Chatswood High School

Term 1 holiday works

April 2020

Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

We are continuing this commitment to deliver new and upgraded schools for communities across New South Wales. The ongoing delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Chatswood High School

We are upgrading Chatswood High School with new and improved education facilities to support the student community.

Progress summary

Work continues on the upgrade of Chatswood High School during the end of Term 1 break.

An important part of the upgrade includes the construction of a new building, Building R, to the north of the sports field. Later this year, the area will become a construction area for Building R, with hoardings in place to separate it from the school and sports field. The map identifies Building R's construction area.

Term 1 school holiday works

To prepare for the upgrade to Chatswood High School, some of the demountables currently located in the Building R construction area will be removed and replaced. Demountables will also be installed on the staff carpark. Cranes and trucks will enter the school via Oliver Road and De Villiers Avenue to complete the work (see map overleaf).

As part of the routine school maintenance, the high school library and hall will also be re-roofed.

Due to the nature of our work, you may experience increased noise from machinery and other activities.

We are here to make sure that work is completed safely and efficiently, and ensure that disruptions are minimised. Our contractors will ensure their teams comply with social distancing restrictions to provide a safe workplace. Thank you for your patience as we deliver this important project for the community.
