

Dapto Public School

Welcome pack | October 2021

Aerial view of new learning spaces at Dapto Public School

Welcome to your school

We're excited that the Dapto Public School upgrade is open and ready for you to use.

The upgrade has delivered:

20 permanent flexible learning spaces

Breakout spaces and practical activity areas

Student and staff amenities

Library upgrade

Canteen upgrade

Thank you for your patience during construction. We are thrilled to deliver this project for the school community.

Message from your Principal

The culture at Dapto Public School is to aim high. We have always strived to do better and achieve our very highest. This culture has lent itself to innovation and quality while always remembering the importance of the individual student. The new facilities which have been constructed over the last 12 months will add to that reputation.

Our school has accepted the new permanent classrooms. This move will see the students of Dapto Public School move into a learning facility of the highest quality. A facility which will add to the innovative learning experiences, while housing our students in the best of accommodation to provide a world class learning environment.

Additionally, our library hub has also seen an upgrade. This upgrade has seen our library further grow into a unique place to study and learn. The inclusion of bespoke learning nibs and cutting-edge technology, which has been integrated into the very walls of the build, providing students with the best of opportunities to learn.

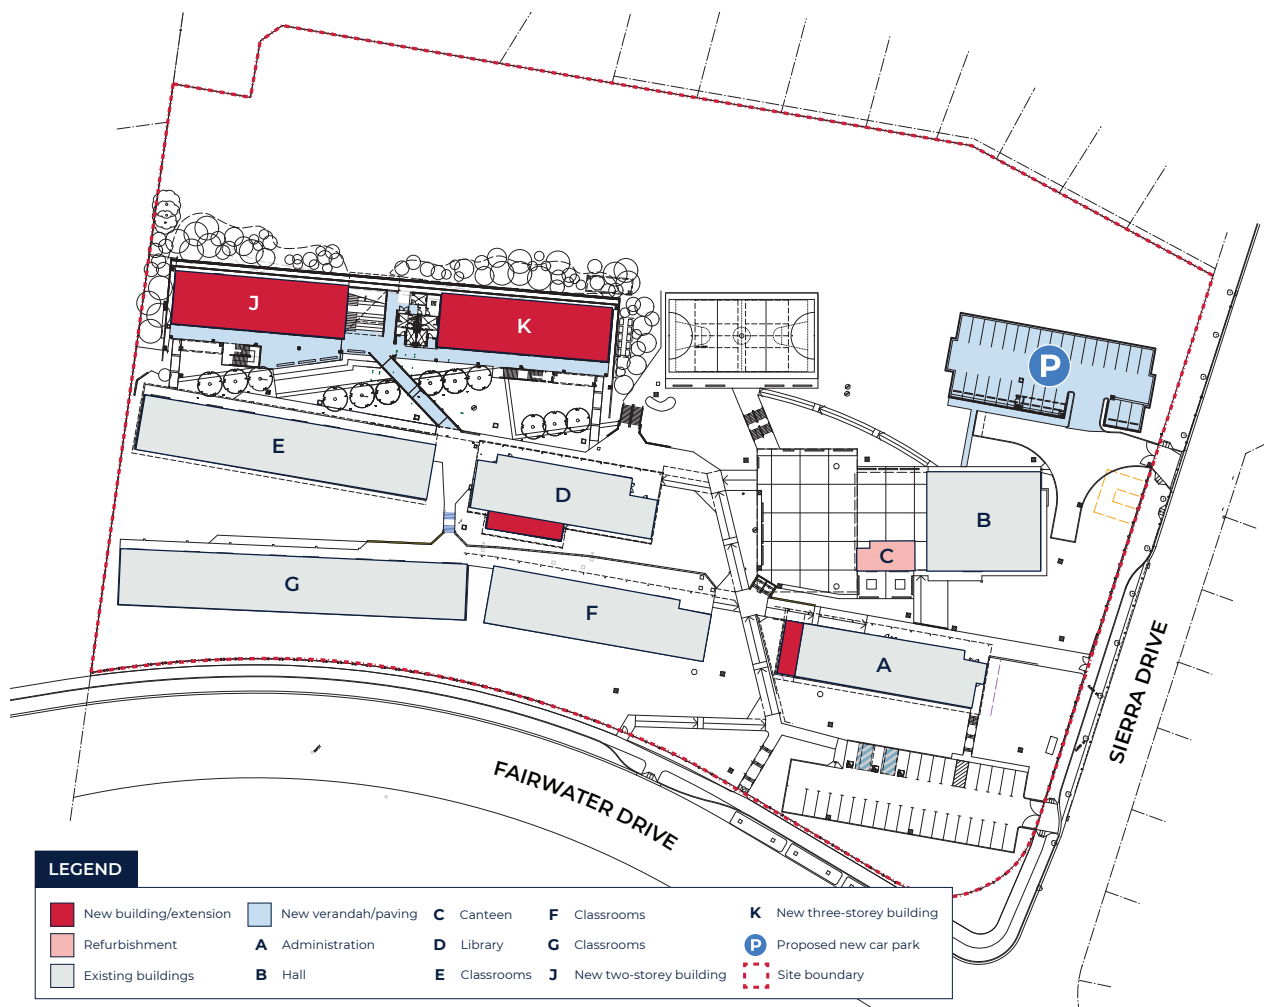

As we return from learning from home, students will move into their new rooms. This improvement will see demountables removed from site, opening space for the planned improvement in playground facilities. These are planned to be opened in early 2022.

In the current environment we cannot invite the community onsite, however, I would like to share with you, images of this wonderful learning facility.

We hope to welcome you back onsite for a firsthand viewing soon.

Tony Friedrich
Principal

New upgrade map

New learning spaces

This exciting project has delivered new learning environments for the next generation of young minds. The new learning environments offer flexibility where teachers can provide more opportunities for student engagement.

The learning spaces:

- are adaptable to accommodate small or large groups
- provide accessibility to new technology in a variety of settings
- encourage a personalised learning experience so students learn at their own level and pace.

Frequently asked questions

Will there be any changes to school entrances?

No. All existing gates will remain operational.

What construction works are remaining?

Work to deliver the new car park will start in late 2021 and is anticipated to be finished in early 2022. Additional landscaping works will also take place early 2022.

Where will the construction site compound be located during the remaining works?

The construction site compound is currently being relocated to the area that previously housed the demountables.
