development. Not applicable to Stages 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12 as landscaping will not be finalised until this point in time.
D26	Prior to the commencement of operation, the Applicant must submit a Landscape Management Plan to manage the revegetation and landscaping on-site, to the Certifier The plan must:				To be satisfied prior to completion of Stage 13, and operation of entire
D26a	(a) describe the ongoing monitoring and maintenance measures to manage revegetation and landscaping; and	13	Pre-Operation	Note	development. Not applicable to Stages 1, 2, 3, 4, 5, 6,
D26b	(b) be consistent with the Applicant's Management and Mitigation Measures at 3 in the EIS;				7, 8, 9, 10, 11 and 12 as landscaping will not be finalised until this point in time.
	Improvements to Public School Northern Boundary Interface				
D27	Prior to the commencement of operation, all improvement works required under condition B1 must be completed and evidence of completion submitted the Certifier.	13	Pre-Operation	Note	If triggered, to be satisfied prior to completion of Stage 13, and operation of entire development. Not applicable to Stages 1-12 as development will not be entirely operational at these times.

Condition No.	Condition	Stage	Applicable Phase	Action	Staging - Justification/Comment
	PART E POST OCCUPATION				
E1.	Out of Hours Event Management Plan Prior to the commencement of the first out of hours events (School Use) run by the school that involve 100 or more people, the Applicant is to prepare an Out of Hours Event Management Plan (School Use) in consultation with Council and submit it to the Council and Planning Secretary for information. The plan must include the following:				
E1a E1b	 (a) the number of attendees, time and duration; (b) arrival and departure times and modes of transport; 				
E1c	(c) where relevant, a schedule of all annual events;				To be satisfied prior to commencement of the first out of hours events (School
E1d	(d) measures to encourage non-vehicular travel to the school and promote and support the use of alternate travel modes (i.e. public transport);	All	Occupation	Note	Use) run by the school that involve 100 or more people
E1e	(e) details of the use of the school halls at the Public School and/or High School, where applicable, restricting use before 8am and after	_			
E1f	10pm; (f) measures to minimise localised traffic and parking impacts; and				
E1g	(g) include measures to minimise noise impacts on any sensitive residential receivers, including the preparation of acoustic management plan.				
E2.	The Out of Hours Event Management Plan (School Use) must be implemented by the Applicant for the duration of the identified events or use.	All	Occupation	Note	Applicable to all stages
E3.	Prior to the commencement of out of hours events (Community Use) run by the external parties that involve 100 or more people, the Applicant is to prepare an Out of Hours Event Management Plan (Community Use) in consultation with Council and submit it to the Council and Planning Secretary for information. The plan must include the following:				
E3a	(a) the number of attendees, time and duration;	-			
E3b	(b) arrival and departure times and modes of transport;	_			To be satisfied prior to commencement
E3c	(c) where relevant, a schedule of all annual events;(d) measures to encourage non-vehicular travel to the school and promote and support the use of alternate travel modes (i.e. public	All	Occupation	Note	of the first out of hours events (Community Use) run by the external
E3d	transport);	_			parties that involve 100 or more people
E3e	(e) details of the use of the school halls at the Public School and/or High School, where applicable, restricting use before 8am and after 10pm;				
E3f	(f) measures to minimise localised traffic and parking impacts; and	_			
E3g	(g) measures to minimise noise impacts on any sensitive residential receivers, including the preparation of acoustic management plan.				
E4.	The Out of Hours Event Management Plan (Community Use) must be implemented by the Applicant for the duration of the identified community event or use.	All	Occupation	Note	Applicable to all stages
E5.	Operation of Plant and Equipment All plant and equipment used on site must be maintained in a proper and efficient condition and operated in a proper and efficient	All	Occupation	Noto	Applicable to all stages
E5:	manner. Warm Water Systems and Cooling Systems	All	Occupation	Note	Applicable to all stages
E6.	The operation and maintenance of warm water systems and water cooling systems (as defined under the Public Health Act 2010) must comply with the Public Health Act 2010, Public Health Regulation 2012 and Part 2 (or Part 3 if a Performance-based water cooling system) of AS/NZS 3666.2:2011 Air handling and water systems of buildings – Microbial control – Operation and maintenance and the NSW Health Code of Practice for the Control of Legionnaires' Disease.	All	Occupation	Note	Applicable to all stages
E7.	The Community Communication Strategy, as submitted to the Planning Secretary, must be implemented for a minimum of 12 months following the completion of construction.	All	Occupation	Note	Applicable to all stages for a minimum of 12 months post construction
E8.	Environmental Management Plan Upon completion of remediation works, the Applicant must manage the site in accordance with the Environmental Management Plan approved by the Site Auditor under condition D24 and any on-going maintenance of remediation notice issued by EPA under the Contaminated Land Management Act 1997.	All	Occupation	Note	Applicable to all stages post completion of Stage 8.
