Dapto Public School

Project update

June 2021

Investing in our schools

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

A project is underway to upgrade Dapto Public School to help meet future enrolment growth in the local area.

The project will deliver:

- 20 innovative learning spaces
- practical activity spaces
- an extension to the existing library and administration facilities including a new staffroom with more office space and a dedicated teacher digital area
- minor refurbishment to the canteen.

Progress summary

The extension works to the library and administration buildings were completed and opened on Day 1 Term 2.

The remainder of the major works are progressing well and are on track to be completed by late 2021, weather dependant.

We will start to remove the demountable classrooms at the end of the project, after the new buildings are occupied.

The carpark works are scheduled to be completed by late 2021, after the demountable buildings are removed.

Next steps

Throughout June and July 2021, works at Dapto Public School will include:

- Block I will have roof sheeting and windows installed and the external brickwork will begin
- Ceiling and wall linings to Blocks H and I will be installed along with a lift, which will service both buildings
- Internal and external painting and cladding will follow towards the end of July
- Floor finishes and external works will also start in July.

The project is on track and both new buildings are due to be opened on Day 1 Term 4, 2021.
