Works notification | 12 March 2024

## Cronulla High School Building L Concrete Pour

As part of the works to Upgrade Cronulla High School, a concrete pour for Building L has been scheduled to take place between Monday, March 18, 2024, and Wednesday, March 20, 2024.

This process is estimated to take approximately 10 hours and will involve the delivery and pouring of approximately 120 cubic meters of concrete, facilitated by 15-20 trucks.

## Management of construction impacts

To facilitate this process, the following measures will be implemented:

**Vehicle Holding Area:** A designated vehicle holding area will be established at the entrance to safely direct vehicles to various construction areas.

**Traffic Management:** Traffic management protocols will be enforced as necessary to ensure the safety of students, staff, the local community, and workers. This includes the use of traffic controllers to manage vehicle entry and exit from the construction site, and the rescheduling of deliveries to outside of school pick-up and drop-off times whenever possible.

**Concrete Delivery:** Trucks will deliver concrete approximately every 20-30 minutes. These trucks will be parked in the Mitchell Road car park within Wanda Reserve. Please note that no more than two trucks will be parked at a time, and they will be stationed in a designated waiting area. Adequate signage will be placed along Bate Bay Road, Elouera Road, and Captain Cook Drive, to guide vehicles safely in and out of the construction site. Please refer to the attached map for reference.

**Temporary Lighting:** Temporary lighting may be installed within the construction site for safety and efficiency purposes. This lighting will be directed away from neighbouring houses and will only be operational during working hours, from 7 am to 6 pm.

For information about how we manage construction impacts please visit:

<https://www.schoolinfrastructure.nsw.gov.au/what-we-do/we-build-schools/managingconstructionimpacts.html>

We apologise for any inconvenience this may cause and assure you that every effort will be made to minimise disruptions during this period. Your cooperation and understanding are greatly appreciated as we are delivering an Upgraded Cronulla High School.

## Staying informed

School Infrastructure NSW will continue to share updates as the project progresses.