E9.	Operational Noise Limits The Applicant must ensure that noise generated by operation of the development does not exceed the noise limits contained in the Acoustic Assessment Report (Ref: 6698-1.1R Rev A) dated, 10 March 2020 and prepared by Day Design.	All	Occupation	Note	Applicable to all stages
E1O	The Applicant must undertake short term noise monitoring in accordance with the <i>Noise Policy for Industry</i> where valid data is collected following the commencement of use of each stage of the development. The monitoring program must be carried out by an appropriately qualified person and a monitoring report must be submitted to the Planning Secretary within two months of commencement use of each stage of the development or other timeframe agreed to by the Planning Secretary to verify that operational noise levels do not exceed the recommended noise levels for mechanical plant identified in the Acoustic Assessment Report (Ref: 6698-1.1R Rev A), dated 10 March 2020 and prepared by Day Design. Should the noise monitoring program identify any exceedance of the recommended noise levels referred to above, the Applicant is required to implement appropriate noise attenuation measures so that operational noise levels do not exceed the recommended noise levels or provide attenuation measures at the affected noise sensitive receivers.	13	Occupation	Note	To be satisfied post-occupation of Stage 13, which is the entire development. This is to ensure that monitoring is assessing the entire development works.
E11	Unobstructed Driveways and Parking Areas All driveways, footways and parking areas must be unobstructed at all times. Driveways, footways and car spaces must not be used for the manufacture, storage or display of goods, materials, refuse, skips or any other equipment and must be used solely for vehicular and/or pedestrian access and for the parking of vehicles associated with the use of the premises.	All	Occupation	Note	Applicable to all stages
E12	Pacific Highway operational vehicular entrance During operation of the development, the Pacific Highway vehicular entrance must:				
E12	(a) only be used by ambulance vehicles and service / delivery vehicles which are not larger than an ambulance vehicle; and	All	Occupation	Note	Applicable to all stages
E12b	(b) only be used by service / delivery vehicles outside of school hours.	_			
	Vehicle Ingress and Egress				
E13	All vehicles are to enter and leave the site in a forward direction. All vehicles must be wholly contained on site before being required to stop. Any gates must be located so as to allow the largest	All	Occupation	Note	Applicable to all stages
E14	vehicle to be wholly within the site before stopping. School Transport Plan	All	Occupation	Note	Applicable to all stages
E15	The School Transport Plan required by condition D18 of this consent must be updated annually and implemented unless otherwise agreed by the Planning Secretary.	13	Occupation	Note	Applicable at the completion of Stage 13 once handover of majority of facilities including all bicycle parking is completed.
E16	Ecologically Sustainable Development Unless otherwise agreed by the Planning Secretary, within six months of commencement of operation, Green Star certification must be obtained demonstrating the development achieves a minimum 4 star Green Star Design & As Built rating. If required to be obtained, evidence of the certification must be provided to the Certifier and the Planning Secretary. If an alternative certification process has been agreed to by the Planning Secretary under condition B15, evidence of compliance of implementation must be provided to the Planning Secretary and Certifier.	13	Occupation	Note	Will be satisfied within six months of commencement of operation of Stage 13 (final operation).
E17	Outdoor Lighting Notwithstanding condition D6, should outdoor lighting result in any residual impacts on the amenity of surrounding sensitive receivers, the Applicant must provide mitigation measures in consultation with affected landowners to reduce the impacts to an acceptable level.	All	Occupation	Note	Applicable to all stages
E18	Landscaping The Applicant must maintain the landscaping and vegetation on the site in accordance with the approved Landscape Management Plan required by condition D25 for the duration of occupation of the development.	All	Occupation	Note	Applicable to all stages

	Hours of Operation for Waste Collection				
E19	Waste collection must be undertaken during the hours of 7:30am to 6pm Monday to Friday.	All	Occupation	Note	Applicable to all stages
Condition No.	Condition	Stage	Applicable Phase	Action	Staging - Justification/Comment
	ADVISORY NOTES				
AN1	General All licences, permits, approvals and consents as required by law must be obtained and maintained as required for the development. No condition of this consent removes any obligation to obtain, renew or comply with such licences, permits, approvals and consents.	All	Throughout	Note	Applies to all stages
AN2	Long Service Levy For work costing \$25,000 or more, a Long Service Levy must be paid. For further information please contact the Long Service Payments Corporation Helpline on 131 441.	All	Throughout	Note	Applies to all stages
AN3	Legal Notices Any advice or notice to the consent authority must be served on the Planning Secretary.	All	Throughout	Note	Applies to all stages
AN4	Access for People with Disabilities The works that are the subject of this application must be designed and constructed to provide access and facilities for people with a disability in accordance with the BCA. Prior to the commencement of construction, the Certifier must ensure that evidence of compliance with this condition from an appropriately qualified person is provided and that the requirements are referenced on any certified plans.	All	Throughout	Note	Applicable to all stages
