CERTIFICATION

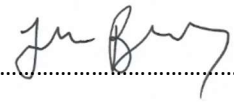

We certify that the Civil design as documented in the drawings included with this certificate have been checked and comply with:

- Sutherland Shire Councils Development Control Plan
- SINSW Educational Facilities Standards and Guidelines
- Building Code of Australia 2019
- Australian Rainfall & Runoff 2019;
- Floodplain Development Manual, NSW Government, April 2005
- AS2890.1 2004: Parking Facilities – Off Street Parking
- AS3500 Part 3: 2018. Plumbing and Drainage - Stormwater
- Landcom's Managing Urban Stormwater: Soils and Construction

Civil documentation that accompanies this certification is listed in the table below and aligns with the architectural design package prepared by Fulton Trotter Architects (Issue 19, Dated 21/4/2023) and landscape architectural design package prepared by Taylor Brammer (issued 26/5/23). The carparking facility has been designed to suit grading and stormwater requirements required under AS2890.1. Carpark functionality and layout compliance is to be captured under the architectural or traffic consultants certification.

I confirm that I am a properly qualified person and have a good working knowledge of the BCA clauses and standards referenced above. The information contained in this statement is true and accurate to the best of my knowledge.
