

Darlington Public School students excitedly plan the future ahead for their new school

## Darlington Public School

### Project update

July 2019

#### Investing in our schools

The NSW Government is investing \$6.7 billion over the next four years to deliver 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

#### Darlington Public School Project

The Darlington Public School project is part of NSW Government's largest investment in public education infrastructure in the history of NSW.

School Infrastructure NSW (SINSW) is committed to changing student's lives, providing Darlington Public School students with the opportunity to do extraordinary things, inspiring growth, building capability and transferrable, practical skills that last a lifetime.

The previous preferred concept designs was reviewed by the Government Architect NSW as part of the project governance process. Government Architect NSW is the government agency who provides strategic design leadership in architecture, urban design and landscape architecture.

Based on SINSW independent peer review of the design and following Government Architect NSW feedback, the masterplan options are being redesigned.

#### Community information sessions

You are invited to meet the project team and provide feedback on the revised masterplan options at one of these upcoming information sessions:

Tuesday 6 August 2019 from 3.00pm – 5.00pm at the Darlington Public School's Hall.

Thursday 8 August 2019 from 4.30pm to 6.30pm at the Darlington Public School's Hall.

Your feedback is important to us. We are committed to working together with our school communities and stakeholders to deliver the best possible learning facilities for students.
