

Darcy Road Public School

Works notification | 1 May 2024

The upgrade of Darcy Road Public School will provide new permanent classrooms and core facilities to support the growing population in Western Sydney.

Tower crane installation

A tower crane will be delivered to the construction zone at Darcy Road Public School and installed using a mobile crane on Saturday 11 May 2024, weather permitting.

The tower crane will remain onsite until mid-2025. No loads will be lifted over the operational school, the general public, or nearby neighbours.

The tower crane will be brought onto site via trucks which will enter via the construction access point on Darcy Road. Due to the size of the trucks required, trucks will arrive on site from 6:30 am onwards. This is to minimise the impact on road users and the general public.

Traffic control will be in place to ensure the safety of the community.

Due to the complex nature of the work, work may need to start from 6:30 am and continue beyond the project's standard construction hours up to 5:30 pm. These works are in accordance with the State Significant Development conditions for this project.

We will ensure that work is completed safely and efficiently, and we will minimise the impacts on the community at every opportunity.

We apologise for any inconvenience these works may cause and thank you for your understanding.

More information
