

Condell Park High School

Works notification | 9 September 2025

As part of the NSW Government's plan to rebuild public education, a project is underway to upgrade Condell Park High School High School to provide new modern facilities and refurbishment and landscaping across the existing school.

Building E upgrade site establishment

As part of the upgrade, Building E will be refurbished and the Support Learning Unit relocated and expanded.

Starting on **Saturday 13 September 2025**, we will set up a construction site at Condell Park High School near Townsend Street. This is to prepare for upgrade work inside and outside of Building E. See map on the next page for details.

The work will include:

- putting up temporary fencing around the site
- building a temporary driveway off Townsend Street for construction vehicles
- checking underground services and surveying the site
- delivering site sheds and facilities for the workers
- removal of a tree within the construction area, due to its proximity to the electrical substation
- we expect some noise during this work including chainsaw use.

Building E construction works start

Refurbishment works will start in the school holidays from **Saturday 27 September** and are expected to continue until about June 2026, depending on the weather.

The work will include:

- internal refurbishment works to Building E
- digging trenches and connection of services such as water and electricity
- building an elevated walkway to connect the Support Learning Unit to its own outdoor space.

The school's pedestrian entrance on Townsend Street will be closed during this stage of construction. Pedestrians will need to use the school entrance on Third Avenue from Monday 13 September until June 2026. If we can open the Townsend Street entrance earlier, we will let the school community know.

Working hours

Work will start on Saturday, 13 September, from 8 am to 4 pm.

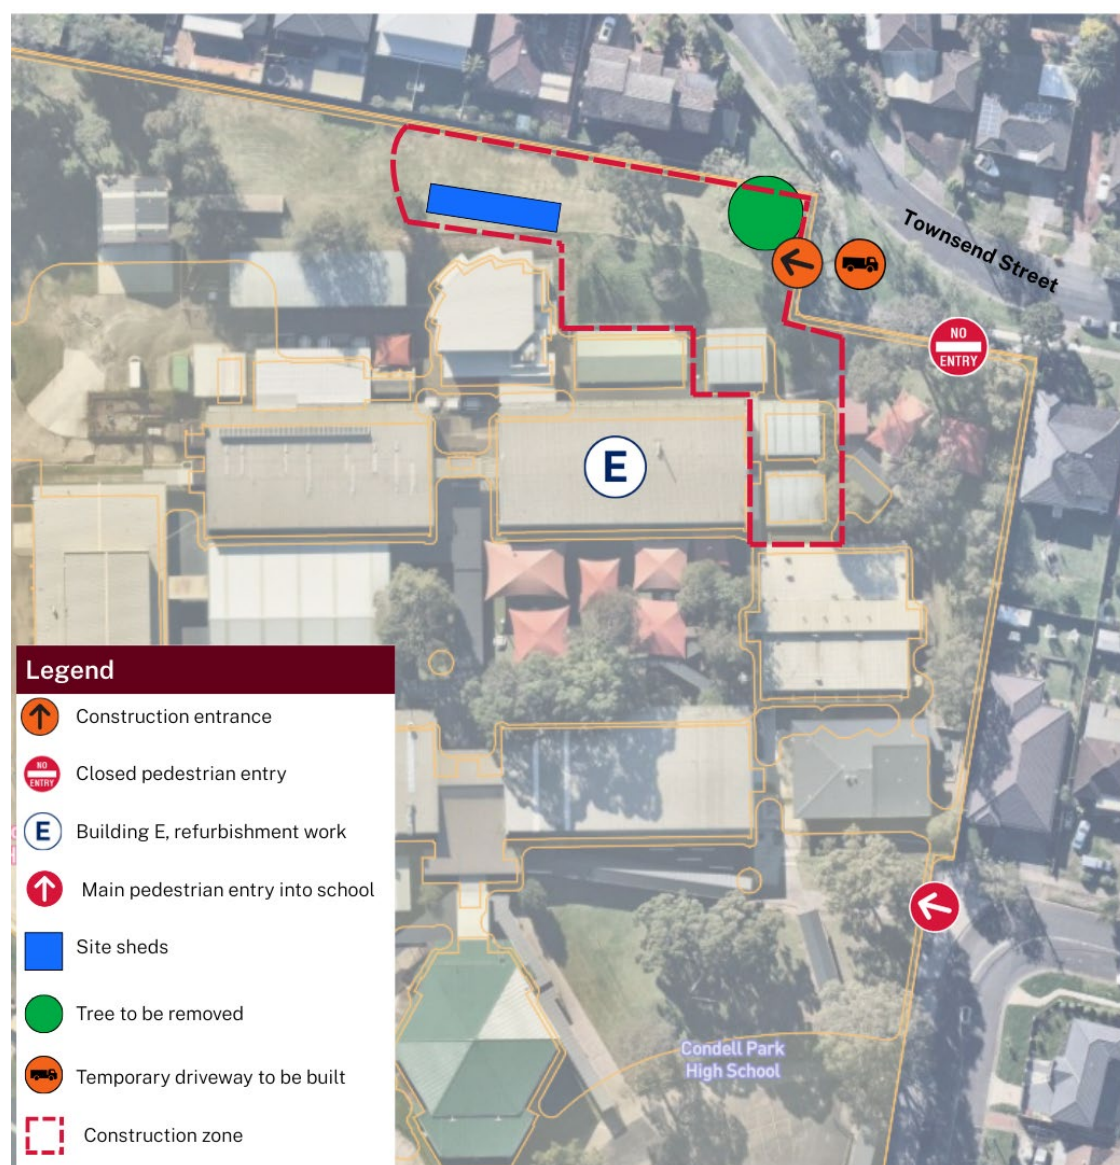

All other work will happen during the approved times of:

- Monday to Friday from 7 am to 6 pm.
- Saturday from 8 am to 1 pm
- No work on Sundays or public holidays unless notified.

Traffic management will be in place when needed. We will try to avoid truck movements during school drop off and pick up times.

Site map

The map shows the area that will be closed off to the school for the upgrade works to start.

Thank you for your cooperation during this important work.
