

Darcy Road Public School

Project update | April 2024

Investing in our schools

As part of the NSW Government's plan to rebuild essential services, the 2023-24 Budget is delivering a record \$3.5 billion for new and upgraded schools in Western Sydney. This targeted investment in growing communities will ensure working families get access to a world class public education.

The 2023-24 Budget committed funding to progress with an upgrade to Darcy Road Public School.

Project overview

The upgrade will deliver new buildings with 45 modern flexible classrooms, new administration facilities, a new library, a new canteen, a refurbished hall, an extension to the existing car park, and improvements to open spaces.

The upgrade will include the demolition of all existing school buildings, except for the hall, and removing demountable classrooms.

Progress summary

The NSW Department of Planning, Housing and Infrastructure (DPHI) approved the State Significant Development (SSD-49073460) for the upgrade in March 2024. The main upgrade works have now started.

Demolition of the existing school buildings within the construction area is underway.

Next steps

Works to install a new substation on the school site to permanently support the increased electrical demand from the school is continuing until early July 2024.

Works over the April school holidays from Monday 15 April to Saturday 27 April 2024 will include:

- finishing demolition works
- site clearing and excavation to make way for the new buildings
- connection of stormwater pipes on the southern side of the construction site next to the temporary school buildings beside the hall
- repositioning of the driveway ramp located on the main entry via Darcy Road to enable excavation works on site.