AN5	Utilities and Services Prior to the construction of any utility works associated with the development, the Applicant must obtain relevant approvals from service providers.	All	Throughout	Note	Applicable to all stages
AN6	Prior to the commencement of above ground works written advice must be obtained from the electricity supply authority, an approved telecommunications carrier and an approved gas carrier (where relevant) stating that satisfactory arrangements have been made to ensure provisions of adequate services.	All	Throughout	Note	Applicable to all stages
AN7	Road Design and Traffic Facilities All roads and traffic facilities must be designed to meet the requirements of Council or TfNSW (whichever is applicable). The necessary permits and approvals from the relevant road authority must be obtained prior to the commencement of road or pavement construction works.	All	Throughout	Note	Applicable to all stages
AN8	Road Occupancy Licence A Road Occupancy Licence must be obtained from the relevant road authority for any works that impact on traffic flows during construction activities. SafeWork Requirements	All	Throughout	Note	Applicable to all stages
AN9	To protect the safety of work personnel and the public, the work site must be adequately secured to prevent access by unauthorised personnel, and work must be conducted at all times in accordance with relevant SafeWork requirements.	All	Throughout	Note	Applicable to all stages
AN10	Hoarding Requirements The Applicant must submit a hoarding application to Council for the installation of any hoardings over Council footways or road reserve. Handling of Asbestos	All	Throughout	Note	Applicable to all stages
AN11	The Applicant must consult with SafeWork NSW concerning the handling of any asbestos waste that may be encountered during construction. The requirements of the Protection of the Environment Operations (Waste) Regulation 2014 with particular reference to Part 7 - 'Transportation and management of asbestos waste' must also be complied with.	All	Throughout	Note	Applicable to all stages
AN12	At least eight weeks prior to the commencement of operation, the Applicant must submit the following details to TfNSW and obtain authorisation to install School Zone signs and associated pavement markings, and / or removal / relocation of any existing Speed Limit signs:		Pre-Operation	Note	
AN12a AN12b	(a) a copy of the conditions of consent;(b) the proposed school commencement/opening date;				
AN12C	 (c) two sets of detailed design plans showing the following: (i) accurate Site boundaries; (ii) details of all road reserves, adjacent to the Site boundaries; (iii) all proposed access points from the Site to the public road network and any additional conditions imposed/proposed on their use; (iv) all existing and proposed pedestrian crossing facilities on the adjacent road network; (v) all existing and proposed traffic control devices and pavement markings on the adjacent road network (including School Zone signs and pavement markings); and (vi) all existing and proposed street furniture and street trees. 	13			To be satisfied 8 weeks prior to completion of Stage 13, and operation of entire development.
AN13	The owner must submit to Council an Annual Fire Safety Statement, each 12 months after the final Safety Certificate is issued. The certificate must be on, or to the effect of, Council's Fire Safety Statement. Written Incident Notification and Reporting Requirements	All	Throughout	Note	Applicable to all stages
1	A written incident notification addressing the requirements set out below must be emailed to the Planning Secretary through the major projects portal within seven days after the Applicant becomes aware of an incident. Notification is required to be given under this condition even if the Applicant fails to give the notification required under condition A24 or, having given such notification, subsequently forms the view that an incident has not occurred.				
2	Written notification of an incident must:				
2a 2b	 (a) identify the development and application number; (b) provide details of the incident (data time, location, a brief description of what occurred and why it is classified as an incident); 				
2b 2c	 (b) provide details of the incident (date, time, location, a brief description of what occurred and why it is classified as an incident); (c) identify how the incident was detected; 				
2d	(d) identify when the applicant became aware of the incident;				
2e	(e) identify any actual or potential non-compliance with conditions of consent;				
2f	(f) describe what immediate steps were taken in relation to the incident;	All	Throughout	Note	Applicable to all stages
2g 2b	 (g) identify further action(s) that will be taken in relation to the incident; and (b) identify a project contact for further communication regarding the incident. 				
2h 3	 (h) identify a project contact for further communication regarding the incident. Within 30 days of the date on which the incident occurred or as otherwise agreed to by the Planning Secretary, the Applicant must provide the Planning Secretary and any relevant public authorities (as determined by the Planning Secretary) with a detailed report on the incident addressing all requirements below, and such further reports as may be requested. 				
4	The Incident Report must include:				
4a	(a) a summary of the incident;				
4b	(b) outcomes of an incident investigation, including identification of the cause of the incident;(c) details of the corrective and preventative actions that have been, or will be, implemented to address the incident and prevent				
4c	recurrence; and				
4d	(d) details of any communication with other stakeholders regarding the incident
