Darlington Public School

Project update | April 2022

Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project summary

Stage 1 of the Darlington Public School upgrade is nearing completion.

When Stage 1 has been finished, the following facilities will be available for the school to use:

- 9 new teaching and learning spaces
- 3 preschool classrooms
- A new library

Next steps

In order to limit disruption to students, the school is anticipated to move into the new facilities following the NAPLAN examinations in May 2022.

Stage 2 construction works will start after the school has moved into the new facilities delivered in Stage 1. Stage 2 will provide more new learning and teaching spaces, a new hall and canteen and covered outdoor learning areas (COLAs).

Thank you for your patience while we deliver this important school infrastructure.
