

Condong Public School

Works notification | 17 July 2025

As part of the NSW Government's plan to rebuild essential services, a project is underway to rebuild Condong Public School after it was extensively damaged by floods in early 2022.

The project will provide new flood resilient classrooms, a library, canteen, administration area and landscaping.

Street parking during delivery

As part of ongoing works at Condong Public School, we are expecting the delivery of structural steel to the site from **Thursday 10 July – Wednesday 16 July**.

This steel will form the flood resilient gantry that supports the new school buildings.

The deliveries will occur during construction hours (**7 am – 6 pm**), on weekdays only.

To provide access for the large trucks, **we are asking neighbours to please keep the immediate area clear of street parking during these times**. (see map).

Thank you for your co-operation. We are doing what we can to avoid disruption to our school neighbours. We understand there are impacts and appreciate your ongoing patience.

We expect to complete the new school facilities in late 2025.
