

# Dundas Public School

## Works notification | 16 September 2025

As part of the NSW Government's plan to rebuild essential services, a project is underway to upgrade Dundas Public School to provide new permanent classrooms to replace demountable buildings at the school.

### Upgrading school services from 27 September to 11 October 2025

During the upcoming school holidays, we will start the upgrade of electricity, water and communications services at Dundas Public School. The upgrade works will include:

- digging trenches to lay cables and pipes for the services
- work outside of the school grounds to connect the school's services to the main lines on Calder Road and Kissing Point Road
- installing a new fire hydrant
- using a mobile crane to put up metal frames for the new building.

There will be changes to the footpath for pedestrians while we connect the services to the outlets on Calder Road and Kissing Point Road. Barricades will be set up on the footpath to divert pedestrians around the work zone. Please see the map on the next page for details.

Traffic controllers will be in place as needed to ensure the safety of the community.

Please be aware that some noise and vibration is expected during these works.

### Working hours

All works will take place in accordance with the approved work hours:

- Monday to Friday from 7 am to 5 pm
- Saturday from 8 am to 1 pm
- No work will take place on Sundays or public holidays unless otherwise advised.

### Managing construction impacts

We will work with the contractor to manage and reduce any potential construction impacts including noise, vibration, dust, and traffic changes. To learn more about how construction impacts are managed visit: [edu.nsw.link/ConstructionImpacts](https://edu.nsw.link/ConstructionImpacts).

### More information

You can find more information about the project at [edu.nsw.link/DundasPS](https://edu.nsw.link/DundasPS). If you have any questions about this project, you can contact School Infrastructure during business hours on the contact details below.
