# Darlington Public School

Project update | December 2021

## Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

## Project overview

Darlington Public School is being upgraded to deliver new facilities and provide for growing student enrolments in the area. These new facilities will include:

### Stage 1:

- New learning and teaching spaces
- Preschool classrooms
- A new library
- New administration and staff facilities

### Stage 2:

- More new learning and teaching spaces
- A new hall
- A new canteen
- Covered outdoor learning areas (COLAs)

### Project summary

Main works construction began in March 2021 and is progressing well. Crane activity can be seen on the site assisting construction works and the movement of materials.

Ground disturbance activities are now complete in the area that forms Stage 1 of construction. The area has been remediated in accordance with the Main Works Asbestos Management Plan, the Remediation Action Plan, the Department of Education's Asbestos Management Plan and SafeWork NSW regulations.

The building structure has topped out, meaning the steel roof structure has been installed and now cladding and roof sheeting are underway.

### Next steps

Over the coming months, work will continue to construct the new school building. This includes completion of minor structural elements, installation of the roof and façade and continuation of internal fitout works within the new school building.

See next page for map depicting Stage 1 works.

Stage 2 works are expected to begin in 2022.

### Summer holiday works

Over the summer holidays, work will continue on the Darlington Public School upgrade.

During this time, you can expect to see workers carrying out public domain works.

All works on site will be undertaken in-line with the development consent conditions, and all efforts will be taken to minimise impacts to the community and local residents.

Works on site will shut down on Friday 24 December 2021 and restart on Monday 3 January 2022. Upon restart, hours of work will be 7:00am to 6:00pm, Monday to Friday and 7:30am to 3:30pm on Saturday. There will be no work on Sundays or public holidays.

Thank you for your patience while we deliver this important school infrastructure.

If you have any queries or concerns about this project you can contact School Infrastructure NSW during business hours on 1300 482 651. School Infrastructure NSW will be closed from Monday, 27 December to Friday, 7 January inclusive.

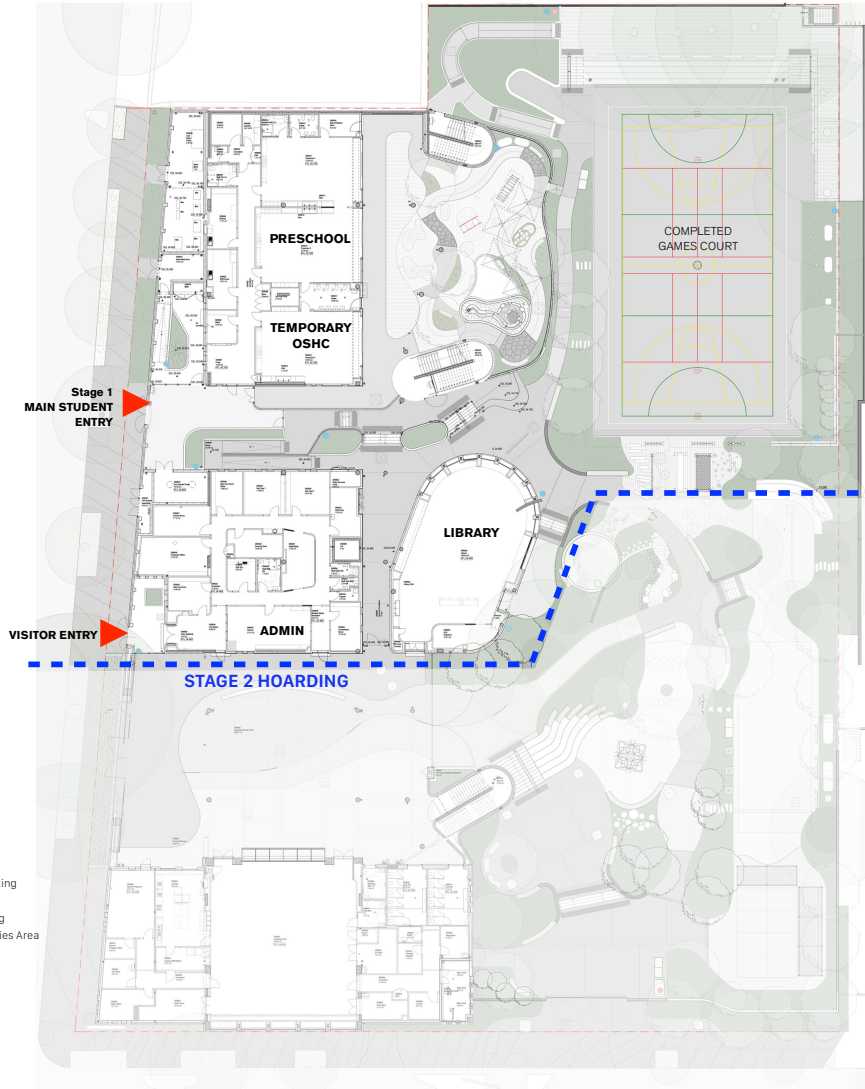

In an emergency, call triple zero (000).
