

# Darcy Road Public School

Works notification | 1 December 2023

The upgrade of Darcy Road Public School will provide new permanent classrooms and core facilities to support the growing population in Western Sydney.

The project will involve the demolition of existing school buildings to make way for new buildings.

## Installing site sheds

Site sheds were due to be installed within the construction area of the school site on Saturday 25 November 2023, as per the works notification dated 22 November 2023.

Due to wet weather, these works could not go ahead and will now take place on Saturday 9 December 2023, weather permitting. In the event of wet weather, the works will be rescheduled.

The works will involve using a mobile crane to safely lift the sheds from trucks. The intention is for the trucks to enter and exit the school site via the new driveway on Darcy Road, however it may be necessary to enter via the staff car park on Olive Street.

Where needed, traffic controllers will be in place to ensure the safety of the wider community.

## Working hours

Saturday working hours are 8 am to 1 pm. Some deliveries to the site may need to take place outside of normal work hours because of the size of the trucks required. This is to minimise the impact on road users and the general public.

We will work to ensure that all works are carried out safely and efficiently and will minimise impacts to the community at every opportunity.

Thank you for your cooperation during this important work.

## Who can I contact if I have a concern about construction work?

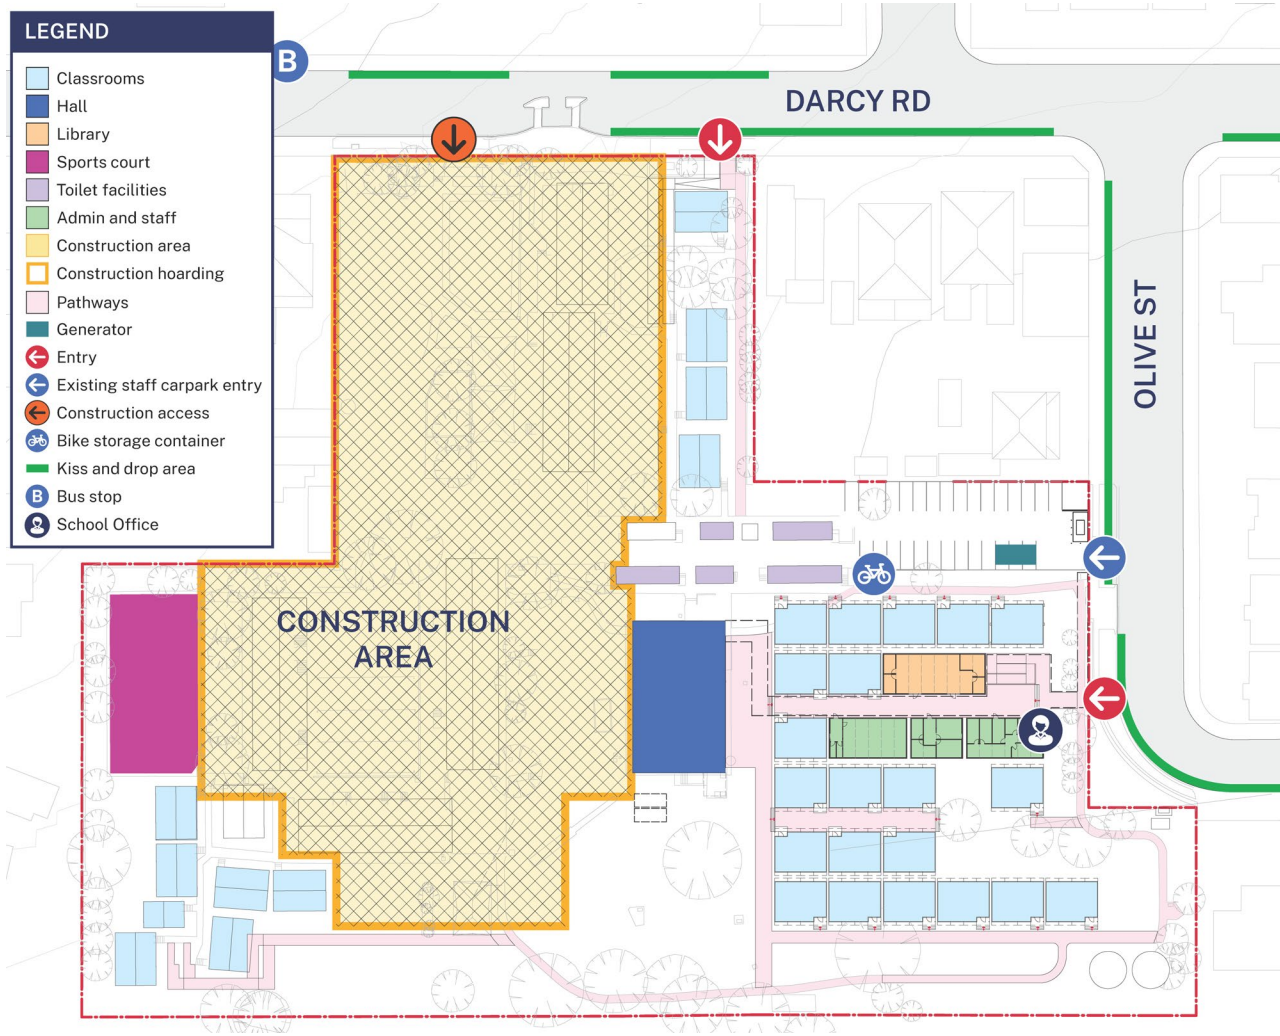

If you have any queries or concerns about this project, you can contact School Infrastructure NSW during business hours on 1300 482 651. In an emergency, call triple zero (000).

Thank you for your cooperation during this important work.

## Site plan

The intention is for the trucks to enter and exit the school site via the new driveway on Darcy Road, however it may be necessary to use the staff car park on Olive Street. The sheds will be placed within the existing construction area.
