

Upgrades to Chatswood Public School and Chatswood High School

Works notification

November 2020

Dear community,

We are preparing for the upgrades to Chatswood Public School and Chatswood High School. The upgrades will deliver more than 150 new and refurbished teaching spaces from Kindergarten to Year 12.

Temporary fenced areas at Chatswood High School

We are currently installing demountable units on the staff car park, sports courts, cricket nets and near the Bush Campus to provide temporary classrooms for students during construction.

As notified in October 2020, temporary fencing has been installed around work areas to allow the work to continue safely and efficiently. Due to site constraints, additional fencing has been installed in the south-west corner of the oval while works are underway. See the map overleaf.

The fencing will be removed in Term 1 2021 once demountable installation works are complete.

We have engaged Polytan, the company which installed the oval's artificial surface, to provide appropriate protective measures for the section of oval that has been fenced off. Use of the full field and one basketball court will be available again in Term 1 2021 with the oval reinstated to the standard that it was before the works started.

The car park, cricket nets and other sports courts will be returned to the school when the demountables are removed in early 2023.

We are working closely with both school principals to minimise disruption to students and staff and are continuing to liaise with Willoughby Council as the coordinator of community sporting groups.

Thank you for your patience as we deliver this important project for the Chatswood community.
