.....	URB-LAN-PLS-00001
.....	Review

Notes:

- Supply and install all scheduled items unless otherwise noted.
- Quantities set out in this schedule are provided as a guide only. It is the Contractors responsibility to confirm all quantities.
- The plant schedule should be read in conjunction with the planting plan(s). The quantities on the planting plan(s) take precedence over the quantities in this plant schedule.
- All trees and shrubs are to comply with AS 2303, "Tree stock for landscape use".
- Partial destructive sampling as outlined in AS 2303, "Tree stock for landscape use" is likely to be carried out on a representative selection trees and plants.
- The supply height and spread for trees and palms is allowed to vary by up to 10% (+ or -) from the dimensions below.
- All plants are to be vigorous and appropriately acclimatised with a rootball that is full but not restrained.
- The rootball and canopy of all plants are to be balanced and the stem / trunk sufficiently developed so that the plants stay upright without the need to be staked.
- Trunk caliper, height and spread for trees, palms and ferns is to be in accordance with the latest Australian Standard.
- All trees, palms and ferns will be pre-procured approximately 12 months prior to installation. Sizes shown are estimates of the stock at the time of installation.
