

Darlington Public School

Works notification

11 October 2022

A project is underway at Darlington Public School to deliver new facilities including learning and teaching spaces, a hall, a library, administration and staff facilities, a canteen and covered outdoor learning areas (COLAs).

Limited street parking on Golden Grove Street 17-18 October

On Monday 17 and Tuesday 18 October 2022 from 7 am to 5 pm, we will be pouring the concrete slabs for the new Darlington Public School building.

During these works, the 15 minute parking area in front of Darlington Public School on Golden Grove St will be unavailable. Please make sure your vehicle is not parked in this area on Monday 17 and Tuesday 18 October 2022 from 7 am to 5 pm.

Concrete transport trucks will be delivering the concrete via Golden Grove Street from 7 am. They will be arriving at 30 minute intervals, which will be managed by the traffic controllers onsite.

Traffic controllers will assist pedestrians with footpath access and vehicles along Golden Grove Street.

This work is weather dependant and may be rescheduled due to rain.

Stormwater works to be finished this week

As previously notified (15 September 2022), we are in the process of connecting the site to the stormwater system. This will direct all stormwater underground rather than onto the street. Rain last week slowed progress on these works, which will now be finished this week.

If you have any concerns about this project, you can contact School Infrastructure NSW during business hours on 1300 482 651, or the site manager out of hours (listed on the construction site entry). We are here to make sure that work is completed safely and efficiently and we will minimise impacts on the community at every opportunity.

Thank you for your patience while we deliver this important school infrastructure.
