Project update

February 2019

Curl Curl North Public School upgrade

An upgrade is underway at Curl Curl North Public School to deliver new facilities, innovative learning spaces and provide for growing student enrolments in the area. The project is being delivered in stages and includes:

Stage 1

- 40 new permanent teaching spaces
- a new library
- an upgrade to the administration facilities

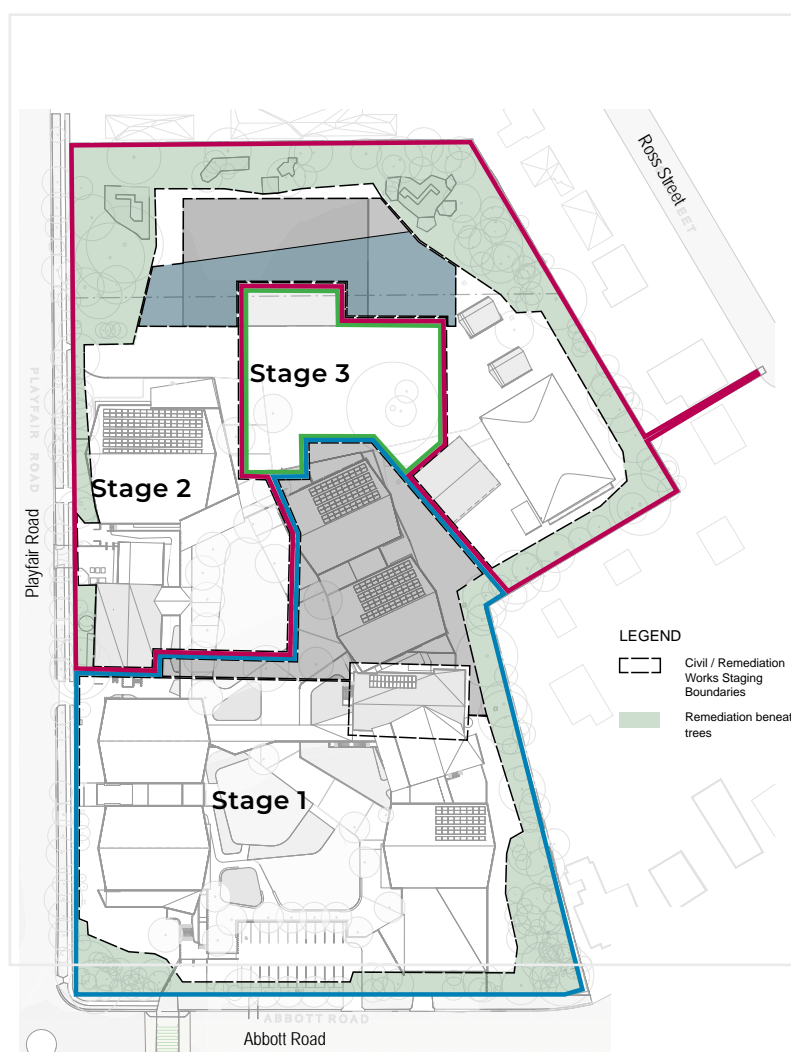

Stage 2

- a new hall
- an upgrade to external play space

Stage 3

- final landscaping
- existing hall is demolished

The project is being delivered in stages so that the temporary classrooms can be removed from site before the new hall is built.

Progress summary

The development application has been approved and the construction contract has been awarded to ADCO Constructions.

Site establishment

Site establishment will commence to prepare the work area for construction. ADCO Constructions will install temporary fencing and hoarding to separate the site from the school grounds. They will also install site sheds and amenities and set up site vehicle access.

Construction will begin shortly after this with the remediation of known asbestos within the site. This work will be carried out in strict accordance with all applicable legislation, regulations, policies and guidelines to ensure the health and safety of the school and local community at all times.

Construction working hours

Normal working hours will be from 7am to 6pm Monday to Friday and 7am to 1pm on Saturdays. No work will take place on Sundays or public holidays.

Some work may be required outside of these approved hours to ensure the safety of the staff and students. The community will be kept informed of any changes to the approved working hours.

Traffic and parking

To minimise traffic and parking impacts, workers will park away from school and return to site on foot. Kiss and drop zones will not be affected.

Deliveries will be scheduled for outside of pick up and drop off times and will enter the site via the south end of the school on Abbott Road.

We will continue to share construction updates and project information with the school as the project progresses. We will provide information through information booths, project updates, school newsletters and our website.

Information booth details

Thursday 28 February 2019, at Curl Curl North Public School, 2:30pm to 4:00pm
