

Upgrades to Chatswood Public School

Works notification

June 2021

Dear Community,

We are upgrading Chatswood Public School and Chatswood High School with new and improved education facilities to support the student community.

Site establishment activities to prepare for construction at Chatswood High School and Chatswood Public School will start from Monday 7 June 2021. This will include the staged demolition of several existing buildings and the removal of materials. Please be advised that during construction Chatswood Public School grounds will be closed to the public outside of school hours. Out of school hours care will continue to operate.

Site preparation and the demolition of building I

Construction hoarding will be installed around the lowers, astroturf, existing staff car park and building I to form the construction work zone for the new buildings P1, P2, sports court and car park and to prevent public access to the site. Hoarding will also remove a section of each covered outdoor learning area (COLA) (see map showing the site layout with hoarding). Site amenities will be installed inside the work zone for contractor use during construction.

Preparation for the demolition of building I will involve the removal of non-structural elements, fixtures and furnishings, and disconnection of services. Demolition will involve the use of heavy machinery such as excavators and bulldozers and may be noisy at times. We are working closely with the principal to minimise impacts to school operations.

Site preparation will also involve the removal of trees within the construction work zone, as approved by the Department of Planning, Industry and Environment. Replacement planting will be carried out as the project progresses, in accordance with the relevant policy and in consultation with Willoughby Council.

Construction vehicles will access the construction work zone using the Pacific Highway and Jenkins Street vehicle entrances. From 7 June, 2021 these vehicle entrances will be closed to the public. A turntable will be built on school property near the Pacific Highway entrance to allow construction vehicles to turn and exit safely and in a forward direction.

Work hours

From 7 June 2021, the COVID-19 Development – Construction Work Days Order 2021 will end and construction work hours will revert to those set out in the development consent conditions. Work hours will be 7:00am to 6:00pm Monday to Friday and 8:00am to 1:00pm Saturday. No work will occur on Sundays or public holidays unless notified.

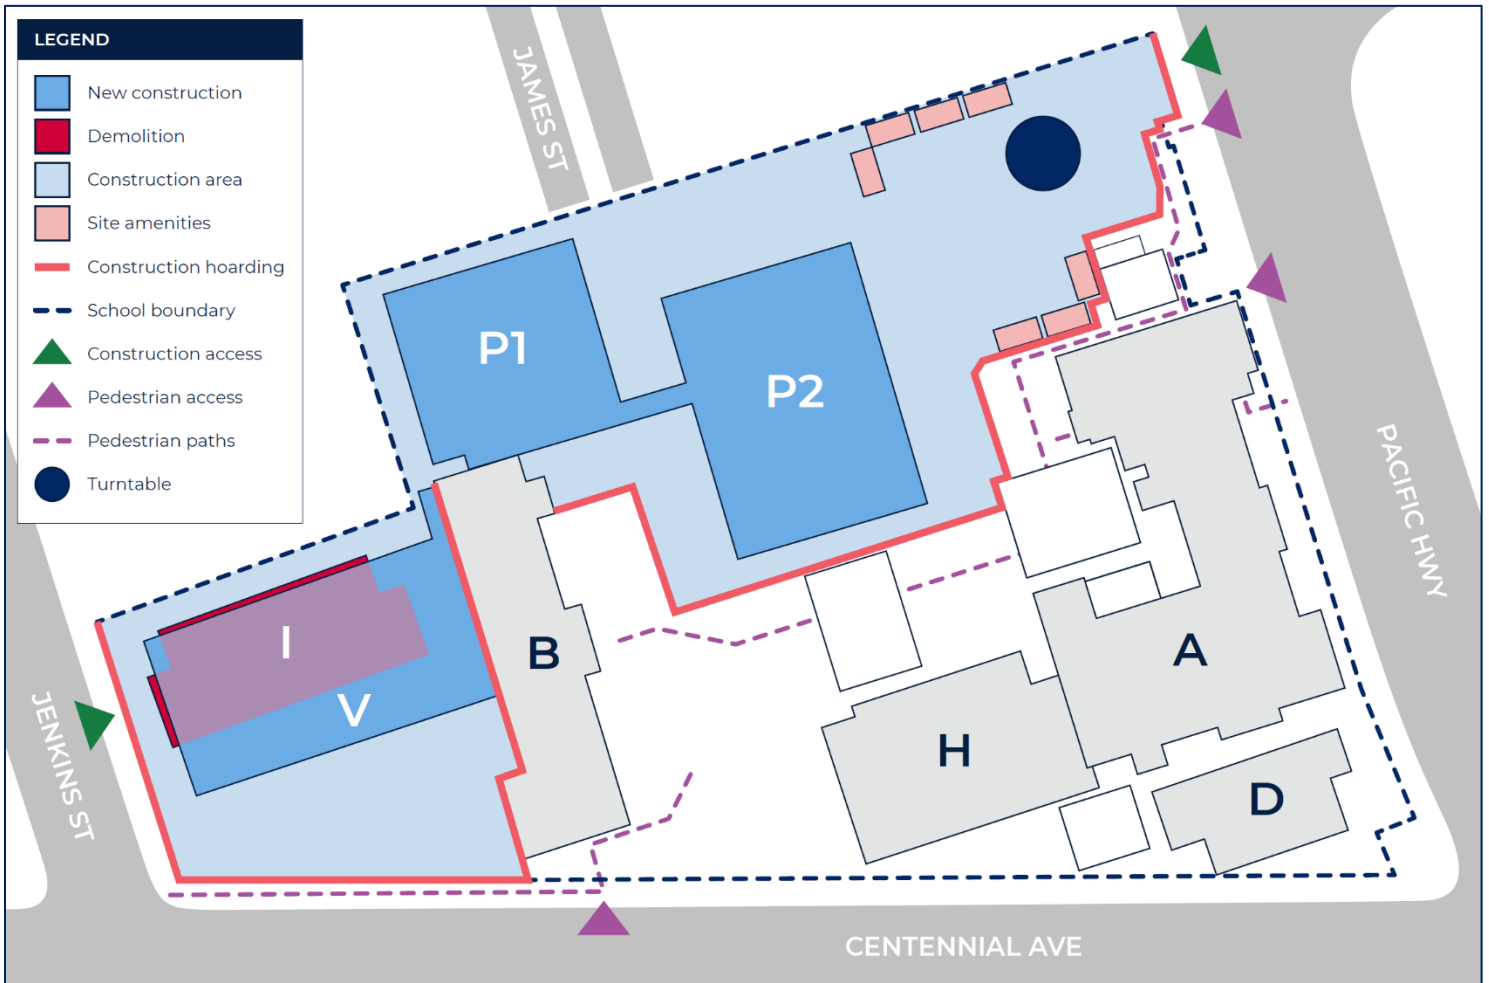

The health, safety and well-being of students, staff, neighbours and community is our highest priority. For any queries relating to this work, please contact School Infrastructure NSW using the contact details below.

Thank you for your patience while we upgrade Chatswood Public School.
